MANAHAN LEADS IN CURLING

Canadian Ice Title At Stake

SCORE AT END OF SIXTH

Alberta	320 305
Manitoba	001 010

TORONTO, March 5.—Cliff Manahan of Alberta rode toward his second Canadian curling championship in five years today, holding a 13-7 lead over Jimmy Welsh of Manitoba at the halfway mark in their playoff for the Macdonald's Brier Tankard.

TORONTO, March 5—Before one of the biggest galleries ever assembled in the palatial Granite club Alberta and Manitoba played off today for the Canadian Curling championship and the Macdonald's Brier tankard.

Cliff Manahan, veteran skip of the Royal Curling Club, Edmonton, led the Alberta quartet. The rink was entirely different to the one Manahan skipped to the title in 1935 when he defeated Gordon Campbell of Ontario in a playoff.

YOUNG RINK

Manitoba's finalist was led by 27-year-old Jimmy Welsh of the Winnipeg Deer Lodge Club. Welsh won 34 out of 35 matches in the Manitoba bonspiel, largest in the world, and scored eight wins against one loss in the round-robin Macdonald's Brier series that ended in a deadlock last night.

FIRST END

Alberta took a 3-0 lead on the first end, Manahan tipping out Welsh's shot with his last stone. It was Alberta's end after the first three Manitoba stones slipped harmlessly through the house. The Edmonton rink lay two when Welsh made his

SOCRED MEMBER WANTS EXPERT TO BE APPOINTED

Credit House And Export Bills Due For Presentation

By J. F. SANDERSON
Canadian Press Staff Writer

Two Social Credit bills may be introduced in the Alberta legislature today, it was announced by Premier Aberhart at the close of a four hour caucus last night. One of these bills will be dealing with the bureau for export and import trade and for the handling of the provincial wheat crop. The other bill will deal with the operation of the Alberta Credit House.

The caucus followed a speech in the legislature by A. L. Blue (S.C., Rimbey) criticising the government for planning to send Premier Aberhart to the coronation and suggesting a social credit expert be engaged to draft a definite plan for Alberta. At the close of the caucus, Mr. Aberhart said nothing was done about the Blue speech although it was rumored that it finally brought into the open a movement sponsored by the back benchers of the government.

DOUGLAS SOUGHT

According to these rumors, a bloc of Social Credit members, controlling a majority of the house and caucus votes, were dissatisfied with the government's progress in establishing a new economic order in Alberta and were demanding the services of a technical expert like Major C. H. Douglas.

Immediately after the Blue speech, a call went out for a special cabinet meeting, to be followed by a caucus. Members of the government went immediately into the caucus from their own meeting.

Following the caucus, which lasted four hours, the premier said he hoped the Social Credit Bills would be introduced in the legislature today but he was not sure of it.

NO DISCUSSION

Private members would not discuss the sudden turn of events, most of them going the length of saying the Blue speech was not discussed at the caucus.

In the legislature yesterday, the Ribstone member said members of the cabinet were too busy with departmental matters to give their attention to Social Credit measures. "I would suggest that the government secure, as soon as possible, the services of a technical adviser, with a council or committee of at least three Social Credit technical experts to confer with the government and be responsible to this assembly for results.

SOONER THE BETTER

"I have always said and still think that it is necessary to have technical experts to help out the delicate problems that are involved. The sooner we do this, the better for all concerned."

Touching on the Coronation, Mr. Blue said he believed this was no time for Alberta to spend money sending a representative, considering the poverty here.

The Blue speech took on added importance, considering the reports, which have been gaining strength recently, that back bench supporters of the government were dissatisfied with Social Credit progress. It was taken as the first public indication of this dissatisfaction, which has come to light at private meetings held almost daily this week.

Last Sunday, Premier Aberhart admitted his failure to redeem his election promise to establish Social Credit in 18 months. This brought the whole subject into the open.

MANY WELLS ARE NEARING PRODUCTION

Westaside Royalties Only One of Many in Near Future

Eastern interest in Alberta oils is increasing and steady trading in Turner Valley shares is reported on a sustained market.

Latest report from the wellhead of Westside Royalties new crude gusher said that the well was still being allowed to blow in order to clear itself of rotary mud and old oil.

Test of the oil has shown it to be 44 Baume gravity, as compared with Foundation, whose first test was 48 to 49, increasing to 52. Although production tests have not yet been made, observers state that 300 barrels daily is a conservative estimate.

WILL BE CAPPED

The well, after blowing all yesterday and last night, was capped Friday morning with the intention of running the oil through a meter for a production test, it was reported by telephone to S. H. Roe, manager of N. Bawlf Grain Co., Ltd., here, but the owners decided to let it blow for a further time in order to make sure that it was properly cleared.

Bailing is progressing at Newfold Royalties, another well drilled by the Brown interests, but no report of depth of the bailing was received Friday morning. This well is north and slightly east of Foundation.

TWO IN LIMESTONE

Dalhousie No. 5 well, west-flank test, 10 miles northwest of Foundation Petroleums' southern well, was drilling 60 feet in the producing limestone at 4,236 feet, making about 25 feet daily, it was reported from Royalite offices Thursday.

Sterling Pacific No. 4, northern offset to Turner Valley Royalties, was drilling at 6,781 feet Thursday, a distance of 65 feet in the limestone, Sterling Pacific No. 5, between Sterling Pacific Nos. 3 and 4, will be spudded in Friday.

Monarch Royalties, quarter of a mile northwest of Foundation, was drilling at 1,325 feet Thursday. First of present projected wells on Okalta acreage, this well is being drilled for Anglo-Canadian Drilling and Development company.

FRANCE LIFTING GOLD TRADE BAN

PARIS, March 5—Premier Leon Blum's Socialist government bolstered uncertain French finances today by lifting the ban on domestic gold trading, promised drastic curtailment of public expenditures and urged "every Frenchman" to support a new national defence loan—the only one which the treasury will issue during the course of the year. Lifting of the ban on gold for home trading will be effective Monday.

To revive confidence, parliamentary circles said, the government necessarily must peg the franc, at least unofficially. Financial circles expected the Bank of France, with the backing of the treasury and under the tri-partite agreement among France, Great Britain and the United States, to keep the franc at 21.5 to the United States dollar, approximately the present market price.

Peace Looms In Furniture Strike

TORONTO, March 5.—A tentative agreement which, it is hoped, will end Ontario's four-day-old furniture strike, was reached at a conference here yesterday between workers and manufacturers, it was announced by the Ontario department of labor.

After the conferences union delegates left for their home towns to submit the proposals to the workers and will return to Toronto Saturday when discussions will resume. Details were not revealed.

Started Something

MAYOR FIORELLO LAGUARDIA

WASHINGTON, March 5.—The United States apologized to Germany today for remarks made recently by Mayor Fiorello Laguardia of New York about Chancellor Hitler.

BERLIN, March 5.—The United States embassy today transmitted to Washington a full report on strictures against Mayor Fiorello Laguardia and "crime conditions" in New York, appearing in Der Angriff, the newspaper of Dr. Joseph Goebbels, German minister of propaganda and public enlightenment.

Der Angriff, which yesterday filled columns—as did other newspapers—with a stormy attack on Mayor Laguardia personally for his "hail of horrors" remark before a meeting of Jewish women, today ran a series of news photos intended to show New York and the United States as "the land of freedom—for all gangsters."

One picture showed a manacled prisoner, "bank robber number one, who has not yet reached the stage of mayor or governor."

Luise Rainer, Paul Muni, Frank Capra Win Film Awards

HOLLYWOOD, Cal., March 5.—**Luise Rainer received the award of the Academy of Motion Picture Arts and Sciences today for the best performance by an actress in 1936, for her work in "The Great Ziegfeld."**

Paul Muni was voted the award for the best performance by an actor for his portrayal of the title role in "The Story of Louis Pasteur."

TWO MORE

Awards for the best supporting actress and actor went to Gail Sondergaard for her work in "Anthony Adverse," and to Walter Brennan for his performance in "Come and Get It."

The best production was held to have been "The Great Ziegfeld."

Frank Capra won the best direction award for his 'Mr. Deeds Goes to Town."

Sheridan Gibney and Pierre Collings were double winners, taking the awards jointly for the best original screen story and the best screen play," The Story of Louis Pasteur."

Handy Andy, Brier Ice Maker, Always Lands On Button

TORONTO, March 5—Before the greatest curlers in Canada walk out on the Granite club ice and into championship competition, a 69 year old Scot shows those champions from British Columbia and Prince Edward Island how it's done. He lays a half dozen or so stobs on the button, fussy part of it is, he doesn't miss.

He stands at the tee and runs a rock up the ice and the rock stops on the button. Slowly he trudges after it, turns around and shoves it back. Again it stops in the exact centre of the ring. The old man moves over and repeats the performance in another ice lane.

JUST TESTING

He's the Granite club ice maker—Andrew Harvey from Scotland—and he's just testing the sheet to see there's no "falling off on the out turn" before the Macdonald Brier Tankard curlers take over. Can he throw a rock on the button every time?

"I wouldn't like to say I can put them on the spot ev'ra time, but in most cases—aye, in most cases," he says. Andy can find nothing surprising in his experience since he's been at it so long, since he was a boy in Lanark.

HE'S GOOD

There he was a good curler and a much better lawn bowler. He won international honors in lawn bowling and was the Edinburgh west end bowling club singles champion three years in a row, the best record in the club's 90-year history.

Having watched champion curlers in Canada for several years—especially the western stars, who come down for the Macdonald's Brier—he is convinced Scotland no longer is supreme in this sport. "Such curling as that can not be seen anywhere else," he comments looking at the Canadians.

"The westerners, fast, short game is the best in the world," he says.

JAPAN'S EMPEROR TO HONOR GEORGE

TOKYO, March 5—Emperor Hirohito, it was understood today, is presenting King George and Queen Elizabeth of Britain with the grand order of the Chrysanthemum and the first class order of the sacred crown, respectively on the occasion of their forthcoming coronation. The decorations are the highest of the Japanese Empire.

Gas Masks Devised For Race Horses

NEWMARKET, England, March 5.—While the air ministry was announcing its budget for 1937 to parliament today, a special air raid precautions committee was formed at Newmarket with its chief function to devise special gas masks for race horses.

OTTAWA'S SNOW THRILLS LA PONS

OTTAWA, March 5.—Lily Pons, petite opera singer, was delighted to see snow falling in Ottawa on her arrival today for it convinced her she was "really in Canada," but she had local shoe merchants scratching their heads when she ordered "snow shoes." The footwear problem was solved, however, when Miss Pons explained she really meant overshoes—the velvet ones with the fur trimmings.

French Add To Navy

PARIS, March 5—The French government strengthening all branches of defence, moved today to increase the navy's manpower by 10,000.

Tory Grip Broken by Laborites

LONDON, March 5—Returns from 116 constituencies today gave the Labor party, headed by Herbert Morrison, a substantial majority in the London county council and registered a definite setback to the Conservative municipal reformers, who had attempted to oust Morrison in one of the hardest-fought municipal elections in greater London's history.

At 1.30 p.m. today official returns on yesterday's election gave Labor 70 seats out of the 124 on the county council, while the municipal reform group had 46.

EIGHT STILL VACANT

Only eight results were yet to come. Labor gained nine seats and lost four; the Conservatives gained four and lost nine.

In 1934 Labor elected 69 councillors to 55 for municipal reform. Of the 124 seats, four were filled yesterday by acclamation of municipal reform candidates.

Voting ran much heavier than in 1934 when approximately one-third of the electorate voted. Total registered voters are approximately 950,000 men and 1,100,000 women.

SON OF ADMIRAL

Among those elected was Earl Beatty, son of the late Admiral of the Fleet, who won a seat in Peckham. G. R. Strauss, Morrison's right hand man, also was reelected despite charges of "Communism" aimed at him by the opposition based on his signing the "United Front" manifesto of the Independent Labor party, the Socialist party and the Communist party.

Fascists were defeated in Bethnal Green, North East Shoreditch and Limehouse.

BOARD'S POWER CHALLENGED IN COURT ACTION

Authority to Reduce Principal of Secured Debt to Be Tested

The authority of the Board of Review, appointed under the provisions of the Farmers' Creditors Arrangement Act, to reduce the principal of a secured debt below a valuation placed on the security by the creditor was challenged in an application made at Grande Prairie in district court before Judge J. D. Mackenzie by Lee Ward, Grande Prairie, seeking the setting aside of a proposal formulated by the Board of Review on behalf of John Miles, district farmer. Judgment was reserved.

If this action should succeed it would mean that over 90 per cent of the proposals formulated by the Board of Review in Alberta could be attacked through the courts whether the debtor-farmer had fulfilled the terms of the proposal or the letter or not.

OWED $8,000

Under the proposal before the court the debtor farmer, John Miles, Grande Prairie, owed $8,000 on a half section of land under mortgage to the appellant. The appellant valued the land at $6,500, but the Board of Review took the view that all the farmer could pay on the mortgage, having in view his ability to pay, was $5,000. The annual calling for payment of this amount was made.

In the alternative of the court finding against the appellant on his question of the power of the Board of Review to reduce the principle

AUSSIE CABINET WILL GET TEST

SYDNEY, Australia, March 5—The Australian Commonwealth will pass on two proposed amendments to its constitution tomorrow, and, incidentally, give a pre-election test to Prime Minister J. A. Lyons government.

Opposition to the proposals, already approved by parliament, has arisen from groups holding the constitution to be sacrasanct. If the electorate also approves, the changes would open the way to federal regulation of interstate marketing and air transport.

VAST ACREAGE OF OIL RIGHTS ARE RESERVED

Government Places Area of 61,268,400 Acres Under Reservation

Potential oil rights in an area of 61,268,400 acres of land, comprising approximately three-eighths of the province, have been placed under reservation by the government under provisions of an Order-in-Council dated March 3, according to an announcement made on Friday by Hon. N. E. Tanner, minister of lands and mines. This land is north of an east-west line though this city.

The reservation is being made in the interests of the province and will not hinder development in any way, declared the Minister.

The Order of March 3 amends the petroleum and natural gas regulations for setting up of crown reserves. All the odd-numbered sections lying to the north of Township 52 have been withdrawn from leasing and are designated as crown reserves and in the case of mountain areas and lands that fall within forest reserve will be so published at the time an application is made by a person wishing to lease an area.

PRESENT REGULATIONS

At any time during the regulations require these areas to be staked before an application may be made for a lease. The regulation requires that the applicant must stake on equal area for the crown. It is said that the interest of the crown will be safeguarded the applicant must file an affidavit that from surface indications visible and from geological information available, the tract selected by him is a crown reserve is as favorable for the discovery of petroleum as the area that the lessor wishes to lease for himself. It is provided that in surveyed territory an individual may file on from 40 up to a maximum of 1920 acres.

MAXIMUM ESTABLISHED

In unsurveyed territory a corporation may lease will be permitted to acquire rights under the petroleum and natural gas regulations, but the maximum of such areas located or staked may double the area provided for in the regulations. The establishes a maximum of 3840 acres of which one-half would be held by the individual and the rest by the province. The minimum area which may be staked or located in unsurveyed territory is 320 acres, one-half to be held by the individual and the rest by the crown.

It is recalled that John Hargrave, former technical adviser to the special Credit planning committee recommended that one eighth of the total area of the province be set aside for the development of the province by Social Credit financing.

Whether passage of this Order is as a result of the planning committee's report is not disclosed.

Liberal Expelled

TORONTO, March 5.—Dr. James Roberts, Liberal member for Sault Ste Marie, today in the Ontario legislature was accused by Premier Mitchell Hepburn of "blackmailing" the Algoma Steel Company, and was then read out of the Liberal party by the premier.

OPERA'S PONS She was thrilled.

AUSTRALIA'S LYONS He faced test.

FRANCE'S BLUM He bolstered franc.

PRACTICAL MAN TO ADMINISTER CREDIT HOUSE

Government Considering Appointment of Executive Officer

Consideration is being given by the government to the appointment in the future, of an administrative executive officer in connection with the operation of the Alberta Credit House, it was learned on Friday.

It was learned that the executive would not be a technical adviser in the sense that Major Clifford H. Douglas and John Hargrave of London were advisers.

The government and government members of the house take the position that both Major Douglas and Mr. Hargrave were more theoretical experts than practical.

The new appointee when made will be a practical man, a chartered accountant or a man with banking experience who understands practical operation of credit.

PEOPLE'S LEAGUE READY FOR ACTION

CALGARY, March 5.—Organized for the promotion of "sane, sound and progressive government," the People's League of Alberta stands ready to take direct political action if necessary, according to a statement issued here today following a meeting of the provincial executive.

Until it is found necessary to take direct political action, according to the statement issued by R. C. Drew, organizing secretary, the league will continue as a non-partisan organization.

TOLEDO POUNDED BY LOYALIST GUNS

MADRID, March 5—Government artillery pounded Toledo today and militiamen scored an important victory in northwestern Madrid.

The second siege of the Toledo Alcazar entered its fourth day. The artillery barrage prevented insurgent counter-attacks against the 30,000 militiamen holding the Capuchinos district south of the Alcazar.

The clinical hospital in University City partly collapsed during the night and appeared today to have been abandoned by the insurgents.

REVENUE BRANCH GETS NEW HOURS

Exclusive to Edmonton Bulletin

OTTAWA, March 5—A re-adjustment of the hours of labor of the officers of the Dominion Department of National Revenue is to be brought into effect by Hon. J. L. Ilsley, minister of the department, in an effort to expand employment in Canada.

At present customs and excise officers work seven days a week and frequently put in overtime. They are paid for the extra day and for the overtime. The government has decided to limit the employment to a six-day-eight-hour system, and the extra work, hitherto, will be paid as overtime will be given to other people who will be taken on in the department.

Bank Deposits Up

OTTAWA, March 5.—Savings deposits in Canadian chartered banks on Jan. 30 were $1,546,604,360, a slight increase over the total on Dec. 31, according to the monthly statement of the finance department. Demand deposits were about $36,000,000 lower at $644,267,000.

TO RECOMMEND PLEBISCITE ON FORTIN SCHEME

Government Certain to Insist Question to Put to Burgesses

The provincial government will recommend that a plebiscite be taken among burgesses of this city on the Fortin debt equalization plan for Edmonton's indebtedness, it was learned in reliable circles on Friday.

The plan has not yet been submitted to the government for consideration, but when it is, the government, it is learned, will recommend a plebiscite.

STILL BEFORE COUNCIL

The plan is still before the city council. Before any action can be taken by the government, the matter will have to be referred to the Board of Public Utilities Commissioners and after approval of the plan is gained, or decision as to any further action is made, it will be referred to the provincial government, when the plebiscite will be recommended.

Already Calgary has decided that a plebiscite on the matter will be taken.

Neither Premier William Aberhart, nor any cabinet minister commented on the intentions of the government, but it was learned that the matter of a plebiscite is one that is favored in dealing with the debt extension scheme.

VAST SUM FOR AIR DEFENCE IN ESTIMATES

Britain Proposes to Spend $412,500,000 in Coming Year

LONDON, March 5.—Britain proposes to spend £82,500,000 ($412,500,000) on air defence in 1937. This is £21,800,000 ($159,000,000) over 1936. The increase alone is almost double the total expenditure of £16,001,000 in 1928.

The air estimates issued today raise Britain's total bill for the three fighting services in 1937 to £369,739,000 of $1,848,695,000 which is an increase of around 43 per cent over 1936. Of the total 1937 air expenditure, £26,000,000 will be borrowed, the remainder will be met from revenue.

GREAT INCREASE

In 1918, the Royal Air Force establishment consisted of 28 squadrons, seven of which were stationed at home and 21 overseas. The present scheme of expansion provides, among other things, for a Metropolitan Air Force of 1,750 aircraft.

These will be organized into 124 squadrons, of which 100 will have been formed by the end of March, 1939. During the summer, the number will rise to 124 squadrons, including 29 squadrons of the Auxiliary Air Force, with an approximate first line strength of 1,500 aircraft. These air estimates provide that this will be increased in size to give the necessary total first line strength of 1,750 aircraft.

TEN UNITS

It is also proposed to create a balloon barrage in connection with the defence scheme for the London area. Orders for the necessary balloons and equipment have been placed.

Provision is taken for increasing the fleet air arm from 217 to 278 first line aircraft during the course of the year in conformity with Admiralty requirements for aircraft carriers and catapult ships.

In the original estimates for 1936 the total number of officers and men in the Royal Air Force stood at 50,000. Provision now is made for a total of 70,000. These figures are exclusive of officers and men serving on the Indian establishment.

$450 BUILDING BARS BIG DEAL IN FARM LAND

Land Worth $6,000 If Home Released by Creditor, Court Told

A house valued at $450 is all that stands between a creditor and repossession of his land on which a debtor owes $7,500. It was disclosed during the hearing of an Edmonton district farmer's application for a reduction of his debts before the Board of Review appointed under the Farmers' Creditors' Arrangement Act.

The farmer, through his lawyer, William Farlee, told the court he had purchased the land—a half-section—in 1930 for $10,000, and had made considerable improvements including the erection of a dwelling costing $1,500, erection of one mile of three-strand fence and a considerable quantity of breaking.

WILL RELEASE

He told the court his client was willing to relinquish the land forthwith if the creditor would agree to the removal of the house.

Efforts at an agreement had been unsuccessful, Mr. Farlee said, as appeared before the Board of Review. The creditor wanted the house as he had an offer to sell the land for $6,000 with the house. He was of the opinion the house was more valuable to the farm than to the debtor, and had made a cash offer of $100 for it.

Thomas Mitchell addressing the creditor, stated that an offer of $6,000 for land at this period was one which should not be disregarded, and considered it the duty of the creditor to make a more generous offer to the debtor-farmer.

12-YEAR PLAN

He intimated the board would formulate a proposal under which terms of payment would extend over 12 years. "It would be better for the creditor in this case to meet the wishes of the debtor and not have any impediment to his sale, as under the proposal he would only get his money in small amounts. If he meets the wishes of the debtor he will get $2,000 cash when the sale is made."

The case was adjourned for further consultation between barristers representing the debtor and creditor.

KNOTTY PROBLEM CONFRONTS COURT

Whether a married woman who refuses to live with her husband because of marital difficulties, and who refuses to seek a judicial separation, can qualify for relief in Edmonton was the knotty point which confronted Judge J. D. Matheson in the special court to deal with relief recipients who are charged with failure to support or to abide the court order.

For the municipality P. G. Thomson, K.C., argued that citizens did not have the legal right to establish residence in Edmonton. Her domicile was with her husband until she obtained a judicial separation or divorce, he contended.

As she refuses to live with her husband and will not seek a separation order she must accept the consequences, he said, and be settled. The case was adjourned one week to enable counsel to submit authorities supporting his argument.

RAILS BATTLE BUS, TRUCKS ON NEW ACT

Competition From Modern, Cheaper Transport Feared by Lines

OTTAWA, March 5.—Canadian railways lost $38,000,000 a year attributable to competition from trucks and buses, Bernard Allen, Canadian National Railways economist, told the Senate Railways Committee yesterday as it strove to reach a decision on the transport bill.

Trucks competed with railways "up to loads of 1,000 and 2,000 miles," Mr. Allen said. He specified shipments of frozen fish from Winnipeg to New York City.

16 PER CENT

The gross yearly loss represented a little more than 16 per cent of the total freight traffic and was from all highway traffic, provincial, interprovincial and international.

He endorsed the clause of the transport bill which would give a federal body control over interprovincial, dominion and international highways traffic because he felt it would provide a uniformity of regulation.

The bill would authorize a new board of transport commissioners, set up in place of the present board of railway commissioners, to regulate certain forms of rail, air, water and highway traffic.

"PUBLIC INTEREST"

Transport minister C. D. Howe defended his bill and said its object was to "obtain stabilization of the transport industry in Canada in the public interest as well as of those engaged in transportation."

Stirring back at critics who have indicted the bill before the committee during the past two weeks, the minister said objections were based chiefly on "misconceptions of the results which might arise from application of regulation in all forms of transport."

"It is submitted that there has not been, as a result of the rate regulation of railways, any tendency to increase rates," he said. "On the other hand the effect has been to stabilize them. This is the object of the bill."

With regard to transport by air, it was not the intention at present to make rate regulation apply in the case of irregular services in northern districts, such as those in mining areas, Mr. Howe said.

MANITOBA AND ALBERTA LOCK IN ICE FINALS

Continued from Page One

first throw, failing to change the layout.

Manahan took advantage of this miss to put in another shot, and when Welsh did draw to the button, the Edmonton skip took it out.

It was 5-0 for Alberta after the second end, where the Manahan crew built up an impregnable guard. Welsh circled the front guard to place a shot with his first stone, but after Manahan had removed this, Jimmy couldn't duplicate, and the only two rocks in the house counied for Edmonton.

IT'S A ROUT

Manitoba got one back on the third but the brilliant Manahan, playing superbly and outplaying his young rival on every shot, scored three on the fourth end to lead 8-1.

Welsh scored his single on a knockout end, driving the last Alberta rock from the house.

On the fourth Manahan's winning shot raised a guard which took out two Manitoba rocks and left the Albertans lying two.

Welsh drew to the button with his last shot on the fifth but Manahan cut and stayed in himself for three.

A GREAT SHOT

Another great shot by Manahan prevented Edmonton from scoring four on the fifth end. The Welsh rink got only one. The Alberta skip drew around a front guard and raised another guard into the circle for second shot. An attempt by Welsh to work off a wide rock and take out the lone Alberta stone failed.

Howie Morenz Has Nervous Breakdown

MONTREAL, March 5—Howie Morenz is suffering from a nervous breakdown, it was disclosed today by Dr. Hector Forgue, attending physician. Gentleman also broke his leg in a hockey game several weeks ago.

J. E. Wallbridge's Brother Succumbs

BELLEVILLE, Ont., March 5—Dr. Francis George Wallbridge, chief coroner for Hastings county, died here last night after a heart illness. James E. Wallbridge, K.C., Edmonton, and Joseph Wallbridge, Islay, Alta., are brothers.

Newspaperman Dies

OTTAWA, March 5 — Charles Hanbury-Williams, 76, well known in newspaper circles throughout Canada, and for many years a member of the parliamentary press gallery, died here today after a long illness.

Dr. W. T. G. Morton, a Scotsman, is credited with giving the world ether as an anesthetic.

Farmers Now Dust-Proof

Like a black, stifling pall, dust storms once more descended over a wide area between Kansas and Texas, rolling in like black blizzards as this striking picture, taken in the "Dust Bowl" area, shows. Lack of rain or snow accounted for the early storms, weather observers said. So dense were the dust clouds that some residents resorted to masks such as those worn by this Oklahoma City couple.

M'KENZIE KING IN WASHINGTON TO TALK TRADE

Canada's Premier and Roosevelt Will Discuss Inland Waterway

WASHINGTON, March 5 — Prime Minister W. L. Mackenzie King arrived today to discuss world affairs with President Roosevelt during an overnight visit at the white house.

Inland waterway and world affairs would be the subject of a talk with Mr. King this evening.

MUTUAL INTEREST

Mr. King was met by secretary of state Hull, Marvin H. McIntyre, presidential secretary, and other officials. He went first to the Canadian legation, being scheduled to begin his white house visit later in the day.

Mr. King said he had been invited by the president to "talk over matters of mutual interest to the United States and Canada."

OFFICIALS SILENT

Officials were silent on what these matters were, but there was speculation that Mr. Roosevelt had determined to press the St. Lawrence treaty issue during session and wished by personal conversations to determine the Canadian attitude.

Observers believed trade policies and the international situation in general also would be discussed.

The President has been a staunch advocate the proposed waterway to connect the Great Lakes with the sea by way of the St. Lawrence river since he assumed the governorship of New York State in 1928.

TOTAL OF 82 ARRESTS MADE DURING MONTH

Report of Police Chief A. G. Shute to the city commissioners of the work done by the police department covering the month of February, shows that a total of 82 arrests were made by the department in the short month. Of these 14 were drunks and 14 covered cases of thefts.

Only 22 summonses were issued, as compared with 92 in January, and 12 of these were in connection with alleged breaches of city by-laws.

Traffic department announced that there had been 78 auto accidents, with eight injuries, but no fatalities.

The detective department received 178 complaints, investigation of which resulted in 48 arrests, 11 of them juveniles. They received reports of 22 housebreakings. This is the lowest figure for some time, the highest being 50 in December.

Morality squad's drive against bootlegging and vice netted 23 arrests. They totalled 173 arrests in January, 165 of them being in connection with raids on alleged gambling houses.

Accountants department showed that $54 had been received from traffic tags, as against $6 last month. Exit collections in fines were down to $140 this month, as compared with $524 the month before.

Shapiro, Cupid, Gets Matchmaker's Fee

MONTREAL, March 5.—Chief Justice R. A. E. Greenshields decided today in Superior Court a man who plays Cupid, for a consideration, is doing the world a real service and entitled to his fee as matchmaker.

S. Shapiro was ordered to pay L. Pascal $190 for services in bringing about the engagement and marriage of Shapiro's daughter, Lillie, to Dave Dennenberg. Agreement between Shapiro and Pascal called for $200 with $10 as a down payment.

Hobo Hen Rides Rods On Train For 2,005 Miles

LOS ANGELES, March 5—J. H. Harris, Pullman company employee, offers "Hobo Mary" as the world's most widely travelled hobo hen.

Harris said he noticed Mary on the dining car rods as the train was ready to leave New Orleans and tried to shoo her off, but she climbed on the car trucks out of his reach.

Passengers established a pool, betting how far she would ride. Two footless and waterless days and nights later she reached Los Angeles, completing a 2,005-mile trip. Harris captured Hobo Mary and gave her a home in his back yard.

BOARD'S POWER CHALLENGED IN COURT ACTION

Continued from Page One

below the security valuation the court is asked to set aside the proposal on the ground the farmer debtor has not fulfilled the terms of the proposal.

JURISDICTION DELEGATED

The action was brought through the district court because absolute jurisdiction over the Board of Review is delegated by parliament to that court. In the event of a decision unfavorable to the appellant an appeal will be taken to Alberta appeal court seeking clarification of the Privy Council and Supreme Court judgments.

It was argued for the appellant that recent decisions of the Supreme Court of Canada and the Privy Council determined that a secured debt could not be revalued, and therefore that any reduction below the valuation placed on the security was beyond the jurisdiction of the Board of Review.

DECISIONS LAID DOWN

For the debtor farmer, and the registrar of the board of review it was argued that these decisions laid down the principle that a Board of Review could not destroy the security in a debt but that a board did have the power to deal without restriction in the reduction of principle of any secured debt.

J. H. Sissons, of the law firm of Lawler and Sissons, Grande Prairie, acted for the Appellant Lee Alward; W. W. Eager, Grande Prairie, for Mr. Miles and J. P. Mc Isaac, K.C., Sexsmith, for the registrar of the Board of Review.

Amendment Shows All Rail Assistance

OTTAWA, March 5—Hon. C. D. Howe, minister of transport, today presented to the house of commons railways and shipping committee a proposed amendment to the Canadian National railways bill to have all past government payments and grants to all railways included in an appendix to the public accounts of Canada.

ROGERS ADMITS RELIEF SLASH IS CONSIDERED

Reported Cut May Reduce Grant to City by $100,000, or Two Mills

Admission that the Dominion government is contemplating a reduction in relief grants to western provinces is made in a communication received by the city from Dr. W. S. Hall, Social Credit M. P. for East Edmonton, who encloses a letter from Hon. Norman Rogers, federal minister of labor, in this connection.

It was reported here that the Dominion budget showed a reduction from $30,000,000 to $19,500,000 in federal relief contributions, and civic officials compute that this percentage of a cut would mean that Edmonton would receive $100,000 less a year toward the cost of direct relief. This represents about two mills on the tax rate.

Mr. Hall submitted five questions to the minister of labor in connection with relief grants, and in answer to one of them Mr. Rogers stated: "Yes, a reduction is contemplated and an announcement of this was given to the press two months ago . . . The amount of this reduction has not yet been decided upon nor the apportionment of it to the various provinces."

IN BETTER CONDITION

The federal official also states: "These reductions are being made because it is felt that with the improving employment conditions throughout a large part of the Dominion and the improved financial condition of many provinces and municipalities, these are now in a better position to reassume the greater share of their relief costs."

Assistance from the Dominion government which has been available during the worst of the depression should be diminished as the need becomes less."

Claim Mullen Did Not Transgress On Legislature Rules

Quotations from speeches of a former Liberal leader by D. B. Mullen, K.C., Edmonton, in the course of his address in the debate on the Speech from the Throne in the legislature, did not transgress rules of the house and there was no need to withdraw them, according to a ruling handed down by Mr. Speaker Peter Dawson.

D. M. Duggan, Alberta Conservative leader, pointed out that the Liberal leader referred to was dow Mr. Justice W. R. Howson of the Alberta supreme court and could not defend himself through the press.

Mr. Speaker ruled that Mr. Mullen had merely quoted from speeches and had made no remarks that required withdrawal.

Ferguson Avers Canadians Can't Sponge On U.S.A.

CHATHAM, Ont., March 5.—Fear annexation would follow if Canada depended on the United States for protection against military threat was expressed here last night by Dr. G. Howard Ferguson, former Canadian High Commissioner to London. Mr. Ferguson said Canada should not "sponge on the U.S.

Damage Suit Heads Civil Court List

Leading case listed for hearing next week at the civil sittings of the Supreme court is the action brought by Mrs. A. Lorenz against the city of Edmonton to recover substantial damages for injuries received when a street car was suddenly stopped by the operator, throwing Mrs. Lorenz heavily against a seat of the car.

She received severe injuries to her back and ribs which resulted in a permanent deformity.

Six decrees absolute and two decrees nisi in divorce are also listed as well as two minor damage actions.

FEED, FINISHING POLICY URGED BY EDMONTON SOCRED

Adoption of a progressive feeding and finishing policy in order to insure quality and finish of livestock, was advocated by D R. Mullen, S.C., Edmonton, in the legislature on Thursday, in the course of the debate on the Speech from the Throne.

Mr. Mullen, in supporting livestock, declared also in favor of a pure bred sire policy, including horses, cattle, sheep and swine, thereby maintaining a high standard.

He also declared that "We must have a real co-operative marketing organization, through which to market our livestock to the best advantage at a minimum cost to producers."

URGES FARM BOARD

"In my estimation and after giving the matter considerable thought," Mr. Mullen declared, "I have come to the conclusion that the first thing to be done is the appointment of a provincial farm board, comprised of the foremost men in agriculture to advise, to rationalize production, visioning at all times the state of supply and demand.

"The board would be in a position to lift from the market the lower grades of wheat and coarse grains for feeding purposes, thereby creating a better demand for our higher grades and also absorb from our livestock markets the unfinished livestock which today and always has been a glut on our market and which has always lowered the price of our finished livestock.

TWO MARKETS

"Alberta is favored with having two great livestock marketing centres, Calgary and Edmonton. I am looking forward to the time when a livestock policy is put into operation in Alberta, when these large livestock markets will be controlled by our provincial government, and when our stock will be sold on a competitive market to our packing house buyers and where all stocker and feeder and breeders' livestock will be sold to the farmer and feeder, when the producer of livestock will be given marketing services at cost and not be compelled to pay such high prices in order to have his stock sold on a competitive market.

DOUBLE PRODUCTION

"It is then only that the livestock industry of Alberta will begin to function properly and Alberta will not only be producing 1,250,000 hogs per year, but will double production; when Alberta will not be shipping out thousands of head of cattle, 70 per cent of them in an unfinished condition at sacrificed prices, but will be shipping hundreds of car loads of dressed beef and thousands of dollars in freight to live cattle and eliminate the loss of thousands of dollars in the bruising of live cattle in transit."

$7,000 HOSPITAL FOR NORTH AREA

PEACE RIVER, March 5.—The Battle River district will have a $7,000 hospital early this year, according to an announcement made by Dr. T. Powell of Calgary, who is a visitor this week, addressing a meeting of the presbytery of the United Church of Canada. The building will be modern and fully equipped, with a doctor, matron and assistant.

This is good news for the northern settlers and will fill a long felt want, doing away with the long journey required by patients in the past over uncertain roads, especially during the rainy season, as well as around during portions of the winter.

Long Week-End Adjournment For Legislature Seen

Likelihood of the legislature taking a long week-end adjournment was noted in well-informed circles on Friday.

It is probable that an adjournment will be made until Tuesday rather than Monday, as usual, in order to give the government a chance to complete the budget and estimates so that next week the business of the session can proceed without interruption.

CONSIDERING APPEALS DEBT ACT JUDGMENT

Provincial Government Not Yet Decided Whether To Proceed

Whether the provincial government will proceed with the appeals in regard to the Debt Reduction and Settlement Act and the Act bringing about a reduction in interest on all provincial securities, is still under consideration by law officers of the crown, it was learned on Friday.

The Debt Reduction and Settlement Act was declared ultra vires by Mr. Justice A. F. Ewing and the interest reduction bill by Mr. Justice W. C. Ives.

NOTICE OF APPEAL

On Thursday the province filed a notice of appeal in respect to the bill bringing about a reduction of interest on all provincial securities.

This, however, does not necessarily mean that the appeal will be proceeded with.

The law provides that an appeal can be filed within 20 days after the bringing down of a judgment. Notice of appeal in the interest reduction bill is in well before the expiry date.

Any appeal in the Debt Reduction and Settlement Act case must be filed not later than March 15.

STILL CONSIDERING

But law officers of the crown are still considering whether to proceed with these appeals.

In the meantime the government is devoting its attention to additional legislation along the same line.

Firm in the belief that the province has jurisdiction in these matters, law officers are devoting their attention to the drafting of other bills dealing with debt reduction and settlement and with reduction of interest on provincial securities.

LITTLE PROGRESS

It is known that little progress has been made in the actual drafting of these bills but the whole situation is being reviewed.

Present indications are that these bills will be among the last to be brought in by the government at the present session in view of the fact that a widespread canvass of the whole situation is being made.

In the meantime the 90-day moratorium is in effect throughout the province, brought in by Order-in-Council under provisions of the Debt Adjustment Act.

WHEAT BOARD VIOLENTLY ATTACKED IN HOUSE

WESTERN FARMER RACKET VICTIM, PERLEY DECLARES

OTTAWA, March 5. — Western farmers suffered a loss of from $50,000,000 to $60,000,000 through operations of the present wheat board headed by James R. Murray, according to E. E. Perley (Cons. Qu'Appelle), who spoke in the budget debate in the commons yesterday.

In a vigorous attack on administration of the Wheat Board Act under the present government Mr. Perley charged the board with a "crime against the producer" and claimed the farmers had been "betrayed, exploited, double-crossed and sacrificed."

VIRTUAL REPEAL

By refusing to purchase wheat at a fixed minimum price during the present crop year the government had practically repealed the Wheat Board Act, said Mr. Perley. It had appointed a royal commissioner who would not make a report until next session but the government should declare its policy now.

"The farmers mean to stick by the Wheat Board Act regardless of what the Turgeon report may say," he said. "The act is here to stay. The farmers of Western Canada will not long stand the skullduggery that took place last summer with respect to the marketing of their wheat."

From the day Mr. Murray took over chairmanship of the wheat board he had pursued a fire-sale policy with respect to surplus wheat accumulated under the administration of the former chairman, John I. McFarland, said Mr. Perley.

SELL SURPLUS

Mr. Murray had determined to sell all the surplus and had instituted a policy British millers construed as an invitation to bid for Canadian wheat under the fixed price of 87½ cents. As a result of that policy Canadian wheat had been bought for 10 to 15 cents a bushel less than would otherwise have been the case.

During the past summer, he went on, Mr. Murray had kept on selling wheat in the face of a certain crop failure in Canada and the United States. While the board was unloading its surplus on the market, private firms were being allowed by the banks to buy wheat without hedging, so certain did a rise in price appear on the way.

CLEAR EVIDENCE

"Selling wheat with such clear evidence of a poor crop was a crime against the producer," said Mr. Perley, "and I think an investigation should be made."

The minister of finance had been able to report receipt of $3,000,000 from the wheat board out of $15,000,000 appropriated a year ago for prospective losses. This meant considerable profit had been made in recent months on wheat accumulated under Mr. McFarland, offsetting losses earlier in the year while the Murray board was selling at lower prices.

"The racket put over in marketing barley last year," said Mr. Perley, "was the greatest ever put over the farmers. The farmers lost about 20 cents a bushel on their barley as the barley was cornered by certain groups in Winnipeg."

The government, he said, should investigate the barley corner, particularly the actions of four firms on the Winnipeg Grain Exchange.

FARMERS BETRAYED

"Farmers have never been betrayed, or exploited more, double-crossed and sacrificed more than they have been in the last few months by the action of this government," said Mr. Perley.

He said Prime Minister Mackenzie King, speaking at Brandon, Man., in the last election campaign had claimed credit for the wheat board act for the Liberal party. That statement had been spread throughout western Canada and believed.

"No greater misrepresentation of facts was ever indulged in by any public man in Canada," he declared, "and it was too bad the farmers fell for it."

All over the prairie provinces farmers were protesting at the government's wheat policy, Mr. Perley said. Resolutions had been passed denouncing failure of the government to permit purchase of wheat by the board at a fixed minimum price.

ASSAILED PREMIER

The "gem of them all," he said, came from Mr. King's own constituency, Prince Albert, Sask. A meeting of farmers at Shellbrook had demanded resignation of the prime minister and declared henceforth the constituency should be represented by a westerner.

Charles Bothwell (Lib. Swift Current) asked if Mr. Perley had attended any protest meetings. He said he had not as he knew the question would be asked.

Mr. Bothwell then asked if he knew how the resolutions he read had been prepared and put through and Mr. Perley said he did not. Mr. Bothwell said the resolutions were brought to the meetings already typewritten.

When Hon. J. L. Ralston, former Liberal minister of national defence, was attacking McFarland's wheat stabilization operations in the House of Commons, Mr. Murray was supplying Mr. Ralston with information from the Winnipeg Grain Exchange, said Mr. Perley. There was evidence he had played into the hands of the exchange after he became chairman of the board.

No one had more bitterly slated the wheat board act than Mr. Ralston when he was in the house. Yet the government now had chosen him to direct Deal's effort to deal with the farm problem by the Agricultural Adjustment Administration, and of the effort to improve labor conditions through the NRA. After each reference he asserted:

"You know who assumed the power to veto, and did veto that program."

Asserting "no one who sees as a whole today's picture of this nation and the world can help but feel concern for the future." He said thousands of messages coming to the White House served but to emphasize "the never accelerating speed with which social forces now gather headway."

It took 40 years, he said, to battle the issue of slavery, and added:

"But economic freedom for the wage earner and the farmer and the small business man will not wait, like emancipation, for 40 years. . . . It will not wait at all."

His great ambition, he said, is to turn the presidency over "to my successor, whomever he may be, with the assurance that I am at the same time turning over to him at president a nation intact, a nation at peace, a nation prosperous, a nation clear in the knowledge of what powers it has to serve its own citizens, a nation that is in a position to use those powers to the full in order to move forward steadily to meet the modern needs of humanity. A nation which has thus proved that the democratic form and methods of national government can and will succeed."

Appointed

DR. ALAN E. CAMERON

PROF. CAMERON APPOINTED TO POST IN EAST

Named Deputy Minister of Mines for Province of Nova Scotia

HALIFAX, March 5.—Dr. Alan E. Cameron, professor of mining at the University of Alberta, has been appointed deputy minister of mines for Nova Scotia, Mines Minister Michael Dwyer announced last night. Dr. Cameron has had considerable experience in field work in western Canada with the geological survey of Canada. He succeeds Norman McKenzie, burned to death at Sebec Lake, Maine.

Born in London, Ontario, on October 18, 1890, Dr. Cameron received his elementary education at Ottawa Collegiate Institute. From 1909-14 he attended McGill University at Montreal, receiving from it the degrees of Bachelor of Science and then Doctor of Science. From 1914-16 he was lecturer in metallurgy at the University of Alberta. In 1917 he was connected with the Geological Survey of Canada.

SERVED OVERSEAS

He went overseas with the third Battalion of the Canadian Expeditionary Force in 1918 and returned to Canada in 1919, taking up his work at the University of Alberta. In 1924-25 he attended the Massachusetts Institute of Technology and received his Doctor of Science degree.

He is a member of the Canadian Institute of Mining and Metallurgy, a member of the Institute of Metals, of London, and has been professor of Metallurgy at the University of Alberta since 1921.

Dr. Cameron is well liked by students and staff at the University of Alberta. He is married with three children.

Questioned Friday morning Dr. Cameron stated that he did not know yet just when he would be leaving, but in any event, it will not be before the end of the present term at Varsity.

PROTECTION OF PRAIRIE GIRLS, MEMBER'S AIM

Prey of White Slavers When Driven Out of Dried-Up Areas

OTTAWA, March 5—Intent of assertion in the House of Commons Tuesday night that a chain of bawdy houses was being operated in interior of British Columbia was not so much to have a police investigation, but to draw attention to the plight of homeless, transient girls, C. G. MacNeil (C.C.F., Vancouver North) said Thursday.

Mr. MacNeil commented on the offer of Attorney General Sloan, of British Columbia, to investigate if the allegations were amplified.

PRAIRIE GIRLS

His request, said Mr. MacNeil, was that greater protection be afforded penniless but respectable girls who reached the Pacific coast from the driedout areas on the prairies, were deprived of relief because they did not come within the residence rule and were then open to be victimized by white slavers.

The residence rule had been relaxed for men, but not for women. He repeated his statement in the house that "I would be remiss in my duty if I did not make a most earnest appeal to the federal authorities to accept responsibility for the protection of young women who find themselves in these unfortunate circumstances."

STANDS BY CHARGE

As to the chain of bawdy houses, Mr. MacNeil said: "I adhere to my statement. It is a matter of common knowledge there is a chain of such houses in the mining districts of British Columbia."

U.S. WATERFRONT STRIFE CARRIED TO VANCOUVER

VANCOUVER, March 5.—United States maritime disputes crossed the international boundary into Canadian waters today, halting the loading of the American-owned steamship West Ira as Vancouver members of the International Longshoremen's Association and Inland Boatmen of the Pacific picketed the vessel on her arrival here.

Union spokesmen said the West Ira's crew had communicated with Seattle offices of their organization, the Seafarers' Union of the Pacific, and had been advised to refuse steam for the ship's winches unless unloading was done by the Vancouver local of the I.L.A.

Since 1935 when longshore controversies tied up shipping in Vancouver harbor for several months, all longshoring has been done by Vancouver Longshoremen's Association and the Canadian Waterfront Workers' Association, labor organization has affiliation with United States maritime unions.

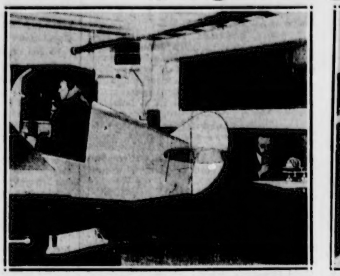

Finance Minister Is Down With 'Flu

OTTAWA, March 5.—Finance Minister Charles Dunning was confined to bed in his home today with an attack of influenza. His condition was described as serious, but not alarming. He may not be able to return to the House of Commons for a week or so.

'Blind Flying' Taught Two Feet Up

The drive to make air transport safer for passengers and personnel has put new stress on the importance of "blind flying," so American Airline pilots are required to practice the art like Dale Dreyer in the cockpit of an instruction plane only two feet above ground, with H. E. Chamberlain taking the place of ground stations.

His eyes glued to the completely equipped instrument board, the student of blind flying is put through his paces just as though he were piloting a plane loaded with passengers. To his ears are clamped headphones and on his chest rests a mouthpiece for use in two-way conversation with the "ground."

Instructor Chamberlain varies conditions to test the pilot's skill at blind flying. By radio he transmits reports on weather conditions and landing instructions. The route the pilot "flies" is mapped by the ingenious electrical device on the table at right—a record from which the pilot can learn if he erred in judgment.

To make sure blind flying conditions are simulated in every detail, the student is cut off completely from outside influences. With the hood pulled down over the cockpit, he has only the instruments and radio reports to assist him in making a safe flight. His every action is recorded, providing a constant check on blind flying ability.

U.S. Supreme Court Upholds Wage Act

WASHINGTON, March 5. — The United States supreme court today upheld the constitutionality of the New York state minimum wage law for women and minors in a decision which overturned a previous ruling of the court.

The decision was handed down by Chief Justice Hughes in a case involving the validity of a minimum wage law for women and minors in the state of Washington.

Roosevelt, Defending Move On Supreme Court, Says It Halts Progress March

WASHINGTON, March 5. — President Roosevelt swung last night into the thick of the fight over his proposal to revamp the United States supreme court with a charge the tribunal's majority had condemned the nation to be "a no man's land of final futility."

Accusing the justices of rendering congress impotent to attack social and economic ills, he called for action now to "free from legal doubts those policies which offer a progress solution to our problems."

NO THIRD TERM

With an obvious reference to the "Dictator" charges hurled by enemies of his court plan, he disclaimed any intent to seek a third term in office.

He struck at the Tribunal's majority with the assertion some justices were letting their own economic beliefs control their decisions.

He said it placed the "personal economic predilections of a majority of the court that we live in a nation where there is no legal power anywhere to deal with its most difficult practical problems."

The speech, his first utterance on the court since his message of th judiciary went to congress a month ago, was delivered at a "Victory Dinner" here, featured event of dozens of Democratic dinners throughout the country celebrating the party's landslide victory in the 1936 election.

APPEAL FUND FOR MOTHER OF ILLEGITIMATES

Classmate of Millar, Name Not Revealed, Puts Up Big Sum

TORONTO, March 5.—A "substantial" gift of money for legal expenses, has been made to Mrs. Pauline Mae Clarke to help her fight the Ontario appeal court ruling that illegitimate children may not share in the $500,000 bequest of the late, Charles Millar to the mother having the largest number of children in the 10 years following his death, the Toronto Star said today in a copyright story.

There are no strings attached to the gift, made by a lawyer-friend and University of Toronto classmate of the late Mr. Millar, it was stated Thursday by C. R. McKeown, counsel for the 25-year-old mother of 10 children.

NOT IDENTIFIED

The only stipulation is his identity not be revealed to Mrs. Clarke, whom he does not know, Mr. McKeown said.

"It seems there is a Santa Claus after all," smiled red-headed Mrs. Clarke, youngest of all Millar will claimants. Five of her children were born after she separated from her husband.

THINKS OF MILLAR

Mr. McKeown said he happened across the unnamed lawyer a few days ago at Osgoode hall. "He asked me about Mrs. Clarke's appeal, and when I suggested she would have trouble raising sufficient money, he asked me what sort of girl she was. When I told him she was a very nice woman, he offered to write out a cheque right then to help her although he has never seen her."

"If Charlie Millar were alive today," he said, "he wouldn't want any distinction made between legitimate and illegitimate children."

Minimum Wages For Men Object Of Ontario Bill

TORONTO, March 5.—Legislation to provide minimum wages for men was announced in the Ontario legislature today by Hon. David Croll, minister of labor.

Mr. Croll introduced a bill to amend the Minimum Wage Act which now applies only to women workers in industry.

We feel the act will serve the cause of industrial peace; that it is one answer to the vexing and disturbing economic problems troubling Ontario and the rest of the world," said Mr. Croll.

Is Unborn Babe 'a Person'? Alberni Mayor Wonders

PORT ALBERNI, B.C., March 5—Mayor Walter Hamilton and his city councillors scratched worried heads today and tried to decide whether an unborn baby has full rights of a resident. On their deliberations rested the fate of a Port Alberni hospital bill.

The British Columbia Hospital Act provides a municipality shall be liable—at 70 cents p.: day—for the bill of every patient treated at a hospital if the patient lived there three months.

The hospital board billed the city at the 70-cent rate for an unnamed woman patient and added another 70 cents daily for her baby starting the day it was born.

"The baby isn't a person until it is born and therefore cannot have had a three-month residence in the municipality," Mayor Hamilton argued.

"Absurd," the hospital replied. "The baby was an unborn person, and if its mother has lived here three months then the child has also been here that long."

Of the land area of Great Britain 21,268,000 acres are used for grazing, 9,250,000 acres are arable land, and 1,950,000 acres are forest lands.

Honey Packing Plant Is Damaged By Fire

Fire of undetermined origin which broke out in the basement of the office of "Honey Producers," a firm of honey extractors and packers operated by W. H. Love, at 9539 106 avenue, brought firemen from No. 2 and No. 5 led by District Chief Jim Macgregor rushing to the scene shortly after 7 p.m. Thursday evening.

Two lines of hose were brought into use and the fire was soon put out. There was very little damage. A few bees wintering in the upper part of the building were not harmed.

Party Whips Face Money Wall on Road to Prorogation

By THOS. WAYLING

Exclusive to Edmonton Bulletin

OTTAWA, Ont., March 5.—Prorogation of parliament by Easter loomed as a possibility while the government and opposition whips sounded out the members this week on a short session agreement. Western and Maritime members particularly felt that it would entail a hardship to take the Easter recess and then return.

The Whips, however, have come squarely up against a dead wall—a $200 wall. The budget provided for a restoration of the five per cent salary cut in the public service.

ALSO TO MEMBERS

This five per cent applied also to the members. It does not, however, come into effect until the end of the fiscal year on March 31 so that if parliament prorogues before that time the members fear the restoration will not apply and they will be out five per cent of their indemnities, or $300.

ONLY $25 A DAY

There is also the possibility that if parliament does not run the minimum of 31 days the members may only get paid at the rate of $25 a day (the rate paid for members who miss too many sessions and do not put in 31 days).

The law officers of the crown have gone into a huddle to consider the indemnity question. If an Easter adjournment means a reduction in the indemnity, there will be no Easter adjournment, otherwise the members may get away by Thursday, March 25.

JOB COMMISSION HEAD ASSAILED BY CONSERVATIVE

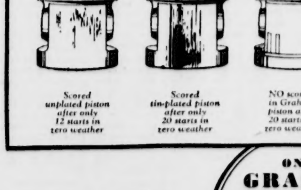

OTTAWA, March 5.—An attack upon the Labor Department and the National Employment Commission which operates under its jurisdiction, was launched in the House of Commons today by T. L. Church (Cons., Toronto-Broadview), speaking in the budget debate.

The Department of Labor, Mr. Church said, was "the most useless organization ever set up by government." He described the employment commission as "a commission of figureheads which has done nothing but make reports."

He asked if A. B. Purvis, chairman of the commission, as an Englishman who, "a few days before the war started, hiked to America and then went down to South America and after the war he popped back to Canada and became a millionaire as the representative of the Dupont interests."

ONLY GRAHAM

has solved the "piston scoring" problem

Scored unplated piston after only 12 starts in zero weather

Scored tin-plated piston after only 20 starts in zero weather

NO scoring in Graham piston after 20 starts in zero weather

Look at the pictures to the right. Here you see proof that cold weather starting causes disastrous wear on pistons in all cars *except Graham!*

In a Graham the moment you press your starter oil flows over the cylinder walls and around the pistons. Scuffing and abnormal wear are stopped!

If pistons A and B were scored so badly in only 20 zero weather starts imagine what they will be like at the end of a full winter's use!

Only Graham has instantaneous cylinder-wall lubrication—an exclusive Graham development ending the greatest single cause of engine wear—"dry" cylinders and pistons.

FRIDAY, MARCH 5

A CONSTRUCTIVE IDEA

Mr. Tremblay, member for Grouard, suggests the province pay a bonus of $15 an acre to anyone who goes on a quarter section of bush land and clears and brings 20 acres under cultivation. The idea is well worth considering. It might be possible to get quite a number of unemployed men to take up homesteads if they could thus get a cash allowance for support of their families while they were making a start at turning their holdings into farms.

It would be better, and cheaper in the long run, to pay them to do this than to pay them to do nothing in town. And the broad result would be that helpless and dependent families would get into position to take care of themselves, while wealth production would increase as the wild land was put under crops.

EXPLANATIONS DUE

It cost the province, so the legislature is informed, only $3,758.45 to register 300,000 hopeful Albertans who wanted dividends and had been told they would get them. Registering people for anything at 5 cents per head must be a record in cheapness.

But, unfortunately, since the dividends are not to be paid, the money was wasted. Was there no suspicion before the money was spent that they could not be paid? Or when was it discovered that a mistake in the calculations had been made? And what was the mistake?

The applicants for dividends are entitled to know things. So are the taxpayers at large, who have to foot this bill; and all others connected with the preparations which failed, are equally entitled to the information.

There must have been some reason for the sudden decision that the whole preparations had been made in vain, and that after all the expectant applicants would have to be refused the dividends they had been promised and had hoped for. What was it?

THE PUBLIC SHOULD KNOW

Mr. Bowlen did not get much information in response to his questions in the legislature regarding the preparations made last fall for distributing basic dividends. To the question of whether premises had been acquired for credit houses the answer was "yes"—and nothing more. The Minister declined to say what and where these premises were. Replying to another question he said some of these properties had since been disposed of. And on another point, that no premises are now being held in readiness for use as credit houses.

The inference of course is plain, if the information is not new; the proposal to distribute dividends has been abandoned.

The upshot of these replies is that the Government acquired some properties, somewhere, and has since disposed of some of them. That is all, apparently, the legislature and the public are to be told.

Since these transactions were carried through with public money, the house should insist on knowing more about them. The principle cannot be admitted that a government is free to speculate in real estate with public money, and then refuse to give the representatives of the public full information regarding its operations. To attempt that isn't "cricket." To admit the point, and establish the precedent, would in course of time ruin the province, beyond chance or hope.

MORE TAXATION?

The provincial budget, if the Government's newspaper supporter is correctly informed, is likely to levy higher taxes on corporations and large incomes. Governments usually celebrate the attainment of a balanced budget by cutting taxation. In Alberta, it seems, the rule is to be reversed, and since the public have paid so much they are going to be made pay more.

Unless, of course, the Provincial Treasurer intends to come to the rescue of Mr. Unwin and repeal the "2 per cent" sales tax. Which, considering the bull moose tendencies the member for Jasper-Edson has been displaying of late, he may not be inclined to do.

But if—with a revenue already sufficient for current needs—taxation is raised still higher, some parties other than the taxpayers will take an interest in that. The bond-holders will at once raise the point that since the Government is collecting more than it really needs it could pay the full contract rates on their bonds if it wanted to.

The Government couldn't do that, but the bond-holders will argue it just the same—and argue it in court when they get a chance. In which case the Government would have a pretty weak and wobbly defence if it tried to claim it couldn't pay—while collecting bigger and better cash surpluses. Hoisting taxation is a poor way to prove that the taxpayers are already paying all they can pay.

RECLAMATION

Hon. W. N. Chant varied the proceedings in the legislature by talking business and paying minor attention to politics. His address was an exposition of the policies he is trying to apply to the department of agriculture. If these do not differ greatly from the policies other ministers of agriculture have followed, and are now following in other provinces, that is only to say they are policies recognized to be sound and practically helpful.

Aside from more technical matters, the Minister made one observation of very general interest in the west, and which it is to be hoped is correct. He said successive droughts in parts of the west "have driven home to the people of eastern Canada the fact that the problem is a national one."

It is to be hoped this is not a too-sanguine statement of the case. Certainly the Dominion Government is showing a new, belated, and very welcome disposition to treat reclamation of the dry areas as a matter of national importance. Even the bondmen seem to realize the dry belt farmers cannot save these areas without some easement of their burdens.

But neither Governments nor financial institutions have gone the whole way in applying remedial measures on the scale they will have to be applied to bring success. It is good to know the Minister is co-operating with the federal authority in the rehabilitation work, and, it may be supposed, urging that the work be carried on with all practicable speed.

Daily Menus

By DOCTOR FRANK McCOY

Dr. McCoy's menus suggested for the week beginning Sunday, March 7, 1937.

SUNDAY—Breakfast: Baked eggs; crisp bacon; Melba toast; stewed prunes. Lunch: Steamed rice; buttered broccoli; salad of grated raw carrots. Dinner: Baked chicken or rabbit; buttered parsnips; string beans; avocado salad.

Dr. F. McCoy

MONDAY — Breakfast: Oatmeal with butter or milk. Lunch: Peas in turnip cups; crisp celery. Dinner: Broiled steak; buttered spinach; baked ground beets; ripe olives; dish of berries (canned without sugar).

TUESDAY — Breakfast: Eggs poached in milk; Melba toast; stewed figs. Lunch: Asiago bean timbales; salad of shredded cabbage. Dinner: Roast mutton; buttered small turnips; stewed tomatoes (canned); salad of celery and lettuce; gelatin.

WEDNESDAY—Breakfast: Cottage cheese; sliced pineapple. Lunch: Buttered vegetables (carrots and beets); glass of milk. Dinner: Vegetable soup; left-over mutton; steamed carrots with parsley; salad of endive and lettuce; pear sauce.

THURSDAY— Breakfast: Coddled eggs; re-toasted wholewheat biscuit; stewed prunes. Lunch: Potato soup; buttered spinach; crisp celery. Dinner: Meat loaf; cooked turnips; shredded lettuce with olive oil dressing; baked apple.

FRIDAY—Breakfast: Boiled whole wheat; milk; stewed raisins. Lunch: Baked cauliflower; canned asparagus salad. Dinner: Tomato bouillon; baked sea bass; buttered broccoli; beets; salad of sliced tomatoes.

SATURDAY—Breakfast: French omelet; crisp bacon; stewed dried apricots. Lunch: Glass of grape juice. Dinner: Vegetable soup; Salisbury steak; buttered okra; string bean salad; pineapple whip.

"French Omelet: To 2 ozs. of milk add an egg. Put in a dry frying pan over a slow fire and beat the milk and egg together. Stir and beat constantly so that it does not stick to the pan, and continue this until the mixture assumes a jelly-like constituency. Do not fail to keep on stirring the mixture even after it has been taken from the fire, as the frying pan will retain a good deal of heat which will continue to cook the egg. Serve in sauce dishes or egg cups. You will find that 1 egg prepared with 2 ozs. of milk in this way will serve one person and exactly fill the large end of an egg cup.

QUESTIONS AND ANSWERS

QUESTION—Henry W. writes: "I am 37 years old and have apparently succeeded in curing a stomach ulcer. My doctor says to go ahead and take light exercise, but I am afraid this will tear open the recently healed surface. Do you think there is any danger in moderate exercise?"

ANSWER—As the ulcer has reached a fresh healed or quiescent stage, your doctor has given you excellent advice. However, the healing over of the ulcer surface is only the first part of the treatment and the second part consists of building up your body in every way possible. Exercise within reasonable limits is a necessary part of the second stage of the treatment. You will find that walking, if you begin with short distances each day, will be of benefit, and the same is true of light physical culture exercises. Violent or strenuous exercise should be avoided but moderate exercise will undoubtedly prove helpful. Another important point for you to keep in mind is the need for avoiding nervous tension. Most ulcer patients have a tendency toward nervousness and it is necessary to help themselves to a great extent by recognizing it and avoiding it. If you will allow your experience with a gastric ulcer to teach you the value of building up the general health at the same time that you maintain better nerves in control, you will find that your illness has been invaluable for showing you the way to better health.

QUESTION: Norma R. inquires: "What can a person do who has been told to omit all salt due to Bright's Disease? I try to get along without it, but I surely do miss it."

ANSWER: I do not find that it is necessary to eliminate all salt from the diet of a patient with Bright's Disease. It is difficult to make cooked food palatable without the addition of at least a small amount of salt. I believe that the patient should keep the salt down to the lowest minimum as the over-use of salt should be avoided in these cases. You will be pleased to discover that you will not miss the added salt or salt on the cooked vegetables if you cook them in their own juices as this encourages the retention of the natural food minerals and improves their flavor. Undoubtedly, if you cook them in large amounts of water, which are later drained off and thrown away, the vegetables will be without flavor unless salt is added freely. Try cooking the vegetables in such a way as to keep all the flavor in them. Once you learn how to prepare spinach, carrots, etc., in this way, you will probably be satisfied to eat them flavored with butter, the small amount of salt in the butter being all that is needed.

QUESTION: Hiram H. writes: "Due to a kidney complaint I have been advised to drink only distilled water. What do you think of it? Will it have any value?

ANSWER: The use of distilled water is of benefit in kidney disorders and it is frequently prescribed. Usually the patient is instructed to drink the water freely as this stimulates a greater kidney elimination. I also recommend the distilled water when the patient is being bothered by kidney irritation. Distilled water is simply a form of pure water, from which every trace of impurity is lacking. Follow your doctor's advice.

QUESTION—Albert E. asks: "When examined, I was told to cut down 'ptyalism' on my report. What is this?"

ANSWER—By ptyalism is meant an excessive secretion of saliva. This often proves a troublesome symptom, causing the patient considerable annoyance.

The Passing Show

By J. S. COWPER

Those who admire German kultur and think how much better Canada would be were it placed under a dictatorship, might ponder on the rules and regulations of the Nazi concentration camps, as published by the Committee on Justice for the Victims of Nazism.

Prisoners in the Nazi concentration camps are divided into three categories. More strictly are the categories represent (1) the mass of the unfortunates, and (2 and 3) the graduating classes for release.

To obtain release from "protective arrest," a prisoner must "first demonstrate by his demeanor and attitude that his protective arrest has brought about the desired results." He must not be seen talking to others, or "bawl, or cry or behave in an unseemly manner," or complain of being sick when the doctor finds him to be otherwise. In short, he must show that he has been thoroughly cowed into submission before he is allowed to be rated as a prisoner of the second class. He must continue to show perfect conduct as a prisoner for three months after being rated as a second class prisoner before being raised to the rank of a first-class prisoner.

Release is open to first-class prisoners at the end of a further three months' confinement on condition that they have (a) never violated any of the camp rules or been placed under arrest; (b) that they have changed their attitude in favor of National Socialism; (c) renounced Marxism, and (d) made out a written list of the names of the leaders of their political group who have not been captured.

Any prisoner who is punished with arrest in camp is automatically placed back into the major mass of prisoners who are there for an indeterminate period. He must start again to win his way into the two upper classes if he is ever to be freed. Arrest is given for a large number of offenses, such as, sitting on one's bed without permission of the company commander; hanging linen in barrack windows; going on sick leave without being judged sufficiently ill by the camp doctor; "bawling, crying or behaving in an unseemly manner." For the last named offence the punishment is eight days' confinement in a cell, sleeping on hard boards, with bread and water for four days and warm food for the other four days.

Should a prisoner commit an offence that merits solitary confinement, such as answering back, he may never get release, as the regulations specify that "prisoners sentenced to solitary confinement at any time may never expect to be released."

The only hope for such an unfortunate is that he will be shot or hanged. Camp offences for which he may be shot or hanged are, fortunately plentiful. They include any who:

"harangues his fellow-prisoners, or delivers inciting speeches to them in barracks, spreads true or false stories pertaining to the life in the concentration camp, receives or communicates to others such information, induces others to flee or commit any similar crime, refuses to be obedient or calls upon others to act in a like manner, wilfully causes a fire or other damage . . ."

In case of doubt the prisoner does not get the benefit. The regulations specifically say: "In case of doubt, sabotage is presumed." Yet with unbroken spirit, men like Thaelmann and Von Ossietzky have fought on for over four years.

Contemplating the awful cruelty of man to his victims, it is difficult to keep faith in the existence of a merciful ruler of the universe.

* * *

A correspondent from Lacombe wants to know why Nazis show such ferocious cruelty to the helpless Jews in their midst. The answer is simple; they need a scapegoat and the Jews are helpless.

It is not because they are Jews *per se* that they are persecuted. It is essential that the race chosen to be the scapegoat be helpless, otherwise the national ego, struggling to build itself up again might get another nasty kink put in it.

The need for a scapegoat seems rooted in human nature. In a recent convention it was once suggested that to be the reason a plumber always has a boy with him. The plumber takes it out on the boy; all that is left for the boy to do is to take it out on the dog.

QUESTION: Who will prove the scapegoat of the ancient Fascisti. Says Tertullian:

"If the inundation of the Nile failed to give the fields enough water, if the heavens did not send rain, if an earthquake occurred, if famine threatened, if pestilence raged, the cry resounded: 'Throw the Christians to the lions'."

If the Jews had sufficient battleships and bombing squadrons to prove their civilization, the Nazis would hail them as brothers—as they have done the Japanese—and would seek another weak people to blame for losing the war.

Second Sunday in March the Imperial Veterans of Edmonton are to hold a Church Parade. They will parade to First Baptist Church for the morning service, where Rev. Mr. Faulkner—himself an Imperial Veteran—will conduct the service. It is expected that the ladies of the I.O.D.E. and the Overseas Nurses will send detachments to the parade.

This is the first Church Parade the Edmonton Company of the Imperial Veterans has organized. The date was chosen as being nearest to the anniversary of the battle of Neuve Chappelle, in which many of the 180 members of the Edmonton Company took part. My sympathy goes out to these men of the Edmonton Company of the Imperial Veterans. They took their place in the hard-hitting Imperial forces, got little of money or public glory, and have failed to receive the generous pension treatment accorded our Canadian veterans. Too many of them, coming here without friends or helpful connections, have suffered during the depression years and been forced onto public relief. They are gallant, uncomplaining men. I hope there will be a good turnout to see these fine fellows march by on their Church Parade on the 14th.

On This Week

A Day in Canadian History —o— *By FRED WILLIAMS*

One hundred and ten years ago today an attempt was made to revive the famous Beaver Club of Montreal, but it failed, because the convivial spirits had gone. Founded in 1775 by members of the North West Company it opened with 19 members. Its numbers varied, once reaching as high as 93 regular members, with 11 honorary members. Among them, we are told by Burpee, were such famous fur traders as Alexander Mackenzie and his cousin Roderick, the three Frobishers, Alexander Henry and his nephew of the same name, David Thompson, James Finlay, Simon Fraser and John Stuart. No one was admitted who had not spent at least one winter in the North West. The club's banquets were most elaborate and its cellar was stored from Labrador to the Arctic. After the union of the North West and Hudson's Bay Companies in 1824 the club was disbanded; there was no longer need to tell tales of how the Nor-Westers had trivialed the other chap. The memories of the good old nights were so keen that three years after the disbandment an effort was made to revive the club, but it failed and all that remained was the legends concerning its mighty men and their wonderful nights around the burdened board with its ever "flowing bowl". These old gentlemen certainly knew how to "do themselves proper."

Bristol men and women, and all their descendants, should be proud folk this day, for March 5 is the anniversary of the day in 1496 when King Henry VII commissioned John Cabot to "explore for England". He and his crew of Bristol men conquered the stormy ocean and reached a point on Cape Breton, so that they are the true discoverers of Canada. Sad to relate the next year John Cabot sailed away never to return. His fate is one of the mysteries of the Atlantic.

John A's Last Triumph—It was on March 5, 1891, that the electors of Canada gave their final endorsement to John A. Macdonald, for the Grand Old Man never recovered from the campaign and his death at Ottawa three months later was directly due to over exertion at mid-winter election meetings.

The Mail Bag

NOT CHISELLERS

Editor Bulletin: May I ask space in your descriptive and energetic paper, to reply to a statement attributed to Deputy Mayor Ald. Waller Clevely, in his reference to "So-called Relief Leaders."

May I state at the outset that I am not a relief recipient. Neither am I a relief leader. True I am president (and have been for four previous years) of the Ex-Service Men's Association.

May I say that during this period this organization, despite the economic condition of its members, has conducted itself in a manner, whilst aggressive, still most exemplary and steadfast.

May I also state that in the past we have had most happy relations with all governing bodies. True we did not always agree with such bodies, but we were too broad-minded to allow such differences of opinion to wheedle us into becoming unrealistic just for the purpose of being opposite.

In our relations and presentations to government bodies we have never suggested anything which might be detrimental to our city. Having gone to the point of delivering 40 man hours per recipient per month for the return of city share (approximately) of relief, and making arrangements with the provincial which agreement is still in effect. We have also maintained that all ex-service men should be a direct charge on the dominion for purposes of relief, and have consistently worked to that end.

Never to my knowledge have we aided any individual whom we considered was chiseling on relief, but have pleaded for assistance, temporarily, for individuals.

The officers of the organization are elected in a democratic manner and all meetings are conducted within constitutional law, and parliamentary procedure. Such officers must abide by majority rule, and to the best of their ability in accordance with such rules.

With an organization of 1,600 men with all shades of thought and various occupational desires, and circumstances, it is no easy matter to supply leadership which will suit everyone. If I had listened to some I would have been leading a march on Ottawa instead of appearing before the city council, but the majority of our members were not so foolish and reason prevailed.

Because we continue to press for a betterment of conditions is no reason to class us as "So-called Relief Leader," and if the boys had not been aggressive and steadfast in days gone by, instead of us all enjoying freedom and a democracy, we may have been under the iron heel of a dictator.

May I say that most of our boys are endeavuring to keep up the morale of their wives and families.

There is also an intimation from the acting-mayor that we do not want to work under fair conditions. Nothing can be further from the truth. Many are working for very small wages and trying to carry on their trades.

For myself I am on duly nine hours a night, seven days a week, for the paltry sum of $50.00 per month. This must keep a family of five, and pay monthly taxes. Does this suggest laziness?

I have been repeatedly warned not to go about with a limp as of dem a bricklayer, but due to war wounds, have been the victim of accidents the last being a fall of 45 feet, resulting in a broken right arm and dislocated left hip. In addition I have dug and laid sewers, mined coal and operated coal cutting machines in mines in this locality. Do these things suggest laziness? Returned men generally are no different from myself and are all hard working, all trying to give and do what is right by their families, and discharge their duties as citizens to the best of their restricted abilities.

May I repeat that I hope the happy relations previously existing between our organization and governing bodies will continue, and that our officers be not referred to as "So-called Relief Leaders." They are only doing their duty. If the reference was not meant for our organization or its members, it would be nice if the deputy mayor would declare himself.

HOW TO AVERT WAR

Those familiar with Lord Morley's well-known essay on Compromise will recall the argument justifying adhesion to an ideal not immediately possible, provided the attempt to realize it is genuine and sustained. Such adhesion is, in fact, more justified if it is essential. Circumstances cannot be ignored. They may make immediate realization impossible.

But to abandon the ideal for that reason and fall back permanently on aims less worthy is a fatal default; the goal must be set, and kept, before men's eyes, however distant its attainment may seem to be. It is in that sense that the manifesto just issued by leading representatives of all parties, and non-party men like the Archbishop of Canterbury and Lord Cecil, in support of the League of Nations must be read and welcomed.—London Spectator.

"I should be very happy, because I'm married to the type of girl I wanted.

"She is a marvel of physical perfection. We have been married three years and never once have I seen her hair disarranged or her gown untidy. Her hands are ever white and smooth. Marvelously manicured nails gleam when she extends her finger tips in greeting. Her teeth are rows of white pearls. Her complexion would shame any school girl. She's wonderful! Her immaculate appearance is a source of never-ending joy to me.

"But I'm getting tired of eating in restaurants!"

ASH ASSAILS HANGING AS DEATH METHOD

Member Would Extend Clemency in View of Coronation

More humane methods in the carrying out of capital punishment were advocated in the legislature on Thursday by H. J. Ash, S.C., Olds, in continuing the debate on the Speech from the Throne. Rather than have persons, Mr. Ash proposed use of gas or a lethal chamber.

"Personally, I am opposed to capital punishment," declared Mr. Ash. "It seems utter folly, that where we have to hang an individual to bring a man from Ottawa, erect a gallows and generally to be as brutal as we can, when we could use a little gas or a lethal chamber. I would like to see the province go on record as favoring a more humane method of capital punishment."

LAUDS CERTIFICATES

Congratulations were offered by Mr. Ash to the government for the issuance and circulation of the provincial prosperity certificates.

"These certificates," he said, "enabled children to get food, women to get clothes, the municipality to fix roads and generally to promote prosperity.

"I am behind Premier Aberhart because I believe he is a man who will keep his promises. I am convinced that he is Canada's greatest commoner today."

Mr. Ash declared that he thought the vacancy caused in the Senate by the death of Senator Pat Burns should be filled by Herman Trefle, several times world's wheat and oats champion.

URGES CLEMENCY

Mr. Ash made a strong plea for clemency for criminals in recognition of the coronation festivities.

Mr. Ash recalled that last year he had visited the Fort Saskatchewan jail. He said that is cost $253 to keep a person at the Fort Saskatchewan jail for a year and $309 at Lethbridge. There were 664 boys jailed last year for breaches of the Railway Act. There were 247 boys under 20 years and 788 in the two jails under 30, while 20 were jailed for fraudulently obtaining food.

He indulged in some banter and

No Suffering In Hangings

OTTAWA, March 5.—After witnessing 18 hangings at Bordeaux hospital for criminally insane, Montreal, Dr. Daniel Plouffe, its medical superintendent, yesterday testified before the commons committee on the Criminal Code that there was positively no suffering" after the trap was sprung.

The committee is considering the proposal to substitute the gas chamber for hanging. Dr. Plouffe said the prisoner was not conscious when five to eight minutes after the drop. The heart stopped beating in four to 10 minutes.

POULTRYMEN FAVOR PLAN OF SPEAKMAN

Province-Wide Organization to See Effective Voice in Marketing

Expressing approval of the proposal outlined by Alfred Speakman, chairman of the Alberta Poultry Producers federation, to establish a province wide organization of poultry producers such that each member will sign a contract assigning to the association marketing rights for a period of five years, 150 poultry producers of the Edmonton district and points as distant as Stirome met in the Memorial Hall Thursday.

After hearing Karl V. Kapler of Strome, chairman of the marketing commission of the federation outline the accomplishments of the past year the meeting discussed the proposed organization for three hours, finally embodying a decision in the form of a resolution introduced by George Borgel of Strome, seconded by L. S. Hitchcock of Beverley and passed.

TO GET VOICE

The resolution stated that the government should be urged to give necessary assistance to establish a province wide association of poultry producers to secure a voice in determining marketing prices.

It was pointed out during the discussion that the spread between the price paid to the producer and asked of the consumer at present is 16 or 18 cents, and it was claimed that the proposed association would eliminate this price spread.

NATIVE RIGHTS

The clause stating that a member of the proposed association should be required to sign a contract covering five years was opposed by several as requiring producers to give up native rights.

S. E. Carter, chairman of the Alberta Egg and Poultry Producers' Association, said he opposed the organization as planned and announced that his group would call a meeting in the near future to discuss what they considered to be a better form of poultrymen's organization. H. A. Craig was chairman.

Just Few Women In 50,000 Jobs

NEW YORK, March 5. — Miss Charl Ormond Williams, president of the United States Federation of Business and Professional Women's Clubs, said in analyzing the results of the November U.S. election that "only a handful of women are holding public office when there are 50,000 offices" which they could fill.

She said her study showed opportunities for women at present seem to be greater in local and county politics, pointing out that only five women were elected to the House of Representatives, none to the Senate, and none as governor. More women were elected to state office in New England than in any other section, she pointed out.

New Mexico and Iowa elected women as secretaries of state.

Tourist Revenue

WINNIPEG, March 5.—Revenue from tourists visiting Manitoba in 1936 was estimated at more than $6,000,000. Visitors came from all provinces of Canada, the United States and far-away European countries.

MOVING PICTURE SOLVES MURDER

United Press

LONDON, March 5. — A movie film has aided Scotland Yard in capturing and convicting two murderers.

Alfred Straford has been sentenced to death for the murder of Mrs. Ada Forlescue at Shepperd's Bush, and Mary Flynn to eight years penal servitude for manslaughter. Had it not been for George Millar, a curb-side movie photographer, the crime might never have been solved.

When Mrs. Forlescue was found dead on August 14, it was established that a Mr. and Mrs. Williams had been lodging with her. Near the body was found a label from a woman's dress bearing the name of a London shop.

The clerk who sold the dress could not describe the woman buyer, Detective Inspector Huish, disappointed that his only clew had led to a blind alley, left the shop. As he did so a moving picture photographer took his picture.

George Millar, the photographer, told the detective that he had been filming passers-by for several months. Inspector Huish decided to take a million to one chance. At the Yard a theatre was arranged and day after day neighbors of the dead woman sat with the police as thousands of pictures were flashed on the screen.

Eight thousand shots had been screened before one of the audience recognized a film of the two vanished lodgers. Within a few hours the printing presses of Scotland Yard were turning out leaflets with photographs of the couple for distribution to police stations all over England.

The hunt ended a few weeks later when a detective attached to the Bow Road station recognized the man in a crowd, took him into custody, and later captured the woman.

Real Estate Man Fined For Taking Bath In His Auto

LEXINGTON, Ky., March 5. — Harold M. Wood, 49, of Cleveland, O., real estate dealer, continued on his way south today after paying a $20 fine for taking a bath in his automobile at a down town street corner.

Patrolmen W. B. Wright and A. A. Bartlett sighted Wood's car, its windows covered with steam, parked in a restricted zone at Main and Upper streets, at 10 a.m.

They found Wood, nude, sponging himself in the tonneau of the car. The rear seat had been removed to make room for living quarters equipped with a bed, wash basin and shelves.

Wood's dog was curled between the bed and basin, his nose resting on a window sill. Wood dressed hurriedly and was taken to police headquarters.

"I had the curtains drawn on the side of the car next to the sidewalk," Wood explained in police court. "The curtains weren't drawn on the street side but the glass was steamed up and I didn't think anybody could see me. Besides, I was crouched on the floor."

Meets Tutor

REGINA, March 5.—When Richard Sidney, a visitor from Singapore, passed through here on his way to Chicago he was greeted by his old governess whom he had not heard from for 40 years. She is Mrs. Charles H. Lowe of Prince Albert.

Owing to game-protecting laws in the United States, some species of nearly extinct birds are now multiplying.

NOT long ago Eleanor Powell gave a selection of Hollywood's "five best tap dancers." It sounded harmless because there are only five topnotchers anyhow. But Irate letters from fans still are pouring into the studio demanding to know why she didn't pick some other hoofers.

The treatment accorded them by some of the hysterical movie magazines has taught several of the stars that they'd better not mention romance.

Clark Gable develops lockjaw the instant you say the word "love." Gary Cooper's the same way, only worse. Yet there are numerous subjects on which both gents are downright garrulous.

Lady corresponents are always bombarding Virginia Bruce with questions about her "beauty secrets." Miss Bruce is getting good and tired of it. She says she has no beauty secrets.

TRAFFIC POLICE GO TO COLLEGE

CHICAGO, March 5.—The snorting "where d'ya think you're goin'" type of traffic officer is outmoded—policemen are going to college.

At Northwestern University, in co-operation with police and safety organizations, a training program as a "society actress." Ditto Rosalind Russell.

Nobody will talk about Greta Garbo, Gable, Robert Taylor, George Brent, Monigomery, Fredric March—all have appeared with her, but no one, not even Freddie Bartholomew, will discuss her.

Marlene Dietrich grants interviews only with the advance understanding that the name of Josef Von Sternberg isn't to be mentioned.

Franchot Tone is the despair of all Hollywood correspondents. He'll be quoted only on the subject of acting.

for highway policemen is being undertaken. It aims to improve the officer's courtesy, his alertness, efficiency and understanding of the law.

The course, modeled after similar courses offered at Northwestern heretofore, puts the officer through a rigorous dual program, combining classroom theory with field practice. Special courses are offered in accident investigation, driver's tests, crowd psychology, public relations and allied subjects.

Agencies co-operating with the university in the venture are the Traffic Safety Institute, International Association of Chiefs of Police and the National Safety Council.

Fifteen nationally known vehicular traffic experts are assisting in the effort.

New "Sit-Down"

REGINA, March 5.—To win union recognition, employees of restaurant here, members of the Regina Hotel and Restaurant Employees' Association, staged a novel "sit-down" strike. They ordered cups of coffee and occupied all counter stools during the noon-day lunch hour period.

AMUSEMENTS

CAPITOL

If there's anything to the old bromide about being educated to the school of hard knocks, George Brent should be graduated from "God's Country and the Woman," the Warner Bros. all-Technicolor production to be shown Saturday at the Capitol theatre, with more degrees than a thermometer.

For Brent, as the playboy who is suddenly thrust into the midst of a bitter feud between two hard-boiled lumber camps and has to become a he-man overnight in order to survive, has to "take it" in a big way. It's not entirely buffets of Fate he must weather, either, as the script puts him right in the middle of the following little incidents:

He is knocked out when a husky lumberjack kisses his chin with an overpriced fist.

He is plunged into the icy waters of a mountain lake and has to swim ashore when his amphibian plane runs out of gas.

He is beaten almost to a pulp by rival lumberjacks.

He is knocked for a loop when a "bulldozer" hits a big log on which he is sitting.

He falls six feet to the ground when a platform breaks.

He is knocked out with a club in a free-for-all battle staged in the bunkhouse.

He beats up an engineer and fireman and steals their engine, later crashing it through a barricade on the track.

He gives Frenchy, the villain, a good licking in a knock-down-dragout battle.

And he is blown into a mountain stream when a charge of dynamite breaks a log jam and he has to swim for his life to keep from being crushed to death by the tumbling timber.

Friends of the popular star will be happy to know that after this fight exercise, Brent's troubles are virtually over in the picture, he wins the girl and lives happily ever after.

EMPRESS

Over 2,000 Cheyenne Indians from the Tongue River reservation were put to work by Cecil B. DeMille in the battle scenes of his latest epic, "The Plainsman," with Gary Cooper in the title role, now at the Empress.

The Indians were used to reenact the massacre of General Custer and his Seventh Cavalry at Little Big Horn on June 25th, 1876, which has an important place in the story. The scenes were taken at Little Big Horn under the supervision of several Cheyenne braves who took part in the battle.

Jean Arthur plays the role of "Calamity Jane" in "The Plainsman," opposite Gary Cooper, who recreates "Wild Bill" Hickok, noted plainsman who fell in love with the hard-fighting frontier beauty when he was sent into the West by the government to find out who was selling rifles to the Indians in violation of a government order.

PRINCESS

Gay and sprightly with laughter and song, "Stage Struck," the latest First National's mammoth musical comedy spectacles, at the Princess theatre, where enthusiastic audiences responded to its gorgeous entertainment with mighty acclaim. The story and characterization, including dialogue, lilting music and delicious dance numbers, in lavishness of production and setting, the picture is a worthy addition to First National's long list of musical comedy hits. In addition to its rollicking humor, it offers an interesting romance, with thrills and dynamic drama, and plenty of catchy music.

It is enacted by a cast of real stars, including Dick Powell, Joan Blondell, Warren William, Frank McHugh, Jeanne Madden, the Yacht Club Boys, a score of other principals and hundreds of extras.

There are three spectacular dance numbers with more than a hundred of Hollywood's most beautiful chorus girls in each and a specialty number set in a replica of the New York Aquarium where Powell and Miss Madden warble their love songs with the seals and fishes and other fish as eager listeners.

RIALTO

Jessie Matthews, who is known as the "Dancing Divinity" of the British stage, is making her first appearance in a motion picture at the Rialto theatre, where "Head Over Heels in Love," a musical comedy romance, is the current attraction.

Miss Matthews is supported by Louis Borell, Robertson Hare, Alfred Drayton, Athene Seyler, Ian Hunter and Frank Cellier, all well known to theatre-goers in Edmonton.

The story concerns a young woman who is left a fortune by her father, on condition that she marry a man of his choosing. Instead of marrying the man, she runs away with a traveling troupe of players, and the rest of the picture is devoted to the complications that arise.

Miss Matthews is said to be a sensation in her dancing numbers, and Borell is also a capable performer.

Edward Cooper is well-known to theatre, cabaret and radio audiences for his playing and singing of droll and mischievous songs of his own composition. His favorites are "Edie, the Pet of the Guards" and "High-Fly Herlie," the saga of an aviatrix of somewhat doubtful character.

Joan Young and Thelma Toone-Jackson are both nineteen. Joan's a brunette and Thelma a redhead. Joan toured Palestine and Egypt as a child actress and recently played in "Dangerous Corner" in Berlin. Thelma's experience has been in stage revues in London.

It's a whole handful of talent and faces new to movie audiences and each merits special mention for his work in this sprightliest, gayest and peppiest of the Jessie Matthews dance-sing musicals, with music by Gordon and Revel.

Mother's Attitude Toward Daughter

Dorothy Dix

Direct, But Don't Boss Her Too Much

Wisdom, Patience, Firmness and a Sense Of Humor Are Required in Every Mother During Adolescence of Her Young Daughters

A woman asks what should be the attitude of a mother toward a daughter between the ages of 14 and 20. Every mother who has to deal with an adolescent daughter needs the wisdom of Solomon, the prophetic vision of a seer, the patience of Job and the firmness of a drill sergeant, plus a sense of humor that never fails. And, at that, she will still lack a few requirements.

She is tackling the most complicated and difficult job on earth; the one that requires the most finesse in handling. She has to guide, form, restrain, protect the most headstrong, determined, unreasonable, opinionated egotist alive; one who is resolved not to be changed, or bolked, or interfered with in the development of her character. Particularly by her mother. That is some task, believe me. No wonder so many mothers fail in it.

Furthermore, the situation is complicated by every mother being knocked groggy with amazement by having gentle, biddable little Mary, who thought Mother an oracle, suddenly turn into Marcye, who resents Mother's mildest suggestion and who considers her a doddering dodo who doesn't know anything at all. When Mary is 24 she will again regard Mother as a fountain of wisdom, but when she is 14 she thinks any little addle-pated flapper knows more about what's what than Mother does.

However, hard as it is, God himself has laid the chore of piloting the between-age girl through the dangerous waters of adolescence in her mother's lap, and on how well she does it depends her happiness in this world and in the world to come. For if anything, untoward happens to Mary, Mother is largely responsible for the disaster.

The first suggestion that I would make to the mother who has a bebobledehoy daughter to deal with is to take her seriously, but not too seriously. Regard everything she does as important, because she is unconsciously starting on the path she is to follow through life, but don't make tragedies out of trifles. Don't look upon her as a moron because she does silly little things and has foolish aspirations.

Don't make an issue of rouge and blood-red nails. Don't refuse her a long, black velvet party dress if all the other girls are having them. She will get over her yearning for these things in a little while, and by your sympathy and understanding you will have established a bond of confidence that will stand you in good stead when you need to put the pressure on her later. She won't say "Mother always objects." She will remember that Mother always wanted her to do what she wanted to do unless it was wrong.

Remember that from 14 to 20 a girl passes through a series of phases that are just as contagious as the measles that she catches from the other girls, but from which she will recover with no bad effects if she is carefully nursed through them.

The first of these attacks is the beauty craze. She spends long hours doing her hair up in the fantastic whirls affected by her favorite movie star. She goes clothes mad. Her brain is cut on the bias and frilled in the middle and she is ready to die if she can't have long sports legs like the other girls wear. Her greatest desire is to look like a woman of 40 and she considers her mother an inhuman monster if she doesn't let her paint herself up like a Jezebel.

String along with her through all of these vagaries. Don't scold her about being vain. Take an interest in her make-up and her clothes and show her how to make the most of herself. Give her a little of the flattery she craves. Many a mother loses her hold on her daughter by her continual criticism and fault-finding.

Next, your daughter will go boy-crazy. She will think of nothing but boys and dates. She will monopolize the telephone and spend her time writing letters. Your house will simply swarm with adolescent youths.

Don't make the mistake of forbidding her to see them or think about them for, if you do, you will simply send her out on the street to make acquaintances with boys you know nothing of. She will lie to you about going to places you never heard of. Let her have her dates at home, where you can keep an eye on her and know what she is doing and with what sort of lads she is associating.

Between 14 and 20 she will think she is in love a dozen times and you will have to cure each case by diverting her attention to another boy. She will have the career craze and want to be a movie actress, or start a tea shop, or be an air hostess, or what not. But finally she will settle down into being a nice sensible girl and go through with her daughter what you have gone through with her.

Boys "Mine Gold" In Rubbish Pile

BELLINGHAM, Wash., March 5.—John and Bob Griffith, cousins and gold miners, have a new idea of how to spend the winter each year when their claims are snowed in.

Locating a building in the nearby town of Bellingham where a dental firm had operated for thirty years, they got permission to work the pile of sweepings and rubbish that had accumulated in the rear.

As anticipated, there was gold in the sweepings, most of it in minute fillings dropped in fashioning gold teeth. The cousins claim they are making wages.

Suddenly Daphne Brett saw her beautiful sister, Jennifer, six years younger, her rival in love. It was a cruel challenge. Did Daphne accept it? What would you have done? You'll like

"SALADA" TEA

These Recipes Will Route Menu Boredom

By MRS. GAYNOR MADDOX

Give a salute to the three musketeers of the meatless days—macaroni, egg noodles and spaghetti. As a change from potatoes, as fullsized main dishes, in soups and with colorful sauces, these valiant soldiers of variety can route boredom from the family menus.

MACARONI WITH PIQUANT CHEESE SAUCE

(serves 6)

Four cups cooked macaroni, 1 medium sized onion, minced, 2 medium tomatoes, or ½ cup tomato juice, 2 tablespoons minced green pepper, 2 tablespoons butter, 2 hard cooked eggs, ½ lb. creamy, mild packaged yellow cheese, ¼ cup domestic sherry wine.

Heat butter in saucepan. Add onion and green pepper. Cook until thoroughly heated but not browned, then add tomato. Combine this mixture with the cooked macaroni. Arrange macaroni and sliced hard cooked eggs in buttered baking dish. Melt cheese in top of double boiler. When soft, add sherry and mix thoroughly. Pour this cheese mixture over the macaroni. Bake in moderate oven (350 deg. F.). Better make as extra amount of this cheese sauce and serve it in a separate dish for those who will be asking for more.

MUSHROOM SAUCE FOR SPAGHETTI

(serves 6)

Six fresh mushrooms, 1 small onion, 1 teaspoon chopped parsley, 1 tablespoon flour, 1 cup stock made from mushroom stems and skin, ½ cup white wine or white grape juice, 1 bay leaf, salt and pepper to taste.

Chop mushrooms and onion. Heat butter in frying pan. Add mushrooms, onion and parsley and simmer 5 minutes. Then blend in flour, mix and slowly add the mushroom stock. When smooth, slowly stir in white wine or white grape juice. Season, add 1 bay leaf, and simmer until sauce thickens to desired consistency. Remove bay leaf before serving. With a platter of spaghetti, a side dish of grated Italian cheese, and this sauce—life does have its bellini moments.

And as for egg noodles, plunge one package of them into a large kettle of salted boiling water. Cook, uncovered and rapidly, for about 20 minutes. Then drain off about 2-3 of the water, add seasoning, 1 tablespoon butter, ¼ cup cream. Cover, simmer gently until the cream and butter have been absorbed up the noodles. Then serve. You're right, it is pretty smooth.

Sunday's Menu

BREAKFAST: Pink rhubarb sauce, broiled ham, scrambled eggs, buttered toast, jam, coffee, milk.

DINNER: Strawberry - grapefruit cup, chicken fricasee, rice croquettes with jelly, broil asparagus, steamed carrot pudding, hard sauce, coffee, milk.

SUPPER: Spaghetti with mushroom sauce, vegetable salad, chilled pears, cookies, tea, milk.

Just a warrior of a dish—macaroni and sliced egg in a mantle of rich cheese and wine sauce.

Your Children -

By OLIVE ROBERTS BARTON

All things come from the sun, including health and strength, so now that Sol is showing his face again it is wisebound folk, we must make the most of him.

Babies need sun, and they need to be kissed by this direct rays all over. But this early in the year grown-ups will have to go about this treatment very carefully indeed.

The first thing necessary for safety all around is the advice of the doctor who has been looking after your little one. He will tell you if the baby is in the condition to be stripped and exposed for even the two or three minute treatments. Then gradually increase the time.

O. R. Barton

First exposures must be short and sweet indeed, because skin and flesh that has been so beauty greetings of sunrays may sop up more than is good for your small Harry or Henrietta.

KEEP OFF THE WIND

How to go about the golden bath is important also. It must be given in a room cup here in our north temperature climate, anyway, and quite a warm one. The bed must be some distance away from the open window, too, or else a screen should be placed in such a way as to keep off breezes.

Before open the top window, rather than the lower, and wheel the bed into the sunny spot made by the rays that enter through the open space, not the glass.

If you had quarts glass in your nursery windows all this fuss could be avoided, because the medicinal rays penetrate quarts. You could then have the window closed, put baby beside it and let him soak up whatever sun is prescribed. But although hospitals equip their baby wards and playrooms with this new glass today, quartz is out of reach of most of us.

Strip baby and lay him on his face in the sun for a minute or so. Then turn him, protect his eyes, and let him fry on the other side for the same time. Very, very gradually the time may be lengthened, but this according to doctor's orders also.

Perhaps the child is not in physical condition to be exposed for even such a short time. In this case he can wait until later spring.

TAKE NO RISK OF COLD

In every case he must be kept warm, and no risks taken. If it is a very blowy and uncertain day, omit the sun bath. I suggest, because there is more sun ahead.

Beginning with the warm calm days of late May, perhaps baby can take his bath outdoors, and from then on he can absorb his vitamins, bone - makers and tissue - builders without fresh air present, perhaps a little trouble will be worth while. Be sure, perfectly sure, undefiled, that his skin is dry and that he is dry all over, and not perspiring when you fix him. He must not take cold.

It has been a sunless, miasmic winter. We're all starved for sun. So sunny rides in his cart and little sun baths of short shift will be good for the baby.

Red Cross Record

REGINA, March 5.—Red Cross outpost work in Saskatchewan in 1936 included care of 290 maternity cases without the loss of a single patient. Miss Isabel Stewart, provincial director, said in her annual report.

Debunker

By John Harvey Furbay, Ph.D.

A little knowledge is not dangerous if it is properly used. Knowledge is always a matter of relativity. He or one ever achieved perfect knowledge in anything. Therefore a little knowledge is dangerous, what we all have learned is a bad thing for us, for it is very little compared with what we have NOT learned. The more knowledge a person has, the better off he is. Even a little knowledge is better than none, and may even save a life.

NORTH AMERICAN WOMEN ADDICTED TO CUCKOO HATS

NEW YORK, March 5.—More women wear "cuckoo" hats in North America than anywhere else. Miss Lillian Fischer, Hollywood fashion expert, said today.

"In the old days they used to have 'cuckoo' hats in Paris, which no woman over here would wear," she said. "Now the opposite is true. Paris is more conservative."

She quoted this compliment as saying, "I have made some terrible hats, but some women like terrible hats. If Paris says hats will be high, they want them still higher."

Miss Fischer, who was Paris editor of a New York fashion magazine for four years, now is Hollywood's first "fashion advisor."

Women of this continent on the whole are marvelously well-dressed. But they often go to the extreme in hats without any reason for what is becoming to them," she said.

The dog-fish, a species of the shark family, gets its name from the fact that it hunts in packs.

TROCHU WOMEN SCORE IN 'SPIEL AT SWALWELL

TROCHU, March 5.—Trochu ladies' curling rinks winning places in the Swalwell bonspiel recently were Mrs. J. A. Findlay who won second place in the Grand Challenge and Mrs. W. Stewart who took third. Rink of Mrs. L. Mayne won second place in the consolation event, Mrs. K. Slipp, fourth, and Mrs. A. Hess second in a special prize offered.

Personnel of the rinks as follows, naming the skips first: Mrs. J. A. Findlay, Mrs. C. Masterson, Mrs. E. M. Borzej, Miss L. Findlay; Mrs. W. Stewart, Mrs. L. W. Smith, Mrs. F. E. Kelly, Mrs. F. Fiala; Mrs. L. Mayne, Mrs. B. Sage, Mrs. C. F. McLachlan, Miss H. Masterson, Miss K. Slipp, Mrs. D. Stewart, Miss D. Durant, Miss J. Cain; Mrs. A. Hess, Mrs. J. Drew, Mrs. H. Hammond, Mrs. T. Ross.

The present period in geology is usually thought of as having begun when men appeared on the globe, and is often referred to as the Human Epoch.

Charm Of Yester-Year In Crochet

Household Arts by Alice Brooks

PATTERN 5590.

There's the charm of grandmother's time in this lacy panel-inset a luxurious bit of dress-up for your "best" bedspread! In sizing it measures 24 x 35 inches, but goes quickly, for the background is in lace stitch. It would also be effective as a door panel. The stunning panel running lengthwise of the bolster may also serve as a scarf. Crochet this beautiful design of humble, durable string or in finer cotton for smaller panels.

In pattern 5590 you will find detailed instructions and charts for making the panels shown; illustrations of the panel and of the stitches used; material requirements.

To obtain this pattern send 20 cents in coin to The Edmonton Bulletin, Household Arts Dept. Be sure to write plainly your NAME, ADDRESS and PATTERN NUMBER.

Costuming For Peace Plays To Be Interesting

With a cast including a serpent, a lioness, an angel, a soldier, a monkey, a fairy, a dog—and even a microbe, the difficult little play, "The Last War" which members of the Junior League of Nations Society are presenting at the Normal School auditorium on Saturday evening offers wide scope not only for clever acting but for clever costuming.

Its cast includes Mary Spencer, Iris Hill, Dorothy Sloane, George Allin, Douglas Sullyan, Gordon Wyatt, Norman Swail, Oliver Rowan and Julian Rowan.

The second presentation of the evening will be "Peace in Our Time" which will be portrayed by the following: Olive Copper as "Lady Cosby", Betty Stuart-Johnstone as "Avril Crosby", Doris Murchison as "Eva Crosby", Vera Hughes as "The Lady in Black", Janet Ritchie as "Olga Balarova", Lorna Martin, as "Mitsui Kuoshi", Jane Maeser as "Maisie Easton" an American, and Grace Cohen as "The Maid."

The plays will commence promptly at a quarter past eight o'clock.

Mrs. William Rowan is leader of this junior group of the League of Nations Society and Mr. Geoffrey Bullock is directing the plays.

Songs of a French chorus directed by Miss Francoise Blais, selections by the Normal School pipe band which is under the leadership of Mr. Fred Devereil and the Rhythm Band which is led by Miss Dixon will be added features of attraction during the evening.

Mrs. Marr has accepted an invitation to sing in Chinese and Miss Irene Davidson will sing a spiritual. Elsie Muriel Mills will give a pianoforte solo.

MRS. E. WRIGHT IS DELEGATE TO I. O. D. E. MEET

Nominated recently as their representative, Mrs. E. D. Wright will convey the greetings of the Duke of Edinburgh Chapter to the provincial meeting of the I.O.D.E. in Calgary on Tuesday, Wednesday and Thursday, April 6, 7 and 8.

Speaking on the charitable work the chapter is at present engagee in, when Mrs. Howard Wright entertained members in her home, Mrs. E. D. Wright told of the box of clothing sent to a needy ex-service man's family.

Refreshments were served by the hostess assisted by Mrs. Ross Matheson, following the business meeting during which reports were read by the various committee heads.

Spring Swagger

Outstanding examples of the colorful new modes are these. The green and white tweed swagger, in novelty diagonal weave, tops a true green jacket suit (left). Soft blue tweed, flecked with various colors, makes that at right. Notice the unlined, soft lapels and the subtle peplum effect which matches the four godets in the skirt.

COST OF GOWN FOR CORONATION MAY BE $2,000

LONDON, March 5.—Dresses, gowns and robes for the coronation service in Westminster Abbey are as expensive as they are magnificent. A duchess may spend $2,000 for the one outfit and it can only be worn for coronation ceremonies.

A peeress of the baroness degree will have to pay more than $500 and the coil mounts as the owner scales the social ladder. Nor do these figures include such extras as jewels—and as these include tiaras, necklaces, clips, brooches and pins they represent a tidy sum.

Robes for the peeress must be of crimson velvet or of purple velvet if the wearers are of the Blood Royal. The court gowns worn under must be white, cream, gold, or silver. However, for those less favorably situated there are such goods as machine-woven velvet which is considerably cheaper, and rabbit not infrequently passes for ermine.

Bees fly no farther for food than is absolutely necessary. They usually confine their foraging to an area within a mile or two of the hive.

PREVENT CHAPPING USE Campana's Italian Balm

Itching Piles Rectal Soreness

Neglect of piles and rectal soreness may lead to serious consequences. The very first sign of rectal irritation, painful stool or aching soreness may be the warning of serious trouble. You should take steps at once to correct this condition.

For over 28 years, Dr. Leonhardt's famous prescription, Hem-Rod, has been giving quick and satisfying results in relieving the misery of piles. What it has done for others it should do for you. Hem-Rod is used internally, and is especially prepared to relieve blood congestion in the lower bowel, which is a cause of piles. Easy and pleasant to use, good results are usually noticed. All druggists carry Hem-Rod. Your money back if it doesn't help you. Merrick Drug Stores can supply you.

"Equal Work, Equal Pay" to Be Discussed

"Shall men and women be given equal pay for equal work?" That is the subject which is to be discussed at the first meeting of the newly organized Women's Forum of Edmonton and all women who are interested in the open discussion of matters of public interest are invited to be the guests of the Forum on this occasion. The meeting will be held in Talmud Torah Hall, 103rd St, on Monday, March 15, at 8 o'clock and there will be no charge for admission and no collection taken.

The first part of the meeting will take the form of a debate with Mrs. T. D. FitzSimon, Miss Bertha Lawrence, Miss Isabel MacMillan and Miss Margaret Thompson presenting the arguments, pro and con. Following these, the meeting will be thrown open for discussion and it is the wish of the Forum that all its guests, who feel so inclined, shall take part in this part of the programme.

The Women's Forum has recently been organized by the Committee on Education of the Local Council of Women. Its purpose is to arrange meetings and other gatherings at which the women of Edmonton may join in a free discussion on all matters of public interest. It is hoped in this way to create and stimulate interest in public affairs.

As the week of March 15-20 is the Business and Professional Women's Club week across Canada, the subject chosen for the first meeting: "Shall men and women be given equal pay for equal work?" is very timely and is expected to arouse a great deal of interest in women's club circles.

HAPPY COUPLE ARE FETED ON ANNIVERSARY

Twenty-five years of married life together, of sharing mutual joys and sorrows have brought success, of happiness to Mr. and Mrs. S. Jackson, who were complimented recently on the anniversary of their wedding day when friends called at their home in 82 street.

Winnipeg Guild Commended By Drama Critic

WINNIPEG, March 5.—Actors in the presentation of "Journey's End" by the Winnipeg Players' Guild were praised last night by the adjudicator, George de Warfaz of London as the Manitoba Regional Drama Festival opened here.

The adjudicator said "The Eye of the Beholder", presented by St. Mark's Anglican Young People's Association, was a good costume play but too difficult for the youthful cast. "They have no one else to compete in a festival of this kind," he remarked.

"The Happy Journey To Trenton and Camden," presented by the Masquers' Club, was just up to festival type, Mr. de Warfaz said.

Edmonton Art Club Plans Exhibition

Enthusiastic plans for their annual exhibition, which promises to be one of the most interesting of many interesting events scheduled for Easter week, chiefly occupied members of the Edmonton Art Club at their meeting in the home of Mrs. P. J. Fleming on Thursday. In this connection about a dozen pretty posters, done by the members themselves, were displayed.

Mrs. George Brown, Mrs. Fleming, Dr. H. E. Bulyea, Mr. A. J. Garner, and Mr. A. Cartmell were appointed to supervise arrangements for the exhibition.

Mrs. A. Cartmell was chosen to represent the organization at the Edmonton summer fair.

Various affairs to intersperse business meetings, movies, demonstrations by members of the club and outside officiants, were mentioned by Mr. J. Gordon Sinclair in his report of the program committee.

Mrs. C. E. Willis and Mrs. N. Armstrong assisted Mrs. Fleming as hostesses, and Miss B. Mercier and Miss E. Cruikshank passed tea and refreshments later.

Others present were Mrs. S. V. Kaufman, Miss Nellie Mussell, Miss Daley, Mme. Mornier, Mrs. Walker, Miss Mitchell, Miss Watson, Mr. H. K. Jones, Mr. Campbell, Mr. D. Brown, Mr. Hedley and Mr. Weber.

FINANCE PLANS ARE DISCUSSED AT W.M.S. MEET

CALGARY, March 5.—Two hundred delegates, representing over 5000 women met Wednesday in Knox United church for the fifth annual meeting of the Alberta conference branch of the Women's Missionary Society of the United Church of Canada. The morning session was devoted to consideration of the best financial plans to be adopted for the coming year. Though more than $25,000 was raised last year, an average of only seven cents per week per member should be increased.

Four plans were submitted to the meeting. The envelope system which had been in use until 1933, and the duplex plan which has been followed of expecting that each society would try always to double its per capita dues in the preceding year, could be continued. A third suggestion was that each society should be required to raise $10 per member. The voluntary pledge system was considered by some to be the ideal method.

Following the presentation of these plans by the treasurer, Mrs. Thomas Powell, of Edmonton, there was extensive discussion. The final decision will be made later.

BITING

I bit him. Not as you may think.
Benea'h the influence of drink.
Nor yet in madness, rage or hate,
Or any other frantic state;
But after calm deliberation
With neither haste nor hesitation
I simply took his finger in
And gave it a decided nip;
And, unperturbed by shame or pride
I claim that I was justified
As I can prove, I hope, to you.
I ask, what is a man to do
When Father rubs his great fat thumb
Around a tiny infant's gum
To see if his first tooth is through?
I ask you what's a chap to do?
I bit him.

EDNA BOWEN IS CHARMING BRIDE OF EARLY SPRING

Wearing an exquisite gown of Coronation blue lace and carrying a bouquet of Ophelia roses, Edna May Bowen, daughter of Mr. and Mrs. W. G. Bowen was a lovely picture for her wedding on Wednesday evening to George Frederick Holmes, son of Mr. and Mrs. H. H. Holmes.

Rev. H. A. McLeod performed the ceremony against a background of ferns and spring flowers.

Mr. Bowen gave the bride away and Miss Lois Bowen, her niece, attended her as flower girl. She was frocked prettily in pale pink organza and carried a basket of spring flowers.

The bride's mother, Mrs. Bowen chose for her daughter's marriage a becoming model of wine colored triple sheer crepe with which she wore a corsage of Joanna Hill roses.

Mrs. Holmes' mother of the bridegroom was in rust colored crepe and also chose a corsage of Joanna Hill roses.

During the signing of the register Miss Mabel Stuhl sang, "All Joy Be Thine." Miss May Hopkins accompanying her at the piano.

More than 60 guests were present at the reception arranged following the ceremony. Pink and white was the attractive color scheme used on the bride's table which was centred with a tiered wedding cake imbedded in pale pink tulle, and graced with tall tapers and the miniature figures of a bride and bridegroom. Assisting in serving were Mrs. George Davidson, Mrs. P. Duggan, Mrs. W. L. Bowen, Miss E. Harris, Miss Hattie Hopkins, Miss Lillian Quest and Miss Edna Redge.

Mr. and Mrs. Holmes have left by motor to make their home in Calgary, the bride wearing a spray green knitted suit with accessories in brown.

Festival Will Include Varied Types Of Plays

Oriental fantasy, a Canadian play, an allegory, comedies, tragedies and an Irish romance . . . there will certainly be a variety of dishes at the drama feast which the Edmonton Little Theatre is planning for audiences at its city-wide festival on Monday, Tuesday and Wednesday of next week.

FRENCH PLAY

Presentation of Madame Charasson's play "Separation," by La Cercle Dramatique Moliere, which last year won the festival shield, will be an interesting part of the opening program. Sad little tale of Lili and Jacquet, a devoted old couple, the production is being directed by Monsieur Alphonse Hervieux. Appearing in the main roles will be Madame Blanche Lambert as Lili and Monsieur G. J. Barie as Jacquet.

"Spreading the News," Lady Augusta Gregory's play which the Normal School Dramatic Society have been rehearsing, will also be given on Monday. The characters, who develop a yarn that becomes taller and taller until finally a policeman ends it to the satisfaction of all, include: Bartley Fallon, Leslie Wetter; Mrs. Fallon, Audrey Morgan; Jack Smith, Jack Maguire; Shawn Early, Bill Bothwell; Tim Casey, Gordon Dalsen; Mrs. Tarpey, Doreen Feist; Mrs. Tuley, Dorothy Knight; a Removable Magistrate, Orest Zarsky; Policeman, Arnold Goulson.

Joseph Jacobson is the director.

Simple story of "Mansions" will also be enacted on Monday evening by The Young Thespians, whose effort is being directed by Marguerite Clifton and Helmer Heber. Cast in the various roles are Marguerite Clifton, Lydia Wilde, Violet McCrum, Harriet Wilde, Richard Locke, Joe Wilde.

PRIZE WINNING ALLEGORY

Prize winning play in the recent Edmonton Presbytery Young People's Union dramatic contest, the Norwood Young People's "The Slave With Two Faces," by Mary Carolyn Davies, will open Tuesday evening's presentations. Taking part in this unusual play, which is directed by Lea Pilcher, are: First Girl, Rosa How; Second Girl, Marguerite Clifton; Life, Bob Mitchell; Man, Bill Thomson; Young Man, Vere Irving; Workman, Art Seymour; Old Man, Douglas Roy; First Voice, Lillian Bristow; Second Voice, Wanda Vance; Third Voice, Bert Davies; Woman, Betty Cullerne; Cripple, Bob Grierson; others in crowd, Margaret McKenzie, Vernin Clifton, Jean Nelson.

The McDougall Young People's play, "The Londonderry Air" whose leading actress, Margaret Shearer, won the prize for the best individual performance in the United Church festival, will also be done on Tuesday. Others in its cast include Jack Armstrong, a pedlar; Irene Paull, Widow Boggs; Percy Boulton, Hiram, Widow Boggs' son. Mr. Willem Mee is directing.

C.C.Y.M. PLAYERS

Robinson McKay's "Glorious And Free" which C.C.Y.M. players are doing under the direction of Donald G. McAlpine will also be presented on Tuesday evening. The cast consists of "Janet Craig," Agnes Bradley; "Magda"; Florence Owen; "Ethel Craig", Nancy Woloshyn; "Robert Craig", Paul Carmichael; "Blake", Tom Truscott; "Ed Jordan", Jack Truscott.

"Figureheads", the Christ Church Y.P.A. play to which judges awarded the prize in the Anglican Young Peoples festival will be one of the two presentations on the concluding evening of the festival, Wednesday. Stuart Carson and Alice Bate are the directors and Mr. Carson also takes the leading male role, that of the Prince. Others in the cast are, "Princess", Heather Priest; "Gertrude", Avrey Drummond; Guards, Hugh Horler, George Beresford.

INITIAL EFFORT

First effort of the White Circle Club in the field of dramatics, "The Nursery Maid of Heaven" by Henry Wood Stevens will conclude the festival.

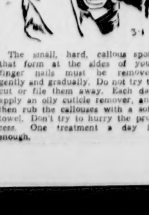

Its players include, "Sister Benvenuta Loreday", Gladys McLean; "Atalanta Hadoer," a novice, Thelma Jenkerson; "The Abess", Monetta Barber; "Sister Sacristan", Peggy Hepburn; "Sister Germaine", Maxine McMillan; "Sister Rosalba", Olive Fraser; "The Abbe Filoil", Jack Wilson; "The Puppet Man", Bill Wallace; "Beelzebub Satanas-ov", Stuart Carson; Sister of Our Lady of the Rose Bush, Vera King, Jessie Innes, Helen Kirkland, Marjorie McLean.

Soap, Water Combined Girl's Best Friend

By GLADYS GLAD

According to Joan Blondell, who possesses an exceptionally lovely complexion, soap and water are really a girl's best friends. Joan gives a soap and water cleansing to her skin at least once a day. She finds this method of cleansing most satisfactory.

Joan believes that hard water can do a great deal of damage to the skin. It can make it rough and harsh. Oddly enough, I've discovered that very few women seem to know the difference between hard water and soft water.

Hard water merely is water that contains constituents of chalk, limestone or dolomite. It never should be used for cleansing the face, as it tends to remove too much of the natural oils that keep the skin soft, smooth and supple.

USE ONLY SOFT WATER

Only soft water should be used for washing the face. Hard water tends to make the skin dry, rough and leathery and anything but attractive.

Women often have difficulty with soaps, too, when hard water is used, for when certain soaps come into contact with hard water, the mineral compounds of the water combine with materials present in the soap, and form an insoluble scum that coats the soap tablet. This naturally greatly reduces the cleaning and lathering properties of the soap, and is detrimental to the skin.

If you live in a hard water district, the thing to do is always to soften the water you use for cleansing your skin. There are several ways of doing this that are both cheap and simple. For softening bath water, bran bags are really the least trouble. Make small cheesecloth bags and fill each of them with a small amount of ordinary bran. If you add a spoonful of lavender flowers or powdered orris root to each of the bags, it will also perfume your bath delightfully. Just drop one of these bags in your tub of water whenever you bathe, and the water will be softened most effectively.

You may also use bran to soften the water that you use in cleansing your face and hands. Boil a pound of bran in a gallon of water for half an hour, and then strain the mixture, reserving the solution. To this solution add just a few drops of perfume, in order to give it fragrance. Then add enough of the perfumed bran water to your basin of water to turn the solution milky. A few drops of tincture of benzoin also softens hard water, and gives it a luxuriant, milky appearance.

First Aid TO THE Ailing House

INSULATING A HOUSE
By Roger B. Whitman

Question—We want to insulate our house. One company proposes to put insulation in the walls and roof. Another says that as most of the heat escapes through the roof, the insulation is needed only in the attic floor. What is your opinion?

Answer—Insulation in the attic floor is much more important than in the walls. Far more heat is lost through and around windows than through walls. For real heat-proofing, all windows should be provided with metal weatherstrips and with tightly fitted storm sash. I recommend that you do this in addition to insulating your attic floor.

WHITEWASH FOR CELLAR WALLS

Question—My cellar walls were once whitewashed, but now look shabby and dirty. I want to whitewash them again. What should I use?

Answer—Ordinary whitewash is hydrated lime mixed with water to the consistency of paint. This does not last; it can be greatly improved by the addition of common salt dissolved in water in the proportion of 15 pounds of salt to 50 pounds of hydrated lime.

Rather than whitewash, use a kind of paint made for masonry; you can get it at a paint store. This lasts longer, and can be washed when soiled. Before putting on either whitewash or paint, the walls should be cleaned and all old white wash taken off. This can be done with water and a stiff brush.

CLEANING WITHOUT A RAG

Question—I took a spot out of an upholstered chair with a spot cleaner, but it left a ring. Is there any kind of a cleaner that will not leave a ring?

Answer—A ring is not from the cleaner but from the way it is used. On upholstery, you took not only the spot, but dirt as well. Keep on with the cleaner over all of the upholstery to get out the dirt all over and to bring it all to one uniform tint.

In taking a grease spot from cloth that is otherwise clean, lay the cloth on a pad of towels or something silimar. Soak a wad of cloth or of absorbent cotton with the cleaner, and apply in straight strokes from the outside toward and over the spot. Do not rub with a circular motion. If you begin on the spot and rub outward, a ring is likely to be formed.

Contract Bridge

MORE LUCK THAN SKILL

Sometimes one wonders at the readiness with which many players bid small slams, and even grand slams, depending upon favorable location of missing honors to fulfill contracts. This deal illustrates such a case of small slam bidding, when either an opening lead of spades or a shift of K's held by defenders would have made a bare game the limit possible to fulfill.

Bidding went: South, 1-No Trump; North, 2-Clubs; South, 2-No Trumps; 3-Diamonds; South, 3-No Trumps; North, 4-No Trumps, probably because he held two Aces. South, 6-No Trumps, because he held two Aces and strength in both of partner's suits.

The opening lead was the 10 of diamonds. Declarer took both his kings in that suit, then he led the 6 of clubs. He covered and five were run. East had to make three discards. The first was his last diamond. The next was a low spade. Both declarer and West also let go low. When East saw declarer's signal with the 9 of spades East let go a second spade. On the two good diamonds in dummy, East let go two hearts and on did declarer. The Q of hearts was led. East's K covered Declarer's Ace on which the tenth straight trick. The 5 of hearts was ruffed. Wasn't a forward. Dummy's 10 lost to East's J, for the first defensive trick.

At this time East held only the lone 6 of spades and the lone 7 of hearts. He led the spade. Declarer's lone Ace won the twelfth trick and his good 8 of hearts yielded him the small slam for which he had contracted. Certainly there was more luck than skill in both bidding and play.

In many circles there are players who enjoy that kind of sporty bidding. They love to see how far out on a limb they can go safely. It is surprising to note how conservative some of those players become when they are opposed by dangerous opponents. They know when to apply the brakes.

Before tomorrow's see what call will pay best with the deal shown above. Consider only what can be accomplished with Disregard prudence and bidding rules

W.M.S. MAKES 77 CALLS DURING MONTH

Report of Mrs. B. F. Prichard, who told of 77 calls made during the month, is tangible evidence of the wide spread activity of the W.M.S. of the Norwood United church, which met this week.

Miss E. Daynard spoke briefly on temperance and Mrs. J. R. K. Graham and Mrs. L. Irwin gave interesting reports of the Presbyterial convention. Mrs. B. L. Willis, as peace secretary, had also prepared an interesting paper for the meeting.

Mrs. T. C. Buchanan conducted the study book period. Mrs. S. H. Irving led the devotional exercises.

Over The Speaker

By E. S. WOODWARD

Quite the most imposing figure in the legislature is Capt. Newby, the Sergeant-at-Arms. With powerful voice he announces the approach of Mr. Speaker and strides in the lead with military rigidity. He thinks plenty of style into his duties and is in fact pomp, dignity and ceremonial tradition personified. Edmontonians who remember the late lamented Sgt. G. W. D. Turner, who occupied the position for so many years, claim that it would be impossible to find a more majestic Sergeant-at-Arms than he was. (My reaction to that claim is that if the present incumbent is second to anybody, that body must have been very good indeed.

* * *

The proceedings opened yesterday with a considered ruling by Mr. Speaker on a point of order raised yesterday concerning Mr. Mullen's right to quote from the speeches of a former Liberal leader who is now on the judicial bench. Mr. Speaker ruled that as no attack had been made on the individual in question Mr. Mullen had not broken the rules. The decision appears to have given general satisfaction.

Mr. Mullen resumed his unfinished speech. It was bright and breezy and Mr. Mullen held attention to the last. The speech was an endorsement of Mr. Aberhart and it also contained a recommendation for the appointment of a four-man livestock board.

* * *

Mr. Ash. of Olds, proved rather a lame speaker. He covered wide territory and expressed views on a variety of subjects having little connection with the legislature. He welcomed the government's alleged decision to appeal the recent adverse intrest judgment, paid tribute to the memories of John Bright, Richard Cobden and Michael Clark, expressed his belief that most of the prisoners in the provincial jails should be released in connection with the coronation celebrations, and thought that capital punishment, if retained at all, should be by gas and the lethal chamber.

He said that prosperity certificates had done good work in his constituency and that business men and working men would be glad of as many more as they could get.

Finally, looking directly at Mr. Bowlen—leader of the Liberal opposition—he said he had a suggestion to make re the filling of the senatorship left vacant by the late lamented Patrick Burns. Mr. Bowlen began to blush in anticipation of a sporty, non-partisan gesture on the part of Mr. Ash. Alas!

He sprang the name of Mr. Herman Trelle.

* * *

A. L. Blue, M.L.A. of Ribstone, dealt a few heavy and timely blows at partisanship being shown by some of his colleagues. He thought social credit should be above the old-time party tactics and should be concerned only with accomplishing something worth while. He asked for action and expressed the view that members of the government were too pre-occupied with their various departments to be able to devote the time necessary to working out social credit plans. He urged that experts be employed. This outspoken speech probably reflects the views of the 30 members who have been meeting to discuss the present situation in the light of the premier's recent confession of failure. The members who are participating in these conferences are definitely loyal to Premier Aberhart and the other members of the government. They simply insist on knowing what is being done, if anything.

If nothing is being done they are insisting on some definite steps towards social credit. Some are asking that Major Douglas be asked to come.

Mr. Blue deprecated lavish expenditures on the coronation in view of prevailing distress. If Mr. Blue expressed his own personal views without backing from others he may yet find himself sitting with Mr. Barnes. If he expressed the views of a majority of social credit members, there is likely to be some interesting developments during the present session.

* * *

As I intimated in this column yesterday Mr. Duggan has announced his intention of asking further questions on the Hargrave incident. Mr. Duggan seems to think that by changing a single word in the form of his question he will overcome the difficulty. That is questionable.

It is doubtful if Mr. Hargrave submitted any documents or wrote any letters. He sent only two telegrams. Mr. Hargrave sat in with the cabinet committee and helped to draft the committee's report, which report was duly signed or initialled by each member of the committee, including Mr. Hargrave himself.

TRUCK DRIVERS ASSAIL PAY ON POWER HAULING

Complaints by truck-drivers that some mines supplying coal to the city power plant were not paying drivers the rate provided for in the agreement between the city and the mines were aired at a meeting of the civic bylaws committee Thursday.

It was decided that representatives of the operators and truck-drivers should confer with commissioners on the pay scale question and that a report be prepared for council in this connection.

A large number of operators and truck drivers were present at the meeting. Louis Lukas, president of the Truckmen's and Coal Haulers' Union, Local 19, presenting the case for the drivers.

Favorite Author

Perhaps they picked Margaret Mitchell for the job because, like the title of her book, moustache cups have "Gone With the Wind." It was a rare occasion, indeed, for the author of the fabulously popular novel to make a public appearance, and it was the Georgia Press Institute, meeting in Athens, Ga., that she honored. Miss Mitchell presents the be-ribboned moustache cup to Percy Miller, managing editor, for delivery to Herschel Jenkins, publisher of the Savannah Evening Press, prevented by illness from attending the gathering.

Owls Second Attack On Man in East Stirs Alarm

BEARDMORE, Ont., March 5.—Serious alarm is being expressed here over attacks by a large owl that has twice hurled itself out of the darkness at men as they went to work on night shifts at the mines in this area 125 miles northeast of Fort Arthur.

Latest victim of the attack is A. Shrader, mine employee who fought off the bird after a struggle in which its talons pierced his heavy work clothes, tearing the flesh beneath. A similar attack was reported previously.

From meagre description of the bird, naturalists have identified it as a great horned owl, a fairly common species. They suggest the bird may be nesting nearby and is merely defending its nest.

The birds lay their eggs late in February and early in March and at such times are more aggressive. At other times of the year they are shy and not commonly seen.

LIBERAL GROUP HEARS PARLEE ON FARM BILL

The most important matter before the house of commons was the amendment by Hon. J. G. Gardiner, minister of agriculture, to the Prairie Farm Rehabilitation Act, H. H. Parlee, K.C., president of the Edmonton Provincial Liberal Association, told the Liberal Study Group Thursday.

Edward C. Fisher presided, and James Donnelly was secretary.

"The scheme looks towards rehabilitation, as suggested by Mr. Gardiner, involved an expenditure of about $1,000,000 per year," said the speaker.

Mr. Gardiner indicated a close study of the situation.

"A reading of Mr. Gardiner's address by anyone in Western Canada would likely alter one's mind as to the problems involved and the critical nature of existing conditions," he said.

PEACE LUMBER DEALER LAUDS U.S. TRADE PACT

Reduction of tariff rates by the Federal government on exports of lumber into the United States has facilitated the development of this industry in the Peace River country declared C. G. Beard, superintendent of the Chisholm lumber plant.

Returning Thursday after visiting with his wife in California, Mr. Beard, who has lived in the near north for 12 years, said his mill has capacity of fifteen million feet of trimmed lumber annually. He said the plant employs 200 men and predicted lumbering would become one of the important minor industries of the region.

Heralding the advent of warmer weather, the train was crowded with one of the largest and merriest passenger lists in months. Particularly noticeable was the large number of women going to the Peace River district.

NO DEFINITE CREDIT PLAN, LIBERAL TOLD

Fruits of Mr. Manning's Invesigation Sought by Van Allen

Up until Aug. 27, 1936, no definite outline of a plan for the implementing of Social Credit in this province had been drafted, according to information given the legislature on Thursday by Hon. Ernest C. Manning, provincial secretary.

The information was contained in a return tabled by him on Thursday as a result of a request by George H. Van Allen, K.C., Liberal, Edmonton, made at the special session in August.

In his request, Mr. Van Allen asked for copies of all reports made by Mr. Manning who was appointed by the government special minister to investigate Social Credit.

PURCHASING POWER

The Minister was to formulate proposals having for their object the increase of purchasing power by means of social dividends and other objects as set out in the order appointing him.

Mr. Van Allen also asked for copies of any plan formulated by Mr. Manning based on the principles of Social Credit.

He also asked for copies of all the reports and memoranda made by Mr. Manning relating to the design and formulation of any such plan based on the principles of Social Credit.

The reply given by Hon. Mr. Manning was that "no written reports were made."

ALL VERBAL

Other portions of the return filed in reply to Mr. Van Allen's questions dealt with similar phases of the situation and the Minister's reply was that "all plans in formulative stages and reports to council were in the form of verbal discussions."

Mr. Van Allen also asked "has the government taken any steps leading to the opening or establishment of credit houses in the province of Alberta to handle the proposed dividends to Alberta Credit" and to this question the minister replied that a general survey had been made of possible locations.

Britain's Big Arms Bill Is Carried

LONDON, March 5—The House of Commons last night approved the bill to authorize the government to borrow up to £400,000,000 ($2,000,000,000) for a five-year period for rearmament purposes. The bill now goes to the House of Lords.

A Labor amendment for rejection of the bill was defeated 241 to 117.

Neville Chamberlain, chancellor of the exchequer, said Britain's proposed rearmament was a necessary preliminary to disarmament.

Japan's Floating Canneries Opposed

ST. LOUIS, March 5.—The Board of Directors on the General Wildlife Federation went on record today as opposed to a proposed establishment by Japan of floating salmon canneries in the extra-territorial waters of Alaska.

MINES BUREAU CHIEF PLEADS CASE OF NORTH

Development of mining in the north will give impetus to Edmonton and make her position as gateway to the North West the avenue to prosperity, contended L. E. Drummond, secretary-manager of the Chamber of Mines, told the Junior Chamber of Commerce at the King Edward Hotel Thursday.

"Only a few years ago Western Canada was recognized the world over as the great granary of Europe. We had our production of wheat grow from 50,000,000 in 1900 to 350,000,000 bushels in 1928. But when our agricultural exports slumped the production of gold and non-ferrous metals came to the rescue," argued Mr. Drummond.

"Ten years ago," he continued, "primary mineral products represented less than 9 per cent of the value of our exports. Last year they contributed more than 25 per cent."

Stressing the need of mining areas to be supplied with commodities of all sorts, Mr. Drummond cited the wealth pouring into Edmonton now from these regions.

Vancouver Wants Garibaldi Park

VANCOUVER, March 5—The city council today dispatched a telegram to Hon. T. A. Crerar, federal minister of mines and natural resources, urging the Garibaldi area north of Vancouver be developed as a national park. The council claimed such development would provide work for young men and bring millions of dollars in tourist trade to British Columbia.

Heads Terminals

NEW WESTMINSTER, B.C., March 4.—J. J. Warren of Toronto was elected chairman of the Board of Directors of Pacific Coast Terminals, Ltd., at the company's annual meeting here today.

PALM OLIVE CO. OPENS ADDITION TO TORONTO PLANT

Expansion of business in recent years has been so great that a 50 per cent addition to the Toronto plant will be opened on April 1, stated G. H. Sloan, general sales manager, Colgate-Palm Olive-Peat Co., who arrived in Edmonton in the course of a tour of western Canada.

Members of the staff of the company have participated in its prosperity, he stated, an increase of five per cent in salaries being granted at the first of the year.

Business at present is at the peak of the company's history and indications are that new high levels of production and sales will be recorded in 1937. Increased advertising appropriations, covering many by-products not previously advertised has been scheduled for this spring and summer.

Mr. Sloan, who is accompanied by M. J. Hackett, also of Toronto, will stop over in Edmonton until Friday evening.

King, Bennett Are Targets For National Debt Humor

OTTAWA, March 5. — Parliamentarians with big families owe a bigger share of the national debt per population basis than those without children, Dr. A. B. Hyndman, Carleton Conservative, told the house last night, but he doesn't expect the money will be paid.

Dr. Hyndman, during a speech in which he held the country was overtaxed, declared that if everyone of Canada's 11,000,000 population shared equally in the national debt each citizen would owe $616.98 and would be called on to pay an annual interest charge of $32.04.

"I know," he said, "that these charges will not affect the prime minister or the leader of this group (Rt. Hon. R. B. Bennett), but I should like to know how it would affect the Hon. member for King's (Thomas V. Grant) who has a family of 15. At that rate he would owe the country $9,236.70. The minister of fisheries (Hon. J. E. Michaud) with a family of 11 would owe $6,798.71.

"I maintain that this money will never be paid, even though we have an increase this year of $200 in our indemnity," he added.

Moon farming, the planting of seeds in accordance with certain phases of the moon, has absolutely no support from any scientific point of view according to a report of the U.S. Department of Agriculture.

56 ABOVE IN CITY THURSDAY

Soaring gaily into the higher readings, Edmonton's temperature hit a new high for the season at 4 p.m. Thursday, when the mercury touched 56 above. All during Thursday night the red line dropped slowly down the scale, and registered the lowest reading up to 9 a.m. at 7 and 8 a.m., when the thermometer showed 30 above. A 10-degree jump then brought the mercury to 40 above at 9 a.m. What little snow there is left in the city is again threatened with a forecast of "fair and mild."

The near north is also in the warm weather game, the highest temperature in the region at 8:30 a.m. being 46 above, at Ponce Coupe and Beaver Lodge, while the lowest reading at that time was reported from Fort Vermilion and Keg River, both having 18 above.

The rain-crow, cries of which are supposed to forecast rain, is not a crow but a species of cuckoo.

MRS. C. ROSS, PIONEER, DIES AT AGE OF 91

Came to Edmonton From Manitoba by Ox-Cart In 1880

Another gap was left in the ranks of Edmonton old timers by the death Thursday of Mrs. Catherine Ross, 10155 93 street, who died in a local hospital at the age of 91 years. She had been in good health up until a few months ago when she was taken ill.

The late Mrs. Ross came to Edmonton from Manitoba in 1880. She was one of the first members of First Presbyterian Church which she attended from 1881, and was a life member and one of the oldest of the Northern Alberta Pioneers' and Oldtimers' Association. She was also a member of the Women's Missionary Society of First Presbyterian Church and a charter member of the East Side Ladies' Aid.

QUIET DISPOSITION

Of a quiet retiring disposition she seldom discussed the colorful events witnessed as a young girl in western Canada during its earliest and most picturesque days.

She was born at High Bank, Little Sand, Prince Edward Island in November, 1846, went to Woodstock, Ontario in 1850, was married to the late Tom G. Ross in Petrolia, Ont., in 1872, and moved to Gladstone, Manitoba, in 1874, where she resided until coming to Edmonton by ox-cart 57 years ago.

Mrs. Ross leaves two sisters, Mrs. M. McLeod and Mrs. Margaret Belcher in Edmonton, and three brothers, Angus McLeod, in the city, Dan McLeod in Vancouver, B.C., and James McLeod in Sangudo, also one grandson, Herbert Bull of Edmonton, and two great-grandsons, Kenneth and George Bull. Her husband predeceased her in January, 1932.

Funeral services will be conducted by Rev. W. Simons, at Andrews Brothers Funeral chapel at two o'clock Saturday afternoon.

SEEING

Still One of the Unsolved Wonders of Nature

By Jackson Bros., Optometrist, J. E. Thomas, R.O.

Taken more for granted than any of today's wonders of modern science are the most marvelous of all wonders, the Eyes. The science and ingenuity of man can build machines that fly, boats that travel under the sea, buildings that tower into the heavens; but they cannot construct an eye that will see. And it is these marvelous organs, with their priceless and irreplaceable faculty of vision, that have made all modern marvels possible. Despite this, they are accepted with little thought.

Nature's first experiment with eyes was performed on the amoeba, a one-celled organism. Although it cannot see, it is sensitive to light. Nature endowed the amoeba with the first cornea. The turtle was the first of the lower animals to have color in its eye. The alligator was the first to have a flexible lens. The rabbit was given an eye especially sensitive to motion. Some birds, such as the eagle, have telescopic vision, the better to sight their food as they soar high in the heavens. Nature worked, giving each creature the eye best suited to its needs. To man she gave the most perfect eye of all. The eye capable of most perfect vision, that people accept so casually.

There is, happily, a growing appreciation of the importance of the eyes and seeing in every-day life among the public generally. This not only improves vision, but enables people to see and enjoy the wonders of nature, and not only that, it improves the health and goes to make a healthier and wealthier nation.

$75 IS NEEDED TO PUT FAMILY BACK ON FARM

... It will take $75 to put the family of Jim Coles, war time flyer back on their farm in the Middlecham district, 22 miles southwest of Edmonton.

The Coles family was burned out even a week ago at a time when Mrs. Coles had just returned from hospital. Nothing was saved. Every stick of furniture, every article of clothing, every cup and saucer, even the family cat and dog were lost. No address to call to for assistance with temporary food and shelter, but much more will have to be done if Jim Coles and his family, a boy of 9 and a girl of 10, and Mrs. Coles, are to be enabled to carry on.

The Bulletin will receive subscriptions and donations of all sorts and they will be acknowledged in these columns.

Rev. H. L. Boettcher, telephone No. 82777, is also interesting himself in the collection of assistance, but the urgent need now is the $75 it will take to erect a shack on the Coles farm to enable the family to get back on the land and do their spring work.

There is a chance to do your share for a family making a fine battle against adversity.

Many donations of clothing and furniture have been made but more is needed.

To date the fund stands as follows:

Previously acknowledged	$4.00
Grace Lutheran Ladies' Aid	3.00
A friend	1.00
Total	$8.00

This is in addition to parcels of clothing, etc.

CREDITOR OFFERS OF OWN ACCORD TO CUT INTEREST

... a creditor before the ... Beaver Lodge ... was willing to take a point rise in interest rate on his mortgage with the provincial mortgage board.

The offer to take four per cent on a $1,000 mortgage instead of the usual five allowed by the board was made by a St Paul district resident who held the mortgage on the land of a neighbor.

The mortgage had depreciated only $7,000 on his half section, and sought reduction to the $4,000 mortgage to $3,000 so he could get a loan from the Provincial Farm Loans Board. A proposal will be formulated

CITY REQUESTS BOARD RULING ON BOND PLAN

Application to have the Exhibition bond debt extension plan approved by the board of Public Commissioners was made by the city this week and it is expected the board will open its hearing on the application about the middle of April.

The board has the power to approve or reject the plan, and the application will be considered by one of the permanent executive council, as well as three members of the board. If approved, the plan or amendments to our Exhibition charter for bonding relief will then be made operative.

Looking Them Over

Color Lines

AFTER the Dominions have battled their way into the Alberta senior hockey final with one of the greatest fighting finishes this city has ever seen, the Alberta Hockey Association ruled last night that in view of the uncertain condition of ice in Edmonton the Dominions will play their "home" game at Calgary on Saturday night. Coleman will get the balance of the games in this two out of three series and they will be played either in Calgary or at Coleman if the latter place can make ice.

That is jerking a choice morsel right out from under the noses of the Edmonton fans and it certainly is not giving the Arena management much of a break after a season that has been mighty lean.

From a financial angle, a game at Edmonton would almost be certain to draw a bigger gate than it will in Calgary. However, the A.H.A. is responsible for seeing that all games are played on the best possible ice surface. It happens that the association's decision works a distinct hardship here though.

Yet Edmonton fans may as well get used to this sort of thing right now. Calgary had enough initiative to put in artificial ice. Saskatoon will have it next winter. Until Edmonton decides to build a new uptown arena with artificial ice equipment, it is going to have playoff games ordered away from it regularly.

Cliff Manahan Comes Through

YESTERDAY Cliff Manahan made one of the greatest shots of his curling career when he came through with that breath-taking rock that scuttled Nova Scotia and sent Alberta into today's final against Jimmy Welsh's starry Deer Lodge rink for the Macdonald Brier. It is shots like this that stamp 14 karat class all over Cliff and lend a lot of weight to the contention that he is Canada's ace curler. There are probably hundreds of curlers in Alberta who have made a similar shot at some time or other, but how many of them can come through with it when the chips are down? Delivering the goods in the pinches is the acid test of calibre.

Color Line Faltering?

SIFTING through from major league centres are insistent reports that the time is nearing when colored players will be given big time baseball contracts. It was first rumored that several clubs were ready to drop the unwritten ban on colored players this season, but that the majority were not quite ready to take the step. Brooklyn Dodgers are reported to be anxious to get the great "Satchel Feet" Paige, whose cannon-ball delivery has been wrecking semi-pro circuits and tourneys all over the continent. Paige has even beaten Dizzy Dean—one of the surest spots in the Dizzy One's record. Clark Griffith of the Washington Senators is also said to be anxious to have Paige's name on a contract.

This color line in baseball seems to be a hangover from days when racial prejudices were accepted as quite honorable. In heavyweight fighting it is claimed that international diplomacy takes a hand when a colored man is within striking distance of the title. That argument certainly can not apply in baseball.

There is little doubt but what most major league club owners would be glad to have some of the great colored players on their rosters. It is good business for at present the colored fans have practically boycotted major league parks. The objection seems to come mainly from white players many of whom hail from the southern states where these outworn prejudices are still maintained.

Badminton Ace Is Albertan

JACK SIBBALD, the Toronto badminton ace now playing in the dominion championships at Vancouver, is a former Edmonton boy. Mrs. Herman B. Wood nominated the lean young star, in the exclusive layout carried by the Bulletin, as the son of Edward Sibbald, pioneer Edmontonian and a member of the city's first hockey team in the good old days.

Here's What Makes Football Click

IF ANY pat thinks it is women who pay and play, we submit for her information the financial statement of the University of California for the 1936 football season. It provides that if the grid fan who does the paying, football part-time university a net profit of exactly $245,972.26. Total receipts after deducting guarantees made to visiting teams amounted to $312,795. The difference between this and the net profit is for upkeep with some high accountancy. It seems fair to assume though that it was a right profitable season for all concerned.

ALBERTA AVENUE COMMUNITY TOPS FINAL STANDING

LEAGUE STANDINGS

Alberta Avenue	5	5	2	18
King Ed. Park	6	5	3	15
McCauley	6	4	3	12
Jasper Place	6	4	2	12
Walterdale	6	3	3	9
Calgary Trail	4	1	3	3
Bonnie Doon	6	0	6	0

The Alberta Avenue squad ended the season on top of the Community hockey league senior division with 18 points and consequently will get a bye into the finals.

Following closely behind are King Edward Park and McCauley with 15 and 13 points respectively. These two teams will clash in the semi-finals for the right to meet Alberta Avenue. The first of the two-game total goal series is expected to be played at the South Side covered rink Friday evening.

The games scheduled for last night were cancelled as the outcome had no bearing on final standings.

Grande Prairie Golfer Advances Victoria Event

VICTORIA, March 5—A. R. McMillan, of Grande Prairie, Alta., strolled his way into the early round of the men's handicap for the Sir Edward Beatty trophy in yesterday's play of the Empress midwinter golf tournament here.

The Albertan carried F. F. Cox of Victoria, 4 and 3, in a quarter-final session and joined Alec Taylor of Victoria and Jack Steil and Paul Glaser of Seattle in today's semi-finals.

Bucks Practically Cinch Coast Lead

PORTLAND, March 5—Portland Buckaroos practically cinched first place in the nearly-completed Pacific Coast hockey league's schedule last night when they turned in a 5-2 win over Seattle Seahawks. Last night's victory gave the Bucks a nine-point lead over second place Vancouver Lions with only one game to play. The Canadians have five on their schedule.

Cliff Manahan Stages Starry Rally With Sporty Shot to Enter Finals

Edmonton Skip Comes Through With Goods On Crucial Eleventh End to Win Over Nova Scotia—Meets Welsh

TORONTO, March 5—Cliff Manahan, 49-year-old grain-man from Edmonton, wrote a brilliant page in Macdonald's Brier curling history last night, qualifying with an extra-end triumph to duel with 27-year-old Jimmy Welsh of Winnipeg today for the Canadian championship.

Manahan came roaring out of nowhere to hang a 13-10 defeat on Hugh Ferguson's surprising Nova Scotians and finish the nine-round title series in a deadlock with Manitoba. A few minutes earlier, Welsh had completed a 10-8 conquest of Saskatchewan, skipped by Frank Smith of Moose Jaw.

Bonspiel officials announced the Welsh and Manahan rinks would decide the championship over 12 ends this afternoon starting at two o'clock. Third place was won outright by Emmett Smith's Haileybury rink, representing Northern Ontario.

ONLY ONE LOSS

Beaten only once in the competition thus far, Manahan and his Alberta quartets struggled through three matches on the final day to bring their win totals to eight. But Manahan, who won the title for Alberta in 1933, wavered last night.

While a great gallery watched the nonplussed Welsh play his early lead that virtually assured Manitoba of victory, the veteran Edmonton skipper was in difficulties. He was being consistently outplayed by Ferguson, leading a fine rink from Truro, N.S.

The Ferguson marksmen started the ninth with a lead of 7-3. Manahan got two points back at the ninth but dropped another at the 10th.

In this situation the Edmonton rink pulled itself together and scored five on a daring shot by Manahan that meant the difference between victory and defeat. Alberta lay two shots and Manahan could draw his final shot for three. That would tie the score.

HAVE LAST SHOT

But Nova Scotia would have the advantage of last shot on the last end. Manahan figured he needed more than three. He called a conference of his rinks—Wes Robinson, 22-year-old George Manahan, son of the skip, and Lloyd McIntyre. The parley decided Skip Manahan would take the long chance.

So he endangered the position of his counters to get at the only Nova Scotia stone in the house. The final shot circled a guard, narrowly missed two Alberta rocks and rolled the Maritime stone out of the circle. There were just five Alberta stones left.

The jubilee was still cheering when Nova Scotia came down the 12th-end agenda and tied it up with two. This was a safety-first end and Jimmy Ferguson of Truro was outmaneuvered by seven guards when he first shot. He pierced the guard to enter the ring. On his final shot he duplicated the effort and made it two.

But Manahan produced the answer to those shots on the extra end after Ferguson had made two brilliant draws to lie shot. The Edmonton skip took them both out, leaving Alberta with three.

LESS SPECTACULAR

Less spectacular was Welsh's conquest of Saskatchewan, but after bombing up a 5-2 lead in the first four ends the Winnipeg skater had his troubles. A four on the 10th end provided the last edge. It was much closer before the Moose Jaw curlers settled down.

Skip Smith was a shade heavy and wide with his last rock on that end and slipped through the house which contained three stones. Welsh made it four for Manitoba on his last shot.

The Winnipeg four became ornate, starting with the fifth as Saskatchewan got on a 2-1-1 scoring string, but they made no mistakes after that. It was knockout curling to the finish.

INTO EXTRA END

To win third place, Northern Ontario was forced into an extra end by the A. E. Dunker rink of Ontario, which scored three points on the 11th and 12th ends. Haileybury counted a single on the extra end to win 10-9. The victory was the seventh in nine starts for Emmett Smith's northern crew. Only Manitoba and Alberta upset them.

Judge C. R. Harry's New Brunswick team scored its only win of the series in the last draw, beating Prince Edward Island 13-6. British Columbia defeated Quebec 19-4 in the other night game.

Montana Wins

LONDON, March 5—Small Montana, Philippine flyweight, outpointed Pat Palmer of England in a 10-round bout at Albert Hall last night.

Gradette Blues Win Hoop Title Beating Wasps

Take Intermediate Loop Final 47-31; Power High Scorer

Finis was written to the Intermediate Ladies Basketball League at the McCauley gym last night as the Gradette Blues and the Wasps played their last scheduled fixture of the season. The Blues came through in fine style to win decisively by the score of 47 to 31. It was a grand conclusion, for both teams dished up their best basketball of the current season.

Coach Clare Hollingsworth expecting that the strange floor with its low ceilings and wider surface would handicap the Blues found instead that his proteges were organizing their plays with better judgment.

SCORING PAIR

Hilda Hughes, with 14 points and Edith Power with 18 points led the way. The top scorers for the Wasps were Holmgren, Ford, and Phillips with 8, 7 and 7 respectively.

The play began with each team setting a fairly pace. The Wasps were perhaps the better squad during the first few minutes of play but not for long. Hughes and Power of the Blues soon solved the riddle of their offence and gathered enough interceptions to take control of the situation. Holmgren, however kept firing away until her efforts netted her a very total of 8 points. The period finished 19-11 with the Gradettes on top.

The next quarter was decidedly a Blues parade with Edith Power leading the procession and Zelma Watkins and Mary McIntyre giving valuable assistance. The latter two Blues played their best game of the season. At half time the score sheet showed 33-14.

BATTLING HARD

The Wasps were battling hard in the last half of the game and fought desperately to check the inevitable swing of victory. The Blues enjoying a slight edge in the play neared the final whistle, injected their substitutes into the fray and dropped the decision 47-31.

The splendid showing of Edith Power and Hilda Hughes in last night's game emphasized the regret that the Gradette management holds that these girls are unable to help the team against Calgary in the play-downs.

Gradette Blues—Hughes 14, Watkins 4, Dandy 2, Davidson 4, Strachan, McIntyre, Power 18, Allen. Total 47. Fouls 6.

Wasps—Miller 5, Ford 7, Bornett 4, Phillips 7, Swallow, Holmgren 8. Hodgson. Total 31. Fouls 5.

Canadian Horses Probable Starters San Juan Handicap

LOS ANGELES, March 5.—With imports already assigned, racing secretary Webb Everett presented today the eight topnotch horses that would start in the $10,000 added San Juan Capistrano handicap—the big race on Saturday's closing program at Santa Anita Park.

The Vancouver thoroughbreds Indian Broom and Special Agent, Wee Glory, Red Rain, Chanceview, Gold Seeker, Star Shadow and Seabiscuit were listed as probable starters.

Seabiscuit, second to Rosemont last week in the rich Santa Anita handicap drew top weight of 120 pounds with Major Austin C. Taylor's Indian Broom at 118 and Special Agent at 116 next in order.

Rosemont was not entered, but the Forsgetner Farms Gold Seeker may try for the concluding big purse.

Battleford Beavers Near Hockey Title

NORTH BATTLEFORD, March 5.—North Battleford Beavers were within one point of the Northern Saskatchewan Senior Hockey championship last night meaning the third game of the best of five series against Flin Flon here last night, the Beavers chalked up a 7-3 victory. The fourth game will be played in Saskatoon Saturday, with no date set for the fifth if necessary.

Edmonton Juniors Beat Lacombe 7-3 Semi-Final Opener

Gas Co. Gang Race Through Lacombe's Forces For Seven-Goal Lead—Play Here On Saturday Night

By JACK DEAKIN

LACOMBE, March 5—Gas Rangers, Edmonton's bid for a junior hockey championship, raced smartly into a one-game lead in provincial semi-final play, as they handed Lacombe juniors a stinging 7-3 shellacking at Lacombe last night.

Smashing their way through a brace of tough series for the city championship, Rangers last night sped a game further in their playoffs and left little doubt as to which club would meet Alberta's southern titlists for the provincial crown. However, they have another game to play against Lacombe, which is tentatively booked for Arena ice here Saturday evening.

FIVE GOAL LEAD

Gas Rangers did not under estimate their Lacombe opponents. Instead they went out a fighting club at the drop of the puck in the first period. In this frame the Edmonton juniors raced through their opponents' ranks at will, and, before the session ended, had piled up a five goal lead.

Despite the fact Lacombe's squad was playing in its own back yard, they appeared lost in the inital frame. They could not hang onto their checks and many times left such clever marksmen as Stanley Yanew, Cully and Jacknisky uncovered. That brought nothing but ill luck for the Lacombeites and a five-goal deficit.

However, in the middle session Lacombe tightened up its defence and played their positions better to hold Rangers down to two goals, while they themselves failed to tally. The session ended with Rangers in front by seven goals.

The third period painted a happier picture for the Lacombe crew. They silenced Ranger snipers who failed to score but sent a crowd of 300 or more Lacombe fans nearly frantic as they punched home three markers.

LOTS OF SCORING

Don Stanley, rangy Ranger pivot star and Pete "poker-face" Yanew were again spearheads of the blistering five-goal Ranger attack in the first frame. They each scored once and got an assist apiece on their two markers. Cully, a curly headed young speedster who never seems to tire on his silver blades and who worked like a trojan throughout the game, was the big marksman of the period with two unassisted goals, while Jacknisky who opened the scoring gained the remaining goal of the period for the winners.

Shortly after the start of the second session Cully hung up his third unassisted marker which was followed by a clever passing attack between Yanew and Stanley, who between them rung up Rangers' sevenths and last goal of the game. Yanew was the scorer and Stanley the helper-outer.

Miles with two and Carter with one did Lacombe's scoring in the third frame. While Lacombe deserved one or two of these goals, a shutout also could have been a just decision for the Rangers. At least two of Lacombe's goals were of an easy variety.

THIS CHET IRISH

Chet Jacobsen's tiny atom of fighting Irish — measuring no more than four and one-half feet high—named Chet Irish, caught his redhead's revenue. Darling of the "Kid" is affectionately called Horner by Lacombe fans, and despite the fact he was used sparingly he gave a good per.ormance. One could not help but admire his spunk and a fair amount of hockey ability against his much bigger opponents. Centering off once with Don Stanley Irish looked like a midget, but at that he won the toss. So, if you see this little fella out at the Lacombe rink tonight, don't be surprised if he is wearing a Ranger sweater.

MONARCHS WIN STERN BATTLE FROM FLIERS

West End Flashes Upset Eagles By 17-14

Eastwood Fliers staged one of the gamest fights ever seen in the City Girls' Basketball League last night before going down to a 34-31 defeat at the hands of the Spruce Grove Monarchs. It was only two fast goals in the last minute of play that decided the struggle.

The Eastwood girls turned in a smart game all the way and held an edge in play throughout each period. Evelyn Woods was particularly effective on defence. G. Walls of the Spruce Grove squad was another outstanding performer.

In the second game of the evening the West End Flashes upset the confident South Side Eagles with a 17-14 victory. This sends the Eagles into next week's games with a loss chalked up against them, and two losses means elimination from the Blyth trophy race. The Eagles meet the fast-developing Fliers next week and should be a rousing encounter. Monarchs and Flashes will also play next week.

LINEUPS AND SCORING

Flashes—Vic Johnson 2, D. Atkinson 2, MacKechnie; Westbrook 2; King; Frederick 6; Sizemore, Thompson; McConnell. Total 17. Fouls 10.

Eagles—Phillips; Sherwin 2; Elliot 2; Reid 2; Rain 4; Adams 1; Cameron; D'Arcy 2; McLennan 1; Total 14. Fouls 8.

Monarchs—A. Great 12; Shutz; Walls 6; B. Great 2; Claire Ross 12; Cross; Great; Reavley 2. Total 34. Fouls 4

Fliers—Sandy T. Straley 4; Mackay 4, Douglas 4, Shelter 9, Woods 3; Leonard. Total 31. Fouls 5.

Referee—Don Burton.

A limp of fresh burnt lime in the drawer or case in which steel implements are kept will preserve them from rust.

Arena possibly Saturday, give him a big hand, he deserves it.

An injury to Cully was the only one that followed the Rangers. Cully was struck on the side of the face, tearing a wide cut down the side of his noble nose. He will be given doctor's attention today, but is expected to be in the next hockey battle. The accident happened during the third period.

LINEUPS

Lacombe—Swintarski, Jones, Carter, Chapman. Miles, Cliff, Roberts, Ritson, Irish, Brooks.

Edmonton—McGuire, Foster, Kingsmpson, Stanley, Jacanson, Yaney, Cully, Dandurand and Gowell.

Referee—Bill Martin, Red Deer and Jimmy Melnyk, Edmonton.

Hawks Beat Canadiens 5-3 As Wings Stop Rangers 2-1

Mightier Than Ever

AUREL JOLIAT

Rolling along as seemingly unstoppable as time itself, Aurel Joliat, the "Mighty Atom" of Montreal's Canadiens played his 653rd game last night as Americ. beat Habitants 5-3. The 135-pound Ottawa native is playing his 15th season and shows no sign of cracking. Both Manager Hart and himself expect him to carry on for some seasons yet. Joliat is 35.

Chicago Keeps Playoff Hopes Alive With Fine Victory

MONTREAL, March 5.—Chicago Black Hawks, keeping alive the faintest of hopes for a national hockey league playoff berth, defeated the section leading Montreal Canadiens 5-3 last night for their third victory in five days.

Hawks skated Canadiens ragged most of the way, showing a classier brand of hockey than at any other time in Montreal this season. George Manths, with the first of two goals, cut their lead once in the second period and Paul Haynes did it again eight minutes later.

Only Cude's brilliant work during the last half of the third period, when his defence left him alone almost all the time, prevented Hawks running up a wide margin.

SUMMARY

First Period: 1, Chicago, Gottselig (Marsh, Trudel), 4:11; 2, Chicago, Gottselig (Trudel), 17:07. Penalties: None.

Second Period: 3, Canadiens, Mantha (McKenzie), 8:37; 4, Chicago, Larochelle (Romnes, Thompson), 14:25; 5, Chicago, Thompson, 16:42; 6, Canadiens, Haynes (Joliat, Gagnon), 18:34. Penalty: Gagnon (misconduct).

Third Period: 7, Chicago, Kelly (Lesynsky), 11:06; 8, Canadiens, Mantha (Siebert), 11:45. Penalties: Marsh, Gottselig, Blake.

Rangers Fall Short in Drive

DETROIT, March 5.—New York Rangers' drive to recapture second place in the National Hockey League's United States division was stopped last night, Detroit Red Wings turned them back 2-1 in their last appearance here this season.

Rangers hit a fast pace, only to be balked by Normie Smith's superb net minding. The Detroit goalie kicked out shot after shot during the third period New York power plays.

Cecil Dillon put Rangers ahead at 6.09 of the first period, Bucko McDonald tied the score a minute and 32 seconds later, taking the puck from Wally Kilrea at the side of the New York goal to best Dave Kerr.

Pete Kelly's third period goal at 5:16 was Detroit's winning tally.

SUMMARY

First Period: 1, Rangers, Dillon (Boucher), 6:09; 2, Detroit, McDonald (W. Kilrea), 3:41. Penalties: None.

Second Period: Scoring: None. Penalty: Goodfellow.

Third Period: 3, Detroit, Kelly (Goodfellow, W. Kilrea), 5:16. Penalty: Heller.

High Jump Record Broken By Lookout In English Show

TENTERFIELD, New South Wales, March 5.—Lookout, a grey gelding, yesterday jumped eight feet, three inches at the Diamond Jubilee show here. Officials stated it was a new high jumping record for a horse, breaking the previous record held jointly by Lookout and Barralid, a Canadian horse, at eight feet 1½ inches. Barralad, they said, hung up the mark in 1925.

Frank Menke's all sports record book lists the official record at eight feet 13-16 inches, almost three inches under the Australian horse's new mark. The record was established in 1923 by Great Heart, owned by Mrs. Stuyvesant Peabody of Chicago. The book does not mention the performances of Lookout and Barralad but lists as a great jump the eight feet 1¼ inch cleared in 1912 by Confidence, owned by the late Sir Clifford Sifton of Winnipeg.

CALGARY RECALLS BARRALAD'S FEAT

CALGARY, March 5.—Barralad, the jumper whose record of eight feet, 1½ inches was reported broken yesterday by Lookout, an Australian horse, at Tenterfield, N.S.W., was well remembered by Calgary horsemen.

Barralad was raised in the Calgary district and trained by his owner, Pete Welsh. Later Welsh and his string of jumpers moved to Lulu Island, near Vancouver. The record was set in a horse show at New Westminster, September 12, 1925.

But the leap that earned Barralad the record was his last. He lost his balance as he went over the timbers, stumbled as he hit the tanbark and broke his neck.

Headlines Card, While King Kong Clayton Meets Clingman in Semi-Windup

With interest equally divided between the main event and the semi-windup Mike Cutcher's pro wrestling card at the Memorial hall tonight promises to make a good bid for full house honors.

Klem Kusek, fiery blonde champion of the padded square, and holder of the Canadian championship silver belt won by Jack Brinto in Vancouver Dominion eliminations, will once again defend his prize before local fans. The challenge this time comes to be one of the toughest "Lefty" Klemmert has faced.

He meets Vic Weber, a mastodon who has taken the fancy of the local gentry by storm by virtue of his clever and polished showings. Kusek will have to resort to all his tricks and he has a goodly amount of them, to repulse Weber's bid.

fore consenting to tangle with master Weber he was most emphatic about terms and he got what he wanted.

With massive King Kong Clayton returning for his second appearance here and matched with Chic Clingman, the semi-windup centres much of the fans' interest. In his first bow here the ebony "horse doctor" made a splashy impression. He met Indian Ike Cazzell and gave the redskin quite a battle, even before being crashed into the timekeeper's table. Both he and Clingman weigh about the same and both are powerful so it should be an interesting tussle.

In the one fall preliminary Jack Domar will be pitted against Gil Knutson a local smother of no mean ability. This should open the card with a bang.

Provincial Hockey Finals Taken to Calgary, Dominions Meeting Coleman

Senior Playoffs to be Staged on Artificial Ice Owing to Mild Weather Here—Juniors May Play Here Saturday

The tussle between Edmonton Dominions, Alberta Senior Six champions, and Coleman Canadians for provincial senior honors and the right to campaign further along the Allen cup trail, will open in Calgary Saturday night.

Though the finals were scheduled to start on Edmonton ice the Alberta Amateur Hockey Association deemed it advisable to take the series to Calgary in view of poor ice conditions locally. While this is definitely a setback for the local team and the EDHA it may be the least of two evil.

NOT WORRIED

Manager Walter Hunter and Coach "Lefty" Grove as far as actual playing is concerned aren't unduly worried over the shift to the south. They expect to take a full team to Calgary and though the actual strength of Coleman is not an unknown factor are confident of victory.

To enter the finals Coleman defeated the Lussag Indians, 1936 provincial senior champions, two straight games, while Dominions were eliminating Drumheller Miners.

While the first game is definitely set for Saturday the evening game are unsettled everything depending on the weather. If the temperature down South should turn cold enough to make ice in Coleman the second game will be played there Monday. If not it will be played in Calgary with the third game if necessary also in Calgary.

JUNIORS UNDECIDED

The junior provincial semi-final series between Lea Rangers and Lacombe may continue here Saturday, if playing conditions are good enough. Rangers won the first game of the series last night in Lacombe by a 7-3 score.

Cousins securing the second unassisted. Manville took the lead early in the second period on a goal by White and in the final frame Mann and Symington secured the final markers.

Quinine pigs can be eaten, but are not generally used in this manner.

Notre Dames Enter Saskatchewan Finals

REGINA, March 5. Wilcox Notre Dames were crowned southern Saskatchewan junior hockey champions last night and will meet Saskatoon Wesleys, winners of the north for the provincial title.

Although beaten 2-1 last night by Yorkton St. Joseph's Wilcox won the two-game total-goal series, 6-3, having won the first game 5-2. York ton 5-1.

Regina Defeats No Confidence Vote

REGINA, March 5.—Government supporters in the legislature yesterday voted solidly down a resolution that constituted a lack of confidence in the administration of the federal farm bonus plan. The resolution sponsored by G. H. Williams, C.C.F. opposition leader, condemned the department manner in which the administration of the scheme had been handled by the Bureau of Labor and Public Welfare.

Chief criticism was voiced against the delay in the issuing of cheques to farmers and workers. No criticism was levelled at the scheme itself.

Dickey Signs for $18,000 Salary

NEW YORK, March 5.—Manager Joe McCarthy yesterday signed Bill Dickey to an $18,000 New York Yankee contract. This represented a $3,500 raise for Dickey over his last year's salary.

Toronto Golf Ace Enters Semi-finals

HAMILTON, Bermuda, March 5—Ada Mackenzie, Toronto veteran and favorite for the Bermuda women's golf championship, advanced to the semi-final round yesterday with an easy 8 and 7 victory over Mrs. H. C. Curtis of Bermuda.

Nelson Takes Lead B.C. Senior Series

NELSON, B.C., March 5.—Nelson Maple Leafs handed Vancouver Canadians a 5-1 trimming here last night in the first of a best of three series for the British Columbia senior amateur hockey title.

British Champion Is Knocked Out

LIVERPOOL, March 5—Johnny McGrory of Glasgow, British Empire featherweight champion, was knocked out last night by Ginger Foran in the seventh round of a scheduled 12-round boxing match here.

SKIERS FROM FOUR NATIONS SET FOR MEET

Competitors, Visitors Mingle in Picturesque Banff Setting

BANFF, Alta., March 5—Picturesque Banff, encircled by the towering snow-capped Rockies, last night was the "mountain home" of skiers from four nations, ready for the opening of the Dominion and Alberta ski championships here today.

In the colorful dress of the ski devotees, hundreds of visitors mingled with the stars from eastern and western Canada, the United States, Switzerland and Norway, who will compete on the high slopes of Mount Norquay.

FIRST CASUALTY

First casualty was Conrad Belisle, of the Club Sportiff de la Vegne, Quebec. During a practice run on the downhill course, the Quebec skier crashed into a tree. He suffered serious leg injuries and was withdrawn from all competition.

The tournament, under the direction of the Canadian Amateur Ski Association, opens at noon today with the Dominion championship. Of 18 kilometre cross-country race, followed by the Western Canada championship junior station. The Dominion championship ski jumping events will be held Sunday. Last of the Dominion events will be at 11 a.m Monday, the running of the downhill race.

International champions of the wooden blades, will be in action.

SWISS ENTRIES

Walter Prager, Swiss coach of the Dartmouth Winter Sports club, has entered along with six skiers from Swiss universities. A four-man team is coming from Dartmouth, headed by Warren Chivers, captain of the college's ski team, and Dick Durrance, the top-ranking skier in the United States.

Norway, the country noted for its jumpers, will be represented by two jumping title at the last Olympics.

Kimberley Suffers First Loss of Tour to Harringay, 7-2

LONDON, March 5—Kimberley Diamonds, Allan cup holders, suffered the first defeat of their Kinnear tour last night, Harringay Racers shading them, 7-2. Because it is one of the strongest teams in the National Hockey League.

Herb Peer, of Oakville, Ont., Steve Latinsky, of Winnipeg, and Kershaw, most of scoring honors, each getting two for Racers. Fan Hexinger, of Niagara Falls, Ont., scored the other goal.

Duffy Kemp tallied for Kimberley in the first period and Gordon Wilson got three second in the middle.

Racers were always in command of the game, leading 4-1 at the end of the first period and 6-2 when the second was through.

Normal Loses 26-21 To Victoria High

In a game that was as close as the final score the Victoria High school girls' basketball team defeated the Edmonton Normal team 26 to 24. Greckol of Normal was high scorer of the game with 10 points to her credit. Sprachlin and M. Ward starred honors for the winners with nine points each.

LINEUPS

Victoria—Sprachlin 9, M. Ward 9, Crawford, Hughes 2, E. Ward 2, Young, Duffy, Box.

Normal—Greckol 10, MacDonald 4, Adams 3, Graham 1, Lotay, Henderson, Kinley, Toad 4.

Westmount Enters Juvenile Finals

Westmount Juveniles won the two-game semi-final series of the Community League when they defeated Calgary Trail Buddies by a total score of 3-1 and will meet McCauley in the finals. In the game last night both teams scored twice, but the shorter one-goal lead secured by Westmount Tuesday proved to be the deciding counter.

EASTERN WOMEN STARS FALL IN SHUTTLE MEET

Defending Champ Is Lone Survivor Western Barrage

Toronto Trio Reach Semi-Finals of Men's Singles — Edmonton-Calgary Pair Beaten—Mrs. Patrick Stars

VANCOUVER, March 5 — British Columbians turned loose their heavy artillery in quarter-finals of the women's singles event of the Canadian badminton championship tournament here Thursday. Only defending champion Mrs. W. R. Walton of Toronto survived the barrage to carry the Eastern threat.

Mrs. Walton

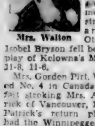

Minnie - haired Daphne Fernie of Kamloops, B. C., upset Ottawa's Ruth Robertson—twice holder of the Canadian crown—in three sets in former years—in straight sets, 21-17 and 11-3, and Ottawa's favored lobet Bryson fell before the sizzling play of Kelowna's Margaret Taylor, 21-8, 11-6.

Mrs. Gordon Pirt, Winnipeg, ranked No. 4 in Canada, bowed out to fast stroking Mrs. Anna Kier Patrick of Vancouver, 11-3, 11-3. Mrs. Patrick's return placement shots had the Winnipegger baffled.

Mrs. Walton had little trouble in eliminating Margaret Robertson, other half of the Robertson sisters combination from Ottawa, 11-1, 11-3.

Mrs. Taylor will meet Mrs. Patrick and Miss Fernie faces Mrs. Walton in semi-finals today.

But as the Easterners were bombed out of the picture in women's play, Toronto triple threat for the undefended men's singles throne—Jack Storey, Joe Eric Leney, Duncan.

Jack Storey

Zaharko and Jack Forsythe—toppled their western opponents and advanced the east colors into semi-finals of the men's singles.

SOLE SURVIVOR

Only Vancouver's Dick Birch, Canada's ranked No. 2 player, was left to uphold the west.

In semi-finals today, Zaharko will meet Storey and Forsythe will play Birch.

In play this afternoon, Forsythe beat Eric Leney, Duncan, 15-10, 15-12. Zaharko defeated Emsley Long, Winnipeg, 12-15, 15-3, 18-7, and Storey took Jack Underhill, Vancouver, 15-6, 15-9. Birch advanced when he beat Bob Pelland, Calgary, 15-7, 15-8.

The Robertson sisters, Ruth and Margaret, of Ottawa, defending women's doubles team, advanced into the semi-finals of that event when they, J. M. Carter and Mrs. A. J. Peel of Vancouver defaulted after Mrs. Carter sprained an ankle.

The east-west threat, Mrs. W. R. Walton, of Toronto, and Ulrica Neave, Duncan, scored a 15-12, 15-2 win over Kelowna's Margaret Taylor and Jocelyn Pease of Vancouver, and Mrs. Anna Kier Patrick and Olive O'Shea, Vancouver, downed Daphne and Mary Fernie of Kamloops, 15-7, 15-13.

CLAPPERTON LOSES

Ottawa's Isobel Bryson and Betty Snell occupied the other semi-bracket with a 15-9, 15-7 win over the Calgary-Edmonton combination, Doreen Clapperton and Barbara Mitchell.

The Vancouver team of Jack Underhill and Archie Seymour were the only British Columbians to come through quarter-final play in the men's open doubles as prevailing shuttlers again unlimbered to mow down the strong coast team of Johnny Banna, Vancouver, and Eric Leney, Duncan.

Major Rookie Crop Promising, But It's Best Not To Expect Too Much

Feller and Owen Top Peagreen Parade

By RICHARD McCANN

CORAL GABLES—At about this time each of the year a young man's fancy turns to gloves, and a couple hundred of the flower of our youthful stuff that other girls' grandpa's carpetbag and hustle off happily to major league training camps.

And, thereafter, from time to time, the dispatches from the front tell you of this and that sensational youngster who can hit anything, including the number; cover more ground than Stanley Mcgan's shadow; and run like Pastor.

Most of them catch an early freight home. All too soon, you see, and all too often, the blossoms that bloom in the springtime fade and die even some shiny brush league field. The buds become duds.

Now and then, however, there comes along a Joe DiMaggio, or a Buddy Lewis, to make the grade right off the bat. But only now and then. Those so-called overnight successes are as rare as Republicans.

Nevertheless, it seems that the major league owners and managers, this year, more than ever, are banking on their recruits being able to step into the breach and deliver with no further delay.

Of course, there appears to be enough reason for these high hopes. This year's crop of rookies is, indeed, a most promising one with practically every major league club being a share-cropper.

* * *

Feller Is Tops

The Cleveland Indians, no doubt, appear to have the cream of the crop in young Mr. Bob Feller, the Iowa schoolboy.

Nearly all the experts agree that Feller can step right in and win 20 games this coming season, although there are a few who point out that his strikeout records were made against the Philadelphia Apathetics and St. Louis Browns when the season had pretty well run its course and the Brownies and A's realized that they were consigned to the bottom of the page.

Be that as it may, there is some question now, however, about Feller being a regular pitcher. Manager Steve O'Neill of the Indians was saying the other day that he might start Feller only about once a week this season.

"He's still growing and regular work is liable to burn him out," O'Neill explained. "I'm not planning to ruin the kid just to have him win 20 games in his first year."

The New York Giants will anxiously watch Johnny McCarthy, up from Newark to take over the first-baseing job shared by the aged Bill Terry and crippled Sam Leslie. McCarthy is said to be a fine fielder but not so much with the bat. He hit only .276 in the International League last year and that doesn't sound so good for the National League.

Next to Feller the most ballyhooed youngster is Arnold Malcolm (Mickey) Owen, who hit .336 for Columbus last year. Owen, who won't be 20 until April 4, was priced at $100,000 during the winter trading season. The Cardinals thought so much of him that they traded Spud Davis, their only veteran catcher.

* * *

Curse on Marty

The boys have put the curse on Joe Marty, up from San Francisco for a trial with the Chicago Cubs.

They are calling him the Joe DiMaggio of the National League because he hit 338. Marty is a great prospect but he may not have the DiMaggio coldness and printer's ink may not run off his back like water off a duck. Pre-season ballyhoo is a heavy burden.

The Boston Red Sox have finally come up with a player they didn't buy from Connie Mack. He's 19-year-old Bobby Doerr, who batted .342 with San Francisco of the Coast League. Joe Cronin thinks so much of Mr. Doerr that he has already signed him second base.

Then there is Johnny Dickshot of Pittsburgh who hit .389 with Buffalo and drove home 112 runs. He's expected to step right in and play one of the outfield positions.

And Cincinnati is saying that it has a left-handed National League Bob Feller in John Vander Meer, who won 19 games and fanned 295 with Durham.

Two rookies are going to fight it out for the right field job on the Boston Bees. They are Vince DiMaggio, Joe's older and quieter-hitting brother, and the venerable peagreen, Frank McGowan, powerful Buffalo Bison who batted .356.

The American League is not so well stocked with recruits, as things look now. Most of the youngsters are fellows named Joe. But Mickey Cochrane at Detroit thinks highly of Rudy York and is going to try to place him in the outfield to get the benefit of his long hitting. And Mickey may give his own catching job to George Tebbetts.

Jimmy Dykes of the Chicago White Sox thinks that Henry Steinbacher, up from St. Paul with a .356 batting average, might crash the White Sox outfield.

Yes, a lot of them will crash. But not lineups.

And so go work at Havana park.

Pitching pointers from Coach Pancho Snyder.

And how do you like my high hard one?

Lavoie, McSporran Hitting Top Pace In Final Training Grind For Fight

Both Concentrate On Developing Kayoe Punch For Definite Decision in Title Fight March 9

Facing the most important fight they have yet had, Louis Lavoie and Eddie McSporran hit their fastest paces yet in their workouts Thursday night in preparation for their 10 round battle in the Memorial Hall on the evening of March 9—the bout that will decide which will advance along the elimination trail leading to the western Canada middleweight professional championship.

Lavoie showed grand shape at the Y.M.C.A. gym yesterday as he went through the right training stunts he indulges in and then polished it off by taking on three sparring partners. The classy French-Canadian was never in better physical condition than he is now and you can wager your kopecs that he will travel faster next Tuesday than Edmonton fans have ever seen him go before.

He has been working a lot on the big bag for a knockout punch. "In my last two fights I had to work on my timing and wind," he explained. "Now that I've got them pretty good, I'm concentrating on a wallop that will settle this fight without the judges having to count up any points. They don't seem to count the same way I do."

EDDIE'S VOLTAGE JUMPS

Silent Eddie McSporran tore into the final spasm of his training grind with a new sort of grimness. He didn't have anything to say, but it was evident that his punch had been stepped up in voltage as he cracked down savagely on sparring partners who were far from anxious to mix with him.

In previous training grinds, McSporran spent a lot of his time in weaving and perfecting his defence. Now he is obviously concentrating on a driving offensive.

Fans who saw Lavoie and McSporran fight 10 stirring rounds to a draw here a month ago can rest assured that Tuesday night will see an even greater fight. Wagers are reported as being made just now as even money.

In the semi-final bout, Wilbert Young will tackle some stern opposition in Les Gaetz of Lloydminster. Both are welters. Edmonton fans here have seen Young turn in three knockouts with his dynamite-laden left, but Gaetz is apparently one fighter who can slay with him. They met last summer and the best Young could do was edge out a 10-round decision.

A number of other smart bouts will bring the card up to some 20 rounds. In addition, Promoter Freddie Osbourne has arranged a special feature attraction in the form of a novelty stunt that will be kept secret and sprung as a curtain raiser.

Louisville Baby Survives Floods Hanging On Light

READING, Pa., March 5—A baby boy in Louisville was saved from flood waters when his parents tied him to a chandelier with a diaper, but his father and mother drowned, Donald Ericsson, a state trooper, reported on his return from the flood zone.

"We heard the baby crying as we went by the house in a boat," Ericsson said. "The kid was hanging about two inches above the water. We found his parents dead in the room."

Jimmie Foxx Signed, Says Manager Collins

BOSTON, March 5—General Manager Eddie Collins announced yesterday Jimmy Foxx, Red Sox first baseman, had signed his 1937 contract. Foxx had refused to sign after report circulated he had been offered $5,000 less than he was paid last year.

Doctor Mislays Patient; Police Called By Wife

ST. JOSEPH, Mo., March 5.—An absent-minded physician was responsible for this one:

The entire police department and a number of railroad detectives spent all day yesterday and part of the day before searching box cars, culverts and ditches for Emmett Duncan, a railroad detective and son of Chief of Detectives John Duncan. Reported "missing," the officer was believed kidnapped by freight car bandits.

Today, however, he telephoned his wife from a hospital, asking why she didn't visit him. It developed he had been taken there by a doctor who promised to notify the family, but forgot.

Lincoln Asked Mail Be Sent To White House

ASSUMPTION, Ill., March 5.—When Will Rogers leaned forward and said: "Pardon, I didn't get the name," upon being introduced to President Coolidge, everybody recognized it as an uproarious joke.

But to the unassuming President Abraham Lincoln, as he is remembered by John Beckett, 87, who delivered milk to the Lincolns more than seventy-five years ago, this might have seemed no joke at all.

Beckett recalled Friday that during the Springfield days of his inauguration, Lincoln called at the post office to request that his mail be forwarded to the White House, Washington, D.C.

Bootlegger Says He Cannot Enjoy Any Other Liquor

SUPERIOR, Wis., March 5—A fine of $100 had been imposed on Thomas Smith of Downsville, Wis., despite his defense in federal court that he was forced to make his own whisky because "I can't drink that stuff they sell over the bar."

Shepherd, Sheep Blown Over Cliff

BELGRADE, March 5.—During a fierce gale at Petrovatz-on-Sea, in Yugoslavia, a shepherd and several sheep were swept into the air by the raging wind, carried over the edge of a precipice and crashed to their deaths in the rocky valley 1,000 feet below.

The shepherd, Bozho Jovitch, was tending his flock on a plateau above Petrovatz when the storm broke out. He and some of his sheep were carried far out beyond the precipice before they fell.

Jovitch's body was found twenty-four hours later in a terribly mutilated condition.

Lindbergh Blushes At Indian Tribute

CALCUTTA, India, March 5.—Col. Charles A. Lindbergh blushed today when an Indian poetess compared his accomplishments with those of Buddha, Galileo and other spiritual figures of the world.

The poetess, Mrs. Sarojini Naidu, at the meeting of the parliament of religions, praised his achievements as "part of the world spirit of faith rendered into action."

Edson Takes 5-0 Win Over C.N.R.

EDSON, March 5—Although the game was fairly even throughout Edson defeated the C.N.R. Juniors of Edmonton by a 5-0 score in a pleasing game here Saturday night.

At the end of the second period the score was 1-0 for Edson, but four quick goals in the last frame boosted their total to five.

Manville Defeats Vermilion By 5-2

MANVILLE, March 5—In a fast hard-checking game at the local rink Tuesday night Manville Aces defeated the Vermilion Juniors by a score of 5-2. The first period was fast and finished with the teams deadlocked at 2-2. Vermilion goals being scored by Cocks and Wright, while Cousins and McMartin combined for the first Manville goal.

LONDON HOPES TO GET THREE CUP TEAMS IN

Arsenal Still Favorite To Lift Soccer Trophy

LONDON, March 5—Londoners are hoping the capital will have three representatives — Arsenal, Tottenham Hotspurs and Millwall in the semi-finals for the English football cup after Saturday's games but the wagering on the team hardly supports their optimism.

As eight clubs prepare for the sixth round, Arsenal is established favorite to lift the trophy at odds of 11-4. Manchester City is quoted at 4-1, Wolverhampton Wanderers 9-2, Sunderland 7-1, Preston North End and West Bromwich Albion 9-1, Tottenham Hotspurs 10-1 and Millwall 20-1.

The Gunners, cup-winners last year, are training at Brighton for their match at West Bromwich. Tom Drake, their sharpshooting centre-forward is not likely to play through a knee injury, but the crack London squad is expected to win. It will be a tough battle as the Albion is a great cup-fighting team and has reached the semi-finals in the competition on 12 occasions.

Millwall, dubbed "giant-killers" after victories over Chelsea and Derby County, major leaguers, is happy. The Londoners will play retired against Manchester City, another top-notcher, owing to the similarity of the colors of the two clubs. The city players will don white shirts and the third division squads opponent is caused by the fact that all its cup victims this season have worn white.

The match will be a battle between third division energy and major league skill. Millwall and Sunderland are the only clubs left in the competition who have not yet won the cup.

Relegation Worries Scots

GLASGOW, March 5—The end of the Scottish football league is in sight and the annual question of relegation red leadership are causing not a few entries some worry. This season the latter doesn't appear particularly bright for the low-placed teams.

Queen of South, just clear of the relegation zone, is out to make it two straight over Glasgow Rangers, leaders of the circuit by two points. Edinburgh's reputed crack eleven would-be critics in the cup competition when they scored a spectacular win over the cup-holders in the first round. In their first league meeting at Dumfries Oct. 24, the teams battled to a 1-1 draw.

Hibernians entertain the dangerous Celtic team Saturday, while the bottom-placed Aberdeen eleven go to Dundee. Pre-game dope gives the Celts and Dundee the edge.

Perhaps the best-played game on the card will be staged at St. Johnstone, with Aberdeen providing the opposition. The Aberdonians will unloose their bag of tricks in a determined effort to at least hold the runner-up spot.

Honey Doubled

SASKATOON, March 5—Honey production, valued at $263,000 in 1936, was estimated largest in Saskatchewan's history—double that for 1935.

Today's Markets

Toronto—Industrials

TORONTO, March 5—The industrial list held minor price gains at the close today. Ford A, Smelters, C.P.R., Brazilian were on the up side by fractions. Dominion Steel nad Coal B traded in quanitity and closed higher. Gains for Hamilton Bridge, Dominion Bridge and the Canadian Car and Foundry stocks were boarded.

B. C. Power A gained 1½ to 38½. Beauharnois added about 1½ points and closing pricse were up for Winnipeg Electric B and Bell Telephone. Cement pfd., Canadian Dredge, Gypsum, Dominion Tar and Standard Paving were higher. Massey Harris stocks sold for minor losses. Lower prices ruled for the Abitibi stocks, the Great Lakes Paper issues and Toronto Elevators.

At Toronto—Mines

TORONTO, March 5—The mining share market today displayed weakness chiefly in the golds and oils.

Falconbridge was off a half point to the 11 mark and Sherritt and Base Metals Corporation dropped a few cents each. Pickle Crow, O'Brien and Macleod-Cockshutt down 10 to 20 cents each.

Darkwater recovered about 20 cents and the close was narrowly higher for Sylvanite, McIntyre and Bidgood-Kirkland.

Pend Oreille showed mild weakness and Hudson Bay and Noranda were steady. Losses included about 30 cents for Foothills, 10 cents for Calmont and A. P. Consolidated and smaller losses were boarded for Home, Dalhousie, Okalta and Calgary-Edmonton.

At Montreal

MONTREAL, March 5—A general upturn sent prices into higher territory on the stock market today.

Dominion Steel and Coal closed around 23⅞, net gain of ⅜. Gypsum added a point. Stel of Canada slipped back two points to 92 and United Steel with Cement lost ⅛.

Smelters gained a point and Nickel ⅞ with Noranda down that much. National Steel Car went to 54, up 2¾, while Massey Harris improved ½ and Cockshutt Plow, at 22½, gained ⅜.

Dryden Paper advanced more than two points to 15⅞ and Howard Smith pushed ahead 1⅜ to 46⅛.

At New York

NEW YORK, March 5.—Spurred by a sharper than expected advance in steel products prices, stock market leaders today bounded upward 1 to 5 or more points, many to post-depression peaks. Transfers were around 2,000,000 shares.

U. S. Steel shot through the 125 mark for the first time in six years following yesterday's announcement its prices would be raised $3 to $8 a ton beginning with the second quarter.

JOBLESS MEN'S BODIES TOPIC IN WINNIPEG

WINNIPEG, March 5—Questions about what happens to the bodies of unemployed single men after they die were raised today by L. St. George Stubbs before the Manitoba legislature committee on law amendments, considering a bill to revise the Manitoba Anatomy act.

"How many unemployed single men on relief had died during the depression years," Mr. Stubbs asked. "Of these, how many corpses were handed to medical colleges?"

"Is it true that pieces of different bodies are buried together, unidentified?" he asked.

Mrs. Stewart-Hay, secretary of the social welfare commission of Winnipeg, said proper burials were provided for all indigents. The cost was set by agreement with the undertakers.

EXPORT HELPS WHEAT PRICES

WINNIPEG, March 5.—Strong overseas markets and good export demand sent wheat prices 1⅜-1⅞ cents higher on the Winnipeg Grain Exchange today. The May future finished at $1.28¾, July $1.24⅛-⅜ and October $1.12⅞.

Joseph Hocking, British Novelist, Dies In Cornwall

LONDON, March 5—Joseph Hocking, the novelist, died today at his Cornwall home.

A prolific writer, Hocking reached perhaps the height of his career with his war stories that achieved wide circulation. Among them were "All for a Scrap of Paper," "Tommy" and "The Path of Glory."

New Waterfront Strife Is Averted

SAN FRANCISCO, March 5—Threatened disruption of relations between employers and longshoremen was averted last night when the Sailors' union announced pickets would be withdrawn from the Canadian steamer Rochelle, thus permitting stevedores to resume work today.

Russian Judge Faces Firing Squad

SARANSK, U.S.S.R., March 5. — Superior Judge A. Demidov, charged with burning down his court house to destroy damaging records, was shot today after being condemned by the court over which he once presided.

It was charged the judge handed out light sentences to those who paid for the considerations.

Chicanery Charged To Toronto Fair

TORONTO, March 5—Alderman Donald MacGregor today resigned from the board of directors of the Canadian National Exhibition. He charged "chicanery and crookedness" in the election of the city council representative to the board.

$5 Price Is Placed On Head Of Crow

CHATHAM, Ont., March 5—A crow bearing a band on its leg and a price of $5 on its head has been released by the Chatham Rod and Gun Club. The reward will be paid to any person in Kent who brings the bird down.

The Isle of Man, like Ireland, has no toads or snakes.

Sopwith Jr. Sponsor

Little Tommy Sopwith, four-year-old son of Mr. T. O. M. Sopwith launches his father's new motor yacht Philante, at Southampton. The Philante is the largest motor yacht ever built in the United Kingdom and will act as parent ship to the America cup challenger Endeavour II on its voyage to the United States this summer. Mr. and Mrs. Sopwith are behind Tommy.

SHOULD CANADA STAY IN LEAGUE MAY BE DEBATED

OTTAWA, March 5. — Reports were current today one of the questions Canada's delegation will bring before the Imperial conference next May will be whether this country should remain a member of the League of Nations.

Many persons prominent in government circles have expressed frank anxiety about responsibilities which would rest on this country if, say, Japan, a non-member, and Russia, a member of the league, should become involved in war.

It was noted estimates this year provide $242,390 for Canada's activities in Geneva, but members of parliament are less concerned about the money than they are about the embarrassing position in which Canada might be placed under the League covenant should war break out in Europe or Asia in which Empire countries were not directly involved.

Big British Plane Makes Fast Flight

SOUTHAMPTON, March 5.—Imperial Airways' flying boat Caledonia flew non-stop from Alexandria, Egypt, to Southampton, in 15 hours, 15 minutes, and an average speed of 150 miles an hour, yesterday.

Flag Of Wales To Have Position In Crowning Rites

LONDON, March 5—The Welsh flag—a red dragon on a green field—will have its place in coronation decorative schemes both in London and Wales as a result of a movement led by Will John, secretary of the Welsh Parliamentary Party.

Three Welsh flags will be placed in Whitehall and the old emblem will also be displayed on 144 government buildings in Wales.

Steel Prices Soar After Wage Boost

NEW YORK, March 5—The United States Steel Corp. announced yesterday it would increase prices of steel products $3 to $8 a ton.

William A. Irvin, president, explained the new prices, to be quoted today to buyers, are aimed to absorb higher steel-making costs resulting from the rise in wages, adoption of a 40-hour week and "sharp price rises in supplies and raw materials."

150 HAVE DIED IN AVENGING STALIN AIDE

Many Others Banished Or Jailed Over Death of Kiroff

MOSCOW, March 5.—Never in modern history has so much human blood been spilled in avenging the death of one man, Moscow observers believe, as in the sensational murder of Sergei Kiroff.

When an assassin killed Kiroff at Leningrad Dec. 1, 1934, he was not a very prominent figure.

150 EXECUTED

Since then, however, 150 official executions have taken place as a direct outgrowth of the assassination. Jan. [illegible] 23 other persons confined for the maximum term of 10 years. Forty-nine more were banished to concentration camps and 29 exiled to Siberia.

And that is only the beginning of what some observers picture as a heavy cloud over the Soviet's future.

Several hundred persons — perhaps several thousands—are under arrest and awaiting trial as the result of direct or indirect ramifications of Kiroff's death.

CZECHOSLOVAKIA FEARFUL REVOLT, NAZI AIDED, NEAR

LONDON, March 5. — Indefinite postponement of the deadline for an international naval and land patrol of Spain raised the question today whether diplomats would be able to isolate possibly graver dangers to peace elsewhere in Europe.

Uppermost in many minds was Czechoslovakia where persistent reports say the German minority, possibly with the help of Chancellor Hitler, is planning an insurrection.

Czechoslovakia lies in the easiest path for either belligerent should Germany and Russia ever decide to fight and presents other grave difficulties for non-intervention.

Russia and Germany would be interested in a Czechoslovakian struggle far more than one in Spain for matters not only of prestige but also of vital military importance.

Harvester Reports 29 Million Profit

CHICAGO, March 5—The International Harvester company's 1936 net profit totalled $29,760,000, largest for any year in the company's history except 1929, Sydney G. McAllister, president, reported today. The 1935 profit was $19,618,000, and 1929 earnings totalled $36,779,000.

Curious World — —By William Ferguson

BOTH THE MALE AND FEMALE PIGEON PRODUCE THE SUBSTANCE KNOWN AS "PIGEON'S MILK," ON WHICH THE YOUNG BIRDS ARE FED.

The grass family is spread over most of the earth, and it includes plants ranging in size from tiny species no larger than moss, up to the bamboos. The roots of grass hold the soil together, making it possible for larger vegetation to grow. Most of man's food is provided by members of the grass family, such as corn, wheat, rice, etc.

CONFIDENTIAL REPORT

CRIME FILE ON BOLITHO BLANE

This serial story is the complete file of a crime, with clews and items of evidence as received by police. The crime was a murder. Can you solve it?

By Dennis Wheatley © 1937 by NEA Service, Inc.; William Morrow & Co.

BEGIN HERE TODAY

Investigating the murder of BOLITHO BLANE, British financier, aboard CARLTON ROCKSAVAGE'S yacht, Detective Officer KETTERING runs into a maze of conflicting circumstances.

As the investigation nears an end and possible motives are checked for each passenger on the yacht, LADY WELTER, the BISHOP OF BUDE, INOSUKE HAYASHI, and REGINALD JOCELYN still appear to offer strong motives for the crime. Only NICHOLAS STODART, Blane's secretary, appears conclusively ruled out.

Then Lady Welter's maid appears, testifies, and collaborates previous testimony which tends to account for Lady Welter's innocence. Previously Rocksavage, Mrs. Jocelyn and COUNT POSODINI had offered rather conclusive proof of their innocence.

Next FERRI ROCKSAVAGE is called for re-examination and, under pressure she admits that she spent almost an hour with Jocelyn in his cabin, which time would cover the period of the crime. This tends to clear Jocelyn of the murder. Thus only Hayashi and the Bishop remain as likely suspects.

NOW GO ON WITH THE STORY

CHAPTER XXIV

Detective Officer Kettering's fifth report, continued:

AFTER my third examination of Miss Ferri Rocksavage it occurred to me that the letter Hayashi alleged he had been writing might have been posted and would then still be in the postbag as, in the course of routine, I had given instructions on the morning of the 5th that no letters were to be sent ashore. This turned out to be the case, and I had the letter translated by the yacht's second cook, who is a Japanese. He attests that the original could not have been written in less than eight minutes, leaving Hayashi only 12 minutes to change. His story, therefore, appears to be true.

The lounge steward, Cane, confirms the fact that the supply of ship's notepaper in the writing room ran out early in the afternoon before Hayashi came on board, and that he could not refill the racks until the chief steward, who had the keys of the store room, got back from his trip ashore.

He further states that Hayashi handed him the letter for posting on arriving in the lounge at 8.15. It is obvious, therefore, that Hayashi could not have procured the paper earlier or written the letter at any other time than that appearing in his statement.

The cabin steward, Ringbottom, also confirms that Hayashi was still unchanged when he brought him the supply of ship's notepaper at 7.55.

Attested translation herewith.

S. Y. GOLDEN GULL,
At sea, 9-1-37.

My dear Kashima,

As you know, instructions were given by Shikoku to do the business either with Mr. Rocksavage or with Mr. Blane. Shikoku refused to offer you anything. Therefore any compensation you may receive will have to come out of my own money. It depends on the fee which will be paid to me by Mr. Blane or Mr. Rocksavage.

I understand that Rocksavage will agree to a loan of ten million dollars, and I may exploit one million dollars for my share. I told them that this was the lowest you would accept.

My expenses have been considerable, and I am therefore suggesting that we divide this amount between us, and on that understanding I am proceeding with the matter.

Yours,
(Signed) INOSUKE HAYASHI.

"To the best of my knowledge and belief the above is a full and true translation of the letter handed me by Detective Officer Kettering.
YIMNO YAMATO,
Ship's Cook.

Witnessed: KEYS KETTERING,
Detective Officer, Florida Police.

* * *

Detective Officer Neame's shorthand notes of Detective Officer Kettering's third examination of the Bishop of Bude.

K: Come in, Bishop. Have you thought of anything since this morning which might show us how you were occupying yourself between 7.05 and 8 on the night of Blane's death?

B: No. I wish I could, but I can't think of anything.

K: What time did Blane come to your cabin?

B: Blane!

K: Yes, Blane. It's no good denying it. I've got the goods on you. Just a little thing that happened to be in your wastepaper basket. See, it's a book match with "Adlon-Claridge" on it, the New York hotel from which Blane wrote you a few days back. Nobody except Blane could have left it where we found it, and it proves that, after he came on board, he went along to see you in your cabin. Now, what have you got to say?

B: But Officer—I—I—

K: I want the truth. What time did Blane come along to you?

B: Oh dear, oh dear. This is terrible. Quite terrible.

K: What time did he come I say?

B: Only a few minutes after the ship sailed. I hadn't been in my cabin more than three minutes when he came in.

K: How long did he stay?

B: Only two minutes. No more, I assure you.

K: Why did he come?

B: Just to ask if I had got his letter.

K: What did he say?

B: Only—only—after asking if I'd got his letter, that it would be well for me to remember that we were very, very good friends, indeed.

K: Then you went back with him to his cabin?

B: No. No.

K: You're prepared to swear to that?

B: I am.

K: That he left you at about 7.10 and you never saw him again?

B: I—never saw him again.

K: Then what in hades were you doing all that time? It didn't take you 50 minutes to change.

B: No, no. I read a little first, I told you, but I never left my cabin. I am prepared to swear to that before Almighty God.

K: What did you read?

B: I read an essay of R. L. Stevenson's.

K: What was it about?

B: What was it about? Why, it was . . . well, you know, I really don't remember; most odd indeed, I can't remember, most unusual.

K: Listen, Bishop, you're in a spot, you're in a spot I say. I've got all the movements of every other party in the ship checked up, and, unless you can prove your alibi, I am proposing to run you for the murder of Bolitho Blane.

B: You can't, you can't do that. I didn't do it.

K: You had motive, you had opportunity. You killed Bolitho Blane and I'm sending you to the chair for it. Get that.

B: What was the essay about? What was it about. I don't know; that infernal hammering all the time. . . I couldn't concentrate for a moment.

K: What hammering? You haven't mentioned hammering before.

B: Oh, indeed, it was terrible. From early 10 minutes after Blane had left me until I went up to the lounge and changed it didn't stop for a moment.

K: For the love of Mike! Couldn't you have told me that before?

B: Why certainly, but I never thought it important. Now what was that essay about? I really . . .

K: Oh, forget that essay. That hammering must have been the carpenter who was outside your cabin all the time.

B: Yes—yes, the carpenter. I said good evening to him when I went up to dinner at 8 o'clock.

K: Well, now, if that isn't the limit. I'll check up on it, but bishop, I reckon it lets you out.

MIRAGE

The young wife was telling her mother-in-law how difficult it was for her to keep house on what her husband was allowing her.

"But, my dear girl," said the older woman, "any woman would be satisfied with what Arthur says he gives you!"

"So would I!" replied the other, sadly.

What To Do

Would you please tell me how I should serve tea from a low coffee table with a removable tray? Should I pour the tea from the table in the living room or fill the cups on the tray in the kitchen? If it is correct to fill the cups at the table, should I put the sugar and cream in or pass it to the guests after the tea has been served? When a hostess is serving a few dainty sandwiches and cookies, should she provide little plates as well as cup and saucer? Please tell me just how to correctly serve afternoon tea?

MRS. D. C. S.

Answer—Yes, indeed, you can serve afternoon tea very attractively from the coffee table. Take the removable tray to the kitchen and on it place your tea service, the necessary cups and saucers, teaspoons and napkins. You might add a small plate of wafer-thin lemon slices in addition to the sugar and cream. If the tray is large enough, put the plate of sandwiches or cookies on it, too. If the tray is not large enough for this, then put the sandwiches or cookies on a separate table nearby and let the guests help themselves. Generally, tea plates are arranged in a pile with napkins between. But when serving a chance caller or a few invited guests, these plates are not always used and the guests may place the cookies or tiny sandwiches on the saucer beside the cup. At an informal afternoon tea, the hostess will herself sit at the tea table and pour and the guests will go to her for their cups, which she will fill after inquiring their preference as to sugar, lemon or cream.

Southern Alberta's "Mercy" Flier Joins Ranks North Birdmen

Famed "mercy flier" of southern Alberta, Pilot Charles Tweed, recently of Lethbridge, has joined the fleet of Grant McConachie's United Air Transport and is now flying out of Edmonton. He has been with the new company three weeks and at present is freighting fish at Checcham, Alta.

The 38-year-old birdman made air history over rangelands of the south when snow-choked roads, for more than a month, isolated ranch and farm homes.

STARTED FLYING IN 1929

Tweed took up commercial flying in 1929. In the sudden and intense cold wave that rolled over the southland this winter he was the most sought-after man. Bucking violent blizzards he made day and night flights to carry aid to those trapped by storms.

His plane was used as an air ambulance, bringing many patients to Lethbridge hospitals. He distributed food from the air to snow-isolated homes and towns and, in addition, maintained a rural daily newspaper route when automobiles and horses could not break through drifted highways.

In six weeks Pilot Tweed covered approximately 10,000 miles in southern Alberta, flying 100 hours during his mercy and commercial service flights. His log shows a total of 2,260 hours in the air.

NO FORCED LANDINGS

Tribute to his ability as a mechanic is the fact that not one forced landing was made during blizzard-season flights and his plane was never laid up for repairs.

Charles is not the only pilot in the Tweed family. His son, now 12 years old, broke the Canadian solo flight record by taking a machine aloft when only 9 years old. His father thught him how to handle the controls.

Charles Tweed is a Manitoban, born at Medora, 150 miles northwest of Brandon. He came to Lethbridge in 1925 and after a year as a bookkeeper returned here to take up flying with Charles B. Elliott, now a prominent Vancouver flier, as instructor.

Madrid Derides War Trends In Hollywood Style

MADRID, March 5.—War thrills in Hollywood fashion, brought derisive hoots today from motion picture theatre audiences in Madrid where the real thing is a part of the daily life.

"Pull down the shade, you fools!" the audience shouted when one of the film characters, during a night air raid, rushed into a room, turned on the lights and started dashing off a dramatic letter of farewell.

Varsity Students Nominate Officers

Marked by scenes of almost riotous enthusiasm almost 75 students living in St. Stephen's College at the University of Alberta gathered in the assembly hall in the college building Thursday night to nominate candidates for positions on their Students' Council for the coming year.

Those nominated were: For president, R. A. McLaren and Charles Hurst; for vice-president, R. H. Tillma, by acclamation, secretary-treasurer, Rod Mercer and Neil Gerrie; for president of the literary society, Ken McKenzie, by acclamation; for secretary of the literary society, Fred Pritchard and Gerry Hutchinson; president of athletics, Fred McKinnon; secretary of athletics, Verne Drake, Bill Ireland, Jo Kato, Alex McEwan; president of the Women's Literary Society and secretary of Vespers, Arnold Bell.

The elections will be held next Tuesday.

Old Editor Dies

LOGAN, W. Va., March 5.—Tom Parker Junkin, 67, veteran editor of Midwestern newspapers, died today from pneumonia. His half century of newspaper work saw him as city editor of the Detroit (Mich.) Journal; managing editor of the Grand Rapids (Mich.) Herald, and owner and publisher of the Buffalo (Minn.) Journal.

Gleaned From Today's News

Someone stole a large thermometer from the wall outside the H. Kelly Plumbing company at 10041 101A avenue Thursday between 5 and 6 p.m. Whether it was a kleptomaniac souvenir hunter or just another weather enthusiast is not yet known.

Hilda Simmons, widow of the late John Simmons, 10608 111 street died in the General hospital Friday. She is survived by two sons, William and Johnny, one daughter, Mrs. Ross McFarlane and one grandson, Ross McFarlane, all of Edmonton. The funeral service will be held at two o'clock this afternoon at the chapel of Howard and McBride.

Air mail roared northward out of Fort McMurray in three Canadian Airways planes, Friday morning. Pilot Archie McMillan was flying Junkers AQW to Fort Norman. Don Lawson flying Fairchield ATZ to Yellowknife and Pilot Russ Air Rankin taking Junkers Art to other northern points.

Condition of Gus Stein, Falun farmer who is critically injured in the Royal Alexandra hospital with a fractured skull, alleged to have been received during a fight with a neighbor, Fred Keene over a week ago, was reported as "slightly improved," by his doctor at noon Friday.

March meetings of the Edmonton Branch of the Canadian Girls Society of Canada will be held March 9 and 22. First of these, next Tuesday, will be addressed by Miss Carpenant, Vancouver, internationally known photographer. A motion picture film also will be shown, as well as "William Tell," filmed in the Swiss Alps.

Daring theft of an automobile from the runway beside his house, was reported to police Friday night. Dr. J. H. Conroy, 9647 111 street, reported at 9.40 p.m. that his car was taken from the runway in his yard between 7.15 and 9.30. The car is a bluish green Chevrolet sedan, 1935 model, with a side radio aerial. Police are investigating.

Mrs. A. W. Stevenson, of 12633 54 street reported to police Thursday that her 19-year-old daughter Ruth had been injured when she fell from the back of a horse she was riding when the animal was frightened by a dog. Mrs. Stevenson said that the girl was riding down the Fort Road hill when the dog attacked the horse, making it buck. The girl was hurled to the ground, sprraining her ankle and bruising her knee and shoulder.

The Edmonton Club of the Associated Canadian Travelers will hold a dinner and dance at the Corona Saturday at 7 p.m. Guests will relate some of his experiences of the Edmonton Grads on their European tour and describe as well some personal observations of that continent. W. H. G. Sinclair, club president will be in charge of the meeting, which will be attended by 150 members. Ted Hosier, chairman of the entertainment committee, is in charge of the program.

Landing at South Cooking lake as the city air field has been cleared of snow by the warm weather, Pilot Harry Allen of Aircrived here Friday, bringing R. Jacobson from Fort Smith and Mr. and Mrs. Alex Fairbairn from Waterways. Pilot Bob Randall also arrived, bringing three passengers including Mrs. Randall and Mayor of Fort McMurray. Marlowe Kennedy was reported Northbound from McMurray to Great Bear lake, Gil McLaren at Goldfields and Stan McMillan also from Fort Smith to Gordon Lake.

Mrs. Mary Race Clark, wife of Fred C. Clark of 10979 81 avenue died in the city Thursday at the age of 39 years. She leaves a husband and one son, Eugene, at home, also three brothers, E. M. Gunn of Rochfort Bridge, Alta., Harold T. W. Gunn of Edmonton, her stepmother, Mrs. Peter Gunn of Edmonton, and two sisters, Mrs. M. C. McKean, Mrs. H. A. McLean, both of Rochfort Bridge. The funeral service will be conducted at one o'clock Saturday afternoon with Rev. Dr. George MacDonald officiating. Hairsine and Body, funeral directors are in charge.

Gladys Swarthout and Frank Chapman are testing out a new theory on their new NBC series. They're presenting "just about what any crowd might sing around our piano."

Lucille Manners, soprano, will have Warren's "Summer Night." Wagner's "Traume" and the traditional "Believe Me If All Those Endearing Young Charms" as her solos during the Cities Service Concert, Friday, March 5 at 6:00 p.m. Edmonton time, over the NBC-Red network. "The Happy Hoosiers" will be the Revelers harmonious offering, and Robert Simmons, tenor member of the quartet, will join Miss Manners in "Here in My Arms." Rosario Bourdon's orchestra will play "Rienzi Overture" by Wagner and Lecuona's "Malaguena."

David Sarnoff, president of RCA and chairman of the Board of NBC, today revealed for the first time details about the series of radio concerts to be directed by Arturo Toscanini over coast-to-coast National Broadcasting Company networks, which were announced on February 5. The series will consist of 10 weekly broadcasts for which Signor Toscanini will receive $4,000 net per contract. Mr. Sarnoff said: The broadcasts will originate from the maestro arrives in the United States in December, 1937. He is under contract to NBC for the duration of the 10-week period and will not be available as a conductor for any other organization during that period.

Signor Toscanini will conduct the NBC Symphony Orchestra, which will be increased in number for these concerts. Choice of program material for the broadcasts rests with the maestro, who has expressed his intention to "play the best in music" during these radio concerts. The date and hour of the broadcasts and other details have not yet been determined.

Jack Benny will take the offensive for the first time and invade Fred Allen's home territory when he shifts the scene of his microphone broadcast across the continent from Hollywood to New York for a series of three Sunday broadcasts over the NBC-Red network, it was announced today. The first program to originate in Radio City will be staged on March 7.

For the past two months Benny has been defending himself valiantly against the verbal thrusts that have been hurled at him from Mary Livingstone, the dean of Town Hall Tonight. He has had little time to do anything except retreat before the Yiddish wit of Mrs. Benny. Now that his favorite violin has been safely returned to him, however, Jack says he plans to launch an attack of his own and is anxious to board the Wednesday lion in his kilocycle den.

Police Court

First prosecution under the new act which proclaimed a minimum wage of $15 per month for taxi drivers was started in police court before Magistrate A. H. Gibson Friday morning. George Wallace, of the De Luxe Cab, 10239 101 street, is accused of breaking the law by an employee, A. A. McLean. At the request of Harold Daniels, appearing for Wallace, the case was adjourned until Tuesday, as Hugh Cameron, Wallace's solicitor, was busy on other matters and could not appear.

* * *

Two young men, Arthur Moxley, 22, alias Alfred A. Pulle, alias Arthur Moxley, and Edward Ruddy, arrested two and a half weeks ago and charged with possession of three revolvers without a permit, appeared before Magistrate A. H. Gibson Friday morning for sentence.

Arrested when a second hand store operator told police that they had attempted to sell him a revolver, the pair pleaded guilty and were remanded until Friday for sentence, in order that police could investigate.

They claimed that they were on their way to Vancouver. Checkup showed that although the police have no record of Ruddy, that they had seven previous convictions, the first of which was registered in Calgary on October 1926, and includes two three-year penitentiary terms.

Ruddy was sentenced to two months imprisonment, to run from the date of his arrest.

Moxley was sentenced to one year in Fort Saskatchewan jail. "On the face of your record I can hardly believe you were led into anything unawares," said the magistrate when Moxley claimed that he had told that he did not need a permit to sell a revolver in Edmonton.

* * *

"I have no sympathy for the second hand dealer who bought all that for $2.75," stated Magistrate Gibson when he ordered restitution of a $50 bag a suit of clothes and two shirts to the original owner in the case of Carl Johnson, charged with theft. Johnson, who pleaded guilty, was sentenced to seven weeks in Fort Saskatchewan jail. He is said to have taken the goods from a room in a rooming house and then sold them.

Frank Gannon pleaded not guilty to a charge of reckless driving and was granted an adjournment until Tuesday, March 9.

The Inquiring Reporter

Feeling very low on account of how the council has made it tough to get on relief and are thinking of raising the taxes, and because there aren't going to be any dividends, and because the rent is due, and because his best friends' wife has got him interdicted, and because even if the river 18 still there it's frozen over, The Inquiring Reporter just wagged his noggin slowly back and forth and asked himself sadly, "What's the use?"

When he had asked himself that question he felt better. So in order to spread little ray of sunshine he went around asking people "What's the use?" Here are the replies:—

BOB GRAHAM, agriculture student: Now listen, that's no way to be, come here and sit upon my knee. I'll sing a lullaboy to you, and then you'll really feel blue.

GEORGE CASPER, med. student: My boy, you got here just in time, I see your eyes no longer shine. You must be on the blink, but I can fix that in a wink.

* * *

ALEX KEATING, policeman: Art is long and life is fleeting, play the game hard and take it as it comes, when you've lost your coat and vest, then you'll know which bet was best.

* * *

ERIC MARSH, teacher: Now here's a motto tried and true—a first class cure for feeling blue—Hitch your wagon to a star, keep your seat—and there you are.

* * *

JEAN HANLEY, coed: Say, you're in a heck of a fix, you'd better write to Dorothy Dix, and if you then are not satisfied, just drop a line to J. S. Cowper.

* * *

BRUCE MacDONALD, man about town: Here's an axe to chop the ice, you'll find the water cool, but once dead men get in, it won't be long, until your worries all are gone.

* * *

ED CLARKE, engineer: It's always darkest before the dawn, don't give up the ship along. It's never so bad it can't get worse—you have no reason to cry "Oh nurse."

* * *

FRANK HAMILTON, truck driver: The use of what? Say lookie here I think that you've been drinking rather, that's my opinion, but then you see, the children may read this—let be!

* * *

HAROLD "HEARTLESS" MacMASTERS, boxing match stooge: Listen I'm a fighter, I'm a scrapper, 'Cause I get awful, lowdown blues—Step in wit' me in de big parade—We've got got class—we ain't afraid.

SALE OF REAL SILK HOSE

Judging by the calendar and the Spring-like "feel" in the air we're ready to admit that it's high time to be doing something about the Spring wardrobe. EATON'S is offering you a line-up of hosiery to help you choose the hosiery part of your ensembles smartly and inexpensively. There's a texture and a color, we're sure, to suit every costume. Stock up now on hosiery for smart Spring wear!

Sheer Crepe Hose

Of course you'll want new stockings for office wear. Needless to say, they must be smart in appearance and durable in wear. Choose this real silk high twist dull crepe texture . . . we think it just right for smart everyday service. Real silk to the pique top. Full fashioned. Flattering daytime shades in sizes 8½ to 10½. FIRST QUALITY! SALE ..... PAIR, **69c**

Service Weight Hose

We might call them brogue stockings. At any rate they're the texture you will wear when you become a walking enthusiast . . . and who doesn't when the air is soft and warm and the sun is bright! Eight-thread real silks in 42 gauge . . . feet strongly reinforced. Hem tops of fine lisle. Seasonable shades, and sizes 8½ to 10½. FIRST QUALITY! SALE ..... PAIR, **75c**

Service Chiffon Stockings

If you demand that your stockings be flattering, serviceable and low in price these are the ones in which you will show a decided interest. The 5-thread real silk service chiffon weave combines durability and smartness . . . the price is an economical one. Lovely shades, sizes 8½ to 10½. SUBSTANDARDS. SALE ..... PAIR, **69c**

Service Weight Crepes

We give these stockings a hearty recommendation for strenuous every-day wear. The extra weight high twist real silk crepe weave is ready to give satisfactory service. Every pair full fashioned. Smart shades in a wide variety. Sizes 8½ to 10½. SUBSTANDARDS. SALE ..... PAIR, **89c**

Lace Top Chiffons

Slip your hand over the 3-thread 45 gauge real silk texture . . . you'll love the sheerness and the flawless quality! The after welt is reinforced to give a maximum of wear. The silk top is finished in a lacy jacquard weave. Full fashioning gives neatness of fit. The new season shades in sizes 8½ to 10½. SALE ..... PAIR, **89c**
